

HB 154 -- UTILITY RATEMAKING

SPONSOR: Rone

Currently, the Public Service Commission may approve a special rate, outside of a general rate proceeding, not based on the cost of service for electrical services provided to certain facilities if the Commission determines that but for the special rate the facility would not commence operations and that the special rate is in the best interest of the state. This bill changes the facilities that qualify for the special rates to include a facility whose primary industry is the processing of primary metals.

This bill is the same as HB 2565 (2020).
