

HB 1043 -- POWERSPORT VEHICLES

SPONSOR: Ruth

This bill defines powersport vehicles to include motorcycles, all-terrain vehicles, motorized bicycles, motortricycles, recreational off-highway vehicles, and utility vehicles. These powersport vehicles will all be subject to the vehicle franchising practices rules under Chapter 407, RSMo. Currently, only motorcycles and all-terrain vehicles are regulated under that chapter.

The bill also increases the minimum mileage a powersport vehicle can have from 20 miles to 75 miles in determining the dealer's net acquisition costs upon termination, cancellation, or refusal to continue any franchise or any discontinuation of certain products and failure to pay reasonable compensation to a franchisee.

This bill is the same as HB 2032 (2020).
