THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

It is not the business of government to dictate health policy. Restricting activities of healthy individuals is detrimental to the economy and the individuals themselves.

I support HB 1358. The restrictions on citizens on private property and on healthy individuals goes against the very fiber of our freedom. We must be allowed to make decisions for ourselves and not rely on the government to choose for us. Hanging liability for a virus over the heads of individuals is the wrong thing to do. Please approve 1358 right away.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.			

Just as a person is presumed to be innocent until proven guilty, a person should be deemed healthy until proven sick with an infectious disease (proven by medically - scientific lab test). My 98 1/2 year old father pays over \$7K a month to be held a prisoner in a St. Louis County elderly care facility (Sherbrooke Village). The facility (following County, State, and Federal guidelines) has quarantined all the residents regardless of their virus status. This prohibits residents from leaving the facility or visits by friends or family - resulting in isolation from loved ones. Assuming that most skilled nursing residents are there for memory care, this isolation has resulted in a further deterioration of their mental capacity. The isolation/quarantine has left residents without any advocate. Recently my dad was declared at the end of his life - NOW I am allowed to visit him but only under restricted guidelines. To see with my own eyes how he has lived is heart breaking. His dental pieces were lost months ago, his glasses and magnifier are now missing so he can no longer read, he was moved to another room but his TV wasn't and now it is missing. My dad has dementia and yet they put the call button next to him when he does not have the capacity to use it - meaning if he wants a drink of water he is not able to mentally process the thought to push the call button for help. The healthy should not be quarantined - it is the people who have been diagnosed sick with an accurate test (not a PCR test with an increased amplification rate) who should be encouraged to quarantine. Stop the insanity of wrong being right and right being wrong.

We need protection from municipalities abusing power. Stripping people of rights. Hurting businesses. Costing people jobs. This pandemic has been blown out of proportion. Deaths are inflated and more often than not actually caused by something else. I am a retired medic. My wife works at an urgent care. I can't believe the ludicrous reactions of so many local governments to a cold. Dr. Fauci wrote a paper saying masks killed people during the Spanish flu. It has now been edited and wiped of all mention of them. All these mask ordinances with zero scientific studies proving their effectiveness. There are however scientific studies showing they do not work. We also have statistics that show areas that had no lock downs fared as well or better than places that did. Statistics show mask mandates have no effect on statistics from areas that had them and did not. One thing the statistics also show are places without mandates maintained a strong economy. Missouri is a great state. We need to stop all these municipalities from destroying the economy. Please pass this bill. It's absurd real statistics and scientific evidence is ignored. Thank you for your time.

The impact to our nations economy due to panic perpetrated by government has been egregious. Government should not have the power to shut down people's businesses, or order them to stay at home arbitrarily. What happened during this "pandemic" MUST NEVER be handled that way again. Please pass this bill.

This is a needed bill. The only other thing I would like to see added, is language to forbid any forced vaccinations, or requiring individuals to have to show proof of vaccination. We must stop the government from running us over, and taking over our lives. Government overreach **MUST** stop here and now.

I'm in support of this bill to prevent the government overreach during a health crisis for those who have compromised immunity. Healthy people should not be isolated under any circumstances. According to Biderman's chart of coercion, we were subjected to and we were also subject to forms of torture. These are crimes against humanity.

I support this bill because the government and agencies have ruined lives and livelihoods because of the lockdowns and quarantines of healthy people. We can take care of ourselves and don't need the government to hold our hands and protect us from everything that comes along. It is a disgrace that this nation that claims to be free that we are even having to take this as a measure, the government is supposed to protect our liberties and not take them from us every time we turn around.

The health departments and other government entities have seriously overstepped their bounds and violated our liberties in the guise of safety which proven to be ineffective. Businesses have been ruined due to forced closings and people have lost their livelihood. What has happened to this country assimilates the countries that we have been warned about such as China and Russia with strict lockdowns and quarantines of healthy people. The average age of deaths from Covid is 78 yrs which is the average age of anyone living in the US. The whole thing was a scam to take our rights and livelihoods away from the citizens.

