FISCAL ANALYSIS

ASSUMPTION

§571.031 – Blair's Law

Officials from the **Department of Corrections (DOC)** state this proposal makes it an unlawful to discharge a weapon in the limits of any municipality. This newly added subsection is known as Blair's Law. The penalty of unlawful use of weapons is a class E felony, for a first offense and a class D felony, for a second or subsequent offense.

For each new nonviolent class E felony, the department estimates one person will be sentenced to prison and two to probation. The average sentence for a nonviolent class E felony offense is 3.4 years, of which 2.1 years will be served in prison with 1.4 years to first release. The remaining 1.3 years will be on parole. Probation sentences will be 3 years.

The cumulative impact on the department is estimated to be two additional offenders in prison and seven on field supervision by FY 2024.

If this impact statement has changed from statements submitted in previous years, it is because the Department of Corrections has changed the way probation and parole daily costs are calculated to more accurately reflect the way the Division of Probation and Parole is staffed across the entire state.

In December 2019, the DOC reevaluated the calculation used for computing the Probation and Parole average daily cost of supervision and revised the cost calculation to be the DOC average district caseload across the state which is 51 offender cases per officer. The new calculation assumes that an increase/decrease of 51 cases would result in a change in costs/cost avoidance equal to the cost of one FTE staff person. Increases/decreases smaller than 51 offenders are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, the DOC will use the average caseload figure for that specific type of offender to calculate cost increases/decreases. For instances where the proposed legislation affects a less specific caseload, DOC projects the impact based on prior year(s) actual data for DOC's 48 probation and parole districts.

The DOC cost of incarceration in \$21.251 per day or an annual cost of \$7,756 per offender. The DOC cost of probation or parole is determined by the number of P&P Officer II positions that would be needed to cover the new caseload.

Oversight notes DOC's costs were updated to reflect incorrect costs in the previous version. Oversight does not have any information contrary to that provided by DOC. Therefore, Oversight will reflect DOC's estimated impact for fiscal note purposes.

L.R. No. 1227H.02C Bill No. HCS for HB Nos. 795, 99 & 722 Page **6** of **8** March 16, 2021

For the purpose of the proposed legislation, and as a result of excessive caseloads, the **Missouri State Public Defender (SPD)** cannot assume existing staff will be able to provide competent, effective representation for any new cases where indigent persons are charged with the proposed new crime(s) of unlawful use of a weapon under Section 571.031 RSMo. The Missouri State Public Defender System is currently providing legal representation in caseloads in excess of recognized standards. While the number of new cases may be too few or uncertain to request additional funding for this specific bill, the Missouri State Public Defender will continue to request sufficient appropriations to provide competent and effective representation in all cases where the right to counsel attaches.

Oversight assumes the SPD will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the SPD for fiscal note purposes.

Officials from the **Missouri Office of Prosecution Services (MOPS)** assume the proposal will have no measurable fiscal impact on MOPS. The enactment of a new crime creates additional responsibilities for county prosecutors and the circuit attorney which may, in turn, result in additional costs, which are difficult to determine.

Officials from the Attorney General's Office, the Department of Public Safety – (Missouri National Guard and Missouri Highway Patrol), the Missouri Department of Conservation, the Office of the State Courts Administrator, the Kansas City Police Department, the St. Louis County Police Department, the City of Claycomo, the City of Kansas City, the City of Springfield, and the City of St. Louis each assume the proposal will have no fiscal impact on their respective organizations.

In response to a previous version, officials from the Crestwood Police Department, the Ellisville Police Department, the Tipton Police Department, the City of O'Fallon, the City of Southwest City, and the City of Tipton each assumed the proposal will have no fiscal impact on their respective organizations.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other police and sheriff's departments were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill establishes "Blair's Law" which specifies that a person commits the crime of unlawful use of a weapon if, with criminal negligence, he or she discharges a firearm within or into the limits of any municipality. Any such person shall be guilty of a class E felony for the first offense and a class D felony for the second offense. These provisions will not apply if the firearm is discharged under the circumstances listed in the bill.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
