FISCAL ANALYSIS

ASSUMPTION

§650.125 – Missouri Cybersecurity Commission

Officials from the **Department of Public Safety - Office of the Director (DPS)** state based on administrative support currently provided for similar boards and claims processing, the department would need an additional half-time (0.50) Program Specialist at a salary of \$23,085 plus fringe benefits in Personal Services. This estimate is based on the annual pay rate of existing staff performing similar duties. In addition to Personal Services, it is anticipated there will be costs of the reimbursable expenses incurred by the commission. It is estimated the commission would incur the following expenses:

Mileage (Average of 60 miles/12 persons x \$0.43/mile)	\$310/per meeting
Development, printing, publication and distribution costs	\$5,000/year

It is unknown how many meetings would be needed in order to provide the report of recommendations. Therefore, the total cost is unknown.

Oversight notes the provisions of this bill state the commission shall meet at least quarterly and at all other times as the chair deems necessary. Therefore, Oversight will reflect DPS's fiscal impact; however, Oversight assumes the 0.50 FTE would not be provided fringe benefits and the state would only pay Social Security and Medicare benefits of 7.65 percent. In addition, Oversight assumes the DPS would not need additional rental space for 0.50 FTE.

In response to a previous version, officials from the **Office of Administration – Information Technology (OA/ITSD)** stated it is possible help from OA/ITSD may be needed for gathering information for quarterly meetings for the evaluations. OA/ITSD estimates it would take one day of work per quarter for gathering this information at a cost of \$3,283 annually.

Oversight assumes OA/ITSD is provided with core funding to handle a certain amount of activity each year. Oversight assumes OA/ITSD could absorb the costs related to this proposal.

Officials from the **University of Central Missouri** determine a potential fiscal impact of increased costs for staff time to provide requested data. Amount dependent on what data they request and how much staff time required. Indeterminate at this time based on the broad scope of the legislation language.

Oversight notes the unknown impact for the University of Central Missouri and is unable to project a statewide cost; therefore, the impact to colleges and universities will be presented as \$0 to (Unknown).

Officials from the **Department of Elementary and Secondary Education**, the **Department of Higher Education and Workforce Development**, the **Department of Public Safety – (Missouri Highway Patrol, Missouri National Guard and State Emergency Management Agency)**, the **Office of the Governor**, and the **City of Springfield** each assume the proposal will have no fiscal impact on their respective organizations.

In response to a previous version, officials from **Missouri State University** and **State Technical College of Missouri** each assumed the proposal will have no fiscal impact on their respective organizations.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities, counties, schools and colleges and universities were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.