It's sad what is happening to our small business communities being "bullied" by our Health Departments when they have no evidence of COVID being transmitted. Threatened to be closed, yanking their business licenses - for what?? Trying to run their business, earn a living, create jobs for others to do the same, pay bills, etc...just because someone is not wearing a mask. Small businesses should be protected too!! They are critical to our communities thriving and growing and not falling further in into ruin. Funny that I don't see the "big box" stores threatened in this way!! People should have the "personal liberty" to make decisions about how their lives are run. It's not the mayor or the health department's job. They don't have my best interest at heart. We, as individuals, are more than smart enough to see how there is evidence on both sides, and how this has gone back and forth from the so called experts on how we should do this or do that. The numbers DON'T add up as to why the media and some of our local government officials are spreading the "doom and fear" with the virus. It's time for this to all be over!!!

The government has no business making healthcare decisions of the people. Healthy people do NOT spread disease... Quarantining is NOT the government's responsibility. People are responsible enough to know when they are sick, they stay home..... COVID-19 has NEVER been isolated or proven. CDC recently came out and stated COVID-19 is nothing more than a flu. These mandates are nothing more than to destroy the economy and bring America to its knees and make it a 3rd world country..... The governor should forbid ALL counties to stop forcing mandates and abusing authority they don't have over the people, e.g., Jackson County. Stop the BS mandates. Hold people criminally accountable for forcing illegal mandates, including the unsafe and dangerous experimental vaccines.... It's all about control and most people know it. It's mostly in Democratic-controlled areas.... It's slavery. It's communism. There is no Emergency. There is no pandemic.... End this cr@p now.... Businesses should not be forced to make their customers wear masks, etc. Stop the propaganda. Global government is using propaganda to instill fear in the population.

This is an excellent bill providing the protections of civil liberties the citizenry inherently has but were ignored by various entities during the past year. It also addresses the true liability issues in a clearer manner than some other proposed legislation. Finally, it is brief, clear and to the point, making it understandable for everyone concerned, unlike the language of some other legislation I have tried to read during this legislative session.

Finally! A bill that's clearly written to benefit Missouri voters, not lobbyists or lawyers or Big Pharma, and takes steps to protect my liberties and address some major concerns I've had over the past year. In this bill, the government recognizes that it's supposed to serve the people, not babysit them. We'd be in a much healthier place as a society if the common sense expressed in this bill had been implemented earlier.

I support this very important bill,as it is in concordance with our individual rights!!! Our founding fathers wrote the Constitution and the Bill of Rights,so that we would not be subjected to the tyrannical power they and their fathers had escaped from!!! We must have our private property protected,and not be treated as criminals,when a few choose for the whole! Educate,but give people their God given freedoms....or we'll be in the same socialist controlled state as those who are enslaved around the world!!!! Thank you for reading my plea for FREEDOM!!!!

I support this bill wholeheartedly, and I would include, personally, even in the event of PROVEN contagious disease. The appearance of protecting human rights, while eliminating them, is a farce within the confines of our Constitution, State AND Federal, and certainly natural rights do not become void because a law says so! Thankyou Ben Baker for your quick action! My testimony as submitted is true and correct, to the best of my ability.

I support House Bill 1358. It's time for us to get back to normal and stop quarantining healthy people, issuing stay at home orders, etc. Viruses come and go and should not be adequate reason to stifle a population's ability to work or go about their daily activities if they so choose. Our economical state, as well as mental health, is just as important as our physical health and it is up to each citizen to protect their own health - it is not the government's job to tell us how to live.

when the government forbids the use of at least three different control/cures promoted by qualified medical professionals with use of over 1000 patients, by the deliberate rigging of bogus tests, and threatens to fine, suspend physician's medical license, and/or jail, the conclusion the "ailment" is a hoax is apparent.

This is a law that should not be necessary, but it is. It is not the government's responsibility to keep people from getting sick, nor is it reasonable to limit the liberty of people because in the course of normal activity and without intent they might make someone sick.

