FISCAL ANALYSIS

ASSUMPTION

§21.754 – Operations of a firearm business

Officials from the **Department of Public Safety – (Missouri Highway Patrol and Missouri National Guard)**, the **Missouri House of Representatives**, the **Missouri Senate**, the **City of Claycomo**, and the **City of Springfield** each assume the proposal will have no fiscal impact on their respective organizations.

In response to a previous version, officials from the **City of Corder**, the **City of Kansas City**, the **City of O’Fallon**, and the **City of St. Louis** each assumed the proposal will have no fiscal impact on their respective organizations.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.

In response to a previous version, officials from the **Office of the Secretary of State (SOS)** noted many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to Secretary of State's office for Administrative Rules is less than \$5,000. The Secretary of State's office recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, they also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, they reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities and counties were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.
