

HJR 37 -- PROPERTY TAX

SPONSOR: Schroer

Upon voter approval, this proposed Constitutional amendment prohibits any municipality or other political subdivision that defunds police from increasing the rate of any property tax levied or imposed by the municipality or political subdivision.

For the purposes of this resolution, "defunds police" means decreasing the amount of public funding available to one or more local law enforcement agencies operating within the municipality or political subdivision by more than 5% of the amount of public funding made available to such local law enforcement agency or agencies by the municipality or political subdivision for the most recent previous fiscal year.