We know that the government, federal, state and local governments have overstepped the authority that the citizens have given them in all the shut-downs that they have handed down. There is a reason for doing this and it is not for the protection of the people, it is for the advancement of the one-world system. When government oversteps it's authority, we the people should stand up and stop what they are doing.

The Centers for Disease Control and the National Institute for Health disagree on the severity of this pandemic, they disagree on how communicable this disease is and they disagree on who is most at risk for catching or dying from this disease. The two entities even disagree on the effectiveness of the available vaccines. Our US and Missouri Constitutions have no clause which support suspension of our Civil Rights in case of a pandemic. We should pass this bill and we should also outlaw draconian mask mandates and lockdowns which adversely impact our ability to earn a living.

I am in favor of HB 1358 because it will insure that a individual or business will not be subjected to closures, interruption of their business or an invasion of their privacy within their own home because of a supposed pandemic. It is no mystery to me that the Covid 19 was used as a political tool to disrupt our strong economy and bring about the change in our country's leadership. Even today the persecution of individuals that want to restart their business or to go about their daily lives still exists. It is time for a persons right to do as they choose without government interference is long over due.

After seeing the disastrous results of shutdowns nationwide I believe it's imperative that we have in place protections for future instances of pandemics or anything that could lead a political agenda to try and quarantine or shutdown or economic and mental livelihoods. It's been proven now that states and or cities that locked down hard during COVID-19 have had just as many if not more cases along with all the devastation that forced small businesses out of business, drove up suicidal rates, drove up drug use and domestic abuse, and caused no telling what other damage to our already struggling society. This is uncalled for and no excuse can be given. Support this bill and others like it, constituents have not forgotten the damage caused by the political agenda and are watching closely at how their representatives respond.

I support this bill, as it is a violation of my Constitutional rights to quarantine me when I am a healthy person! That is as ludicrous as throwing a person in prison before they have even been charged with a crime! Things in this country have become so backwards and it's time to take a stand and say enough is enough!

I oppose ANY attempt to limit my freedom due to ANY COVID allegations at ANY time! I am sick & tired of seeing reports of governments using the COVID excuse to take away Constitutional rights. I appreciate the even handed approach Governor Parson has taken and RESENT the mask mandates in some cities.

I am writing to express my support for HB 1358. I believe government overreach has become far too extensive, particularly as seen during the COVID-19 pandemic response. Individuals have the right to choose to gather together and make their own personal decision about the type of risk this presents. This bill allows for circumstances where malevolent exposure is present. I implore that our rights as free and individual people be further secured by the passing of HB 1358.

This bill prohibits quarantining healthy people. It prohibits limiting the use of private property when an extraordinary prevalence of a contagious disease has not been proven. It states that no one shall be subject to criminal or civil liability in any action alleging exposure to a contagious disease unless someone knowingly and purposely, and with malice, exposed an individual. These are all things that have been done in response to Co-vid, and they have been very detrimental to our lives, liberties, and property. This is an extremely important bill, and I urge you to pass it quickly in this committee.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My husband and I own Mel Jenkins Building Materials, Inc., at Pittsburg, Missouri (Hickory County). I am in support of this bill, as small business owners often operate on a narrow profit margin. Any liability that we might incur in relation to COVID or other similar situations, will likely be reflected in notably higher insurance costs. There are so many scenarios where we foresee how difficult it would be to deal with the public in operating this business, and try to sort out and abide by new regulations that might be imposed upon us. Missouri needs small businesses to be encouraged and supported in their efforts to exist, and this bill will help do that.

My family moved from Oregon to Missouri last last year seeking freedom from the draconian, tyrannical response of that state to the threat of Covid-19. Kate Brown, the Oregon governor, had ZERO concern about the impact of her actions on anything other than reducing the number of cases. HB1358 acknowledges that many factors must be considered when responding to an infectious disease, not just the most obvious and immediate. I heartily agree with the common sense provisions in this bill, and I believe they will serve to protect the economic, emotional, social, and spiritual well-being of Missourians; and will help secure a better future for our children.

