FISCAL ANALYSIS

ASSUMPTION

Officials from the cities of **Claycomo, Corder, Kansas City, O’Fallon, Springfield** and **St. Louis**, the **Kansas City Police Department** and the **St. Louis County Police Department** each assume the proposal will have no fiscal impact on their respective organizations.

In response to similar legislation from this year (SB 470), officials from the **Ellisville Police Department** assumed the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.

Oversight does not have any information to the contrary. Oversight assumes there may be cities that charge permit fees for both the installation or use of a battery charged fence and/or an alarm system, however, Oversight is unaware of how many exist in the state and what fee is currently being charged for these permits. There is a potential that these cities who collect these permit fees would lose revenue from these fees, however, Oversight assumes these fees would be minimal. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities, counties and local law enforcement were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
