

HB 896 -- CAREER AND TECHNICAL EDUCATION

SPONSOR: Black (7)

This bill requires the State Board of Education, in consultation with the Career and Technical Advisory Council, to develop a statewide plan establishing the minimum requirements for a Career and Technical Education (CTE) Certificate. The statewide plan will match workforce needs with appropriate educational resources. Each local school district shall determine the curriculum, programs of study, and course offerings based on the requirements of the statewide plan. The Department of Elementary and Secondary Education is required to convene work groups from each CTE program area to develop written model curriculum frameworks that may be used by districts.

This bill is the same as HCS HB 1868 (2020)