It is the role of a representative republic to protect individual freedom, not erode it. Government overreach is leading us to an autocratic society in which individuals no longer can choose what is right and acceptable risk to them. The nanny state must be limited and not individual freedom. I support this bill for liberty.

I am in support of HB1358. This last year has been full of tyrannical governmental departments restricting basic freedoms that I have never seen before. There were many economic, social and mental health issues, and divisive results left from a virus with a less than 1% death rate. The damage will last for decades. My personal experience was I had my mom in a nursing home. Six long months of not seeing mom. Mom really ate best when family was around. We weren't able to visually see her. Technology "visits" do not work well when your mom has a soft voice and she can not hear well. Mom died 6 months after this all started. Mom lost a lot of weight and had other health issues. I found out she was eating in her own room. Before Covid, we were told she could not eat in her room alone, as she was a choking hazard. Who knew Covid cured choking hazard??? Some may say well your mom lived six months longer because the home tried to keep Covid out. Well, now I wonder if all the times she missed a meal and was hungry, was thirsty but couldn't use her hands to reach the glass, and was soiled and remained that way for hours. Six months with no hugs and telling mom how much I loved her. This bill needs to be passed now. Thank you, Mary Cremer

I support HB1358. Further, I ask that Missouri strengthen its' citizens' constitutional rights to privacy, to engage in any business and be at any private establishment, including home. The goal should be to avoid encroachment from any health mandate anywhere in the state of Missouri that would take away the right to engage in a business, to be with one's family and to avoid any penalties or judgments, or removals for any "disease" that has traditionally been dealt with without such infringements on association and livelihood. There should also be no infringement on the ability of children to attend in person schooling, in the least restrictive manner possible. Further, I encourage legislation to enable citizen's to not be forced to take any specific treatment (including forced isolation) for any disease that is no worse in terms of death or impairment than other diseases in the past that were not treated successfully with such drastic measures. Missouri should not allow any person or entity to redefine words like "pandemic" to make an illness, virus, bacteria, seem more serious than it is. Citizens need to be able to have individual choice in matters of health. Thank you for putting the rights and overall well-being of Missouri citizens its most important duty.

We wish to make a statement of support for this bill. This past year has been challenging for many individuals and businesses due to the many restrictions placed on them by Government entities. The Public Health Dept. has varied in it's guidance in many places and caused problems for folks who haven't seen a consistent data driven or scientific reason for some of the guidelines and policies that were enforced. For example, we agree that an individual should not be quarantined or asked to shelter in place if they are not sick. We also believe that individuals and businesses should have the freedom to make individual choices for the benefit, health, and welfare of themselves and their business. This should be true, especially, if folks own their own property and business. There have been many casualties from this health pandemic. Many folks have lost loved ones, but also many businesses have been lost and gone under too. Some will not be coming back. In our society, we must always balance and value freedom and the rule of law. This House bill will hopefully help to do that. Give folks the freedom that they need, while also promoting the health and safety of the general public during a pandemic.

We the People of Missouri have been deprived of our rights and subjected to a constant barrage of fear, concerning the COVID 19 virus. There was never a good and rational reason for what we have been forced to endure. For the good of normal human society, this must end immediately. It is sad to think that governments and private businesses are considering tormenting every member of our society by perpetually requiring masks not rated to prevent the spread of a virus. It is even more sad and disturbing to think that these same entities are considering requiring forced vaccinations and a "vaccine passport". "Show your papers, please." This must stop now. Please vote in favor of this legislation to protect the citizens of Missouri. Vote in favor of a return to sanity. Thank you.

He who owns property should be able to control that property. If a third party can allege a threat of airborne contagion and the need to manage all possible risk, and thereby restrict the use of private property, then a person doesn't really own it. Think about this as no control, no ownership. That is where the lockdowns take us; confiscation of private property, without just compensation as required in the Fifth Amendment of the U.S. Constitution. I thought the lockdowns were wrong, and I'm a retired board-certified pediatrician. Please support this bill!

