

HJR 44 -- INITIATIVE PETITIONS

SPONSOR: Simmons

Upon voter approval, this proposed Constitutional amendment would modify the signature requirements for initiative petitions proposing amendments to the Constitution by requiring signature collection in each county, including a city not within a county, of the state.

The resolution would also require a two-thirds majority vote to enact all amendments proposed by the initiative petition process, except that the repeal of any amendment proposed prior to November 8, 2022, could be effectuated by a majority vote.
