## FISCAL ANALYSIS

### ASSUMPTION

#### §190.053 – Training sessions for Ambulance District Board Members

In response to a previous version, officials from the **City of Hughesville** and from **Boone County** each assumed the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

#### SEQ CHAPTER \h \r 1 SEQ CHAPTER \h \r 1 §321.162 – Training sessions for Fire Protection District Board Members

Officials from the **Fruitland Area Fire Protection District** assume a positive fiscal impact from this proposal. Oversight assumes their response is more of an indirect impact to the district and will reflect no direct fiscal impact for the district.

#### §321.223 – Creating a Fire Protection District to replace the municipal fire department in St. Louis County

**Oversight** assumes this section of the proposal allows eligible voters of St. Louis County to petition for the creation of a fire protection district to replace the service of a municipal fire department in the proposed district. If the proposed district is approved by voters, the fire protection district shall replace the municipal fire department in serving the properties of the district at the beginning of the next tax year. Oversight assumes this section of the proposal is permissive and would have no local fiscal impact without action by the governing body of St. Louis County to put it on the ballot and approval by the majority of voters of St. Louis County. Oversight will also assume tax levies between the municipal fire department and the fire protection district would be roughly equivalent. Therefore, Oversight will reflect no fiscal impact for this section of the proposal.

### Bill as a Whole

Officials from the **Department of Health and Senior Services** and the **Department of Public Safety's Fire Safety** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary.