It's time to end the COVID craziness. A year later, the actual numbers in no way support the severe actions taken by health departments and other governmental entities throughout Missouri. These actions have either impaired or completely destroyed many businesses and have seriously eroded the social and cultural fabric of our State. I am very happy that the Missouri legislature is finally stepping up to address this extreme and unwarranted governmental overreach. Thank you Representative Baker! The people of Missouri need to be protected from this kind of abuse. Please pass HB 1358.

I strongly support this bill because it prohibits quarantining healthy people. It prohibits limiting the use of private property when an extraordinary prevalence of a contagious disease has not been proven. It also states that no one shall be subject to criminal or civil liability in any action alleging exposure to a contagious disease unless someone knowingly and purposely, and with malice, exposed an individual. This is common sense legislation that MO needs.

As a Missouri resident I support the passage of this Bill. It is not the government's job to dictate mine or my family's personal health. This bill is needed to help prevent state and city government overreach. So many people have struggled not just financially, but physically, emotionally, spiritually and socially due to the stay at home orders, quarantines and online schooling. I have seen first hand how detrimental online schooling has been for many kids of all ages. HB 1358 will help protect and preserve our rights as Americans citizens who live in Missouri. There are many things we have learned through this COVID issue and I encourage you to help set a standard in place where we do not repeat the same mistakes. Thank you.

During times of illness in the community, the government cannot violate people's individual rights for the good of the community as a whole. Rights such as the freedom to move about, to work and pursue individual happiness and to use personal property for individual pursuits are guaranteed by our constitution. The government cannot "lord over us". This is un-american and hence I am in total support of HB1358.

Over the last year, everything America stands for has been under attack like no time since at least World War II. Besides the incredible affronts to basic natural rights, like the right to earn a living and travel, trillions of dollars have been added to the national debt with stimulus spending all the while small businesses have been devastated with stay-at-home orders, lock-down orders, occupancy limits, etc. The stimulus spending would not have been necessary if not for these attacks on consumers and business. Even more incredible, the right of free exercise of religion has been trampled upon like no other time in American history. The damage to churches and the spiritual health of individuals can not be calculated. Then there is all the other "collateral damage" from the failed Covid lock-down, like the increased rate of suicide, deaths from diseases that were not diagnosed and treated because people were not seeing their primary care physicians. The Covid policy foisted upon American can best be described as a folly. Months of empirical evidence indicates the folly. See the distributed document, "Covid Charts CNN Forgot" by historian Tom Woods. The Findings and Declarations section of HB 1358 states logical, even irrefutable facts upon which the functional portion of the bill is based. The new statutory limitations HB 1358 will enact are simply common sense and, frankly, the state of the law everyone assumed prior to the spring of 2020. Please exec on this bill and recommend "Do Pass."

Historically, QUARANTINE for COVID 19 and other infectious diseases was limited to the infected and those who were exposed to a highly contagious disease vector. Only recently has it been postulated that guaranteeing the well and unexposed with the sick in a private residence been used by Public Health Officials as a routine treatment for victims of a pandemic infection. The clinical science behind such quarantine procedures doesn't support its efficacy for being used as a standard practice and MAY have resulted in more infections and higher rates of transmission than using other forms of quarantine. In addition, the Public Health practice of shutting down Public Schools where no evidence exists that there is a serious risk to children and the public school staff has resulted in other forms of public health and economic damage that may only exacerbate the current pandemic. Isolation thru quarantine of the sick and the closing down of public and private institutions and businesses where no evidence of infection is present should be ended. Let the local Public Health Officers and Officials in coordination with State and National Health resources make the judgments for guaranteeing and isolating businesses from public access. Keep the treatment protocols close to home and let local officials do what is best for the overall public health and the economic well-being of our communities and state.

