I am in support of this Bill on its face. It makes good sense and is being a "Good-Neighbor" by increasing the feet of a Incineration Facility in a Residential and Non-Residential Zone.

We appreciate Representative Schwadron working with industry on a substitute for his original bill that the National Waste and Recycling Industry Association can support. Our two main issues are the clarification that currently existing permits or amendments to existing permits cannot be hindered in the future by an ever-changing Department of Natural Resources and that the buffer zone should be based on a zoned residential area or dwelling in a city not within a county. The NWRA can support a 1,000-foot buffer zone as long as it is from a zoned residential area or dwelling.