As a citizen, and former health provider, I want to make sure restrictions around the virus are sound and not an overreach by my government. I support this bill because it protects healthy people from mandates that strip away their freedom to remain in their home. As someone who had a severe case of COVID 19, I know personally that if an individual receives the correct treatment, there is no need to leave their home, no matter how long the virus takes to finally show no symptomology. This bill protects that natural healing process that we all would want and follows logic and medical wisdom. And no one should have to carry the penalty for having exposed others to the virus. Where else do we see this played out? Never. The virus is highly contagious and no one person is responsible for that nor should receive a consequence for its spread, except its Authors.

Although I have practiced in the field of Respiratory Therapy for many years now, my statement is made as a private individual. I have been in the field through many seasons of different virus incidents. I have never seen any that was handled in this manner. The field of medicine has not exactly shown itself in the best light in this one. From the start the government experts Anthony Fauci and Deborah Birx chose the models of Neil Ferguson of Imperial college to justify shutting down the country and imprisoning healthy people. Quarantine is sick people, but the government confined healthy people. That is not quarantine. Neil Ferguson has a long history of failed models that has cost England only until now, massive amounts of dollars and hysteria. Were the researchers Fauci and Birx so lax they didn't research his success rate? Based on their failures how many people have lost businesses that have been in their family for years? How many are without jobs now? How many suicides? How much more in domestic and child abuse? How much more in things that can't be measured? Feelings of isolation and hopelessness? All inflicted by the governmental overreach. I see people driving in cars by themselves wearing masks. I know where they get their news. How will some people ever again understand fresh air, sunshine and smiles are healthy good things? And this has set our country on a very treacherous path, countries that demand papers and identification to travel, work, shop and go to the doctor are not remembered today as being beacons of freedom. And medicine again was at fault, originally the loudest voices is the medical community decried the use of Hydroxychloroquin to combat the disease. Forbid it, made it difficult to get and threatened doctors with the loss of their license should the prescribe it which interfered with the doctor-patient relationship. Meanwhile from a friend in Nicaragua, he said their country never shut down, never had a forced mask mandate and had lost about 159 people last time we talked. The difference being if you got sick you went to the pharmacy and bought a box of hydroxychloroquin and azythromycin went home took it and got well in a few days. Then on October 30th 2020, I believe it was, the AMA quietly decided that in fact hydroxychloroquin does work. How many deaths could have been avoided? Experts. I have no desire to see my country and my state join the list of "papers please" countries in the ash heap of history. I urge you to please find in favor of this much needed legislation.

And now that the legislators and do-gooders have so futilely inflicted so many systems upon society, may they finally end where they should have begun: May they reject all systems, and try liberty; for liberty is an acknowledgment of faith in God and His works. -- Frédéric Bastiat - 'The Law'

I own a growing business and lockdowns have stymied and depressed my business. 2 weeks to "flatten the curve" became over 1 year to flatten the economy. I'm of the opinion that covid19 doesn't even exist given that the supposed virus has never even had any strain isolated. There comes a point in time when we have to choose between freedom and (a false sense of) safety. I choose freedom, just like the founding fathers of America, I choose freedom. And every single one of my employee's, suppliers, and partners agree's with me in this regard. America was founded on the principles of freedom. I hope our representatives choose to represent us and pass these measures to prevent unlawful restrictions to personal freedom in the future.

The recent pandemic has resulted in the view that each individual is guilty until proven innocent, and many advocates of lockdowns, mask wearing, and vaccinations view innocent law-abiding Americans as a threat to others as a result of this presumed guilt, without due diligence and without proof. Somehow those that push lockdowns and vaccinations act as if they are fully aware of the intent of individuals who don't support lockdowns, mask wearing and vaccinations. They have no respect for the innate ability for our bodies to defend against a virus and seek to restrict the freedoms of others purely based on fear. There is no consideration for the innumerable micro-decisions that are made by individuals to support or detract from their body's ability to defend against or succumb to a pathogen; decisions on how others take care of themselves which I as an individual do not (and should not) have control over. As such, I as an individual should not be held responsible for health outcomes of others on an individual or a collective basis, when I have not been proven to be a harm to others and when I have no demonstrable willful intent or malice towards others. Of all the freedoms with which we are endowed by our Creator, I rank health freedom as one of the most important basic/innate human freedoms that exist. I strongly encourage all members to consider this as you ponder your decision to vote. As such, I ask for you to support HB 1358, and any bill that protects Individual Health Freedom.

Having read the full text of the HB 1358, I am in complete agreement with this common-sense piece of legislation. The good people of the State of Missouri have self-governed and exercised self-control and this bill codifies as law, what we wish to continue to do peacefully.

I'm strongly supportive of this bill. As we see our government turning into a fascist tyrannical state, our last safeguard is the individual states. Missouri must protect the individual and his/her freedoms against all the wiles of the devils in government who use everything in their power to destroy and trash human lives. Before God Almighty, you elected representatives of the people, will stand before God very soon and if you have not done your utmost to protect the people from tyranny, you will suffer greatly from God's hand. You cannot quarantine healthy people, and this bill helps to protect that common sense right. You cannot stop people from using their private property, nor public property that the people have paid for with their taxes, if there is no science that can be independently proven to limit such use. Only evil men try to stop people from using their God-given rights and the use of their land and property. And government cannot target citizens who disagree with the wide-spread mania going around, with zero science behind the propaganda, to put people in jail and take their money, as is being done in crazy places like marxist states of California, New York, and others. Missouri must stand tall and move more zealously against the marxist agenda, and legislate laws that further protect its citizens. Vote YES for HB 1358 Todd

This is good legislation to protect people from the ridiculous overreach by state and federal government agencies regarding COVID-19. Simply letting COVID-19 run its course develops "herd immunity" that naturally immunizes a population. Death rate from COVID-19 is very low, if responsibly reported as people who die FROM COVID-19 as compared with people who die WITH COVID-19. Democrats, in particular, are using COVID-19 as a tool to weaken the US CONSTITUTION and extend dictatorial CONTROL over Americans, an action that has everything to do with POLITICS and little to do with PUBLIC HEALTH. Democrats are EVIL!-----Counter Covid Response bill: HB 1358 (Rep. Ben Baker)This bill:Prohibits quarantining healthy people.Prohibits limiting the use of private property when an extraordinary prevalence of a contagious disease has not been proven.States that no one shall be subject to criminal or civil liability in any action alleging exposure to a contagious disease unless someone knowingly and purposely, and with malice, exposed an individual.Common sense. Pass this bill.

I strongly disagree with the following statement from the bill: "Because of the prevalence of contagious diseases, exposure is practically unavoidable for most people and likely to occur from multiple sources." The best way to avoid contagious diseases is by quarantening. Doing so when you have no symptoms lowers the percentage of the population that is able get sick at a given time. Other countries with aggressive, mandatory quarantening are now without COVID-19 and can exercise personal freedoms again, unlike the United States, where people wish they could go out again without worrying. Without mandatory quarantening, young people can easily get and overcome COVID-19, without much personal consequence, and pass it along to others, leading to more deaths of our elders. Another quote I strongly disagree with is, "The principal office of government is to secure the individual liberty of the people, including the freedom to make choices about how to personally deal with contagious diseases." Ask yourself this: Should a school principal have the authority to send a child home when they appear sick and could infect others? If yes, the government can and should do the same with citizens, as it is their authority to protect all citizens it represents. Letting each person decide for themselves is not an appropriate response to a disease that, by definition, spreads when people are close to one another. Regarding criminal or civil liability, contagious diseases should absolutely not be conditional on such strict criteria. If a restaurant served me dinner with a dead mouse in it, I should be able to take legal action against them even if its inclusion was not "knowingly or purposefully, and with malice" and even if it didn't cause me "to suffer from a clinical disease." Contagious diseases are no different. In fact, a contagious disease can be much more deadly than dead mice, making legal action that much more appropriate.
