**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

I am testifying in support of HB 564. This bill would ensure that Missouri counties with federal mining land would receive funds from mining royalties based on where those mining royalties were produced. This legislation would allow those counties to fund their public schools, ensure public safety, as well as maintain the roads and bridges. This directly affects Reynolds County, as it is one of the counties with federal lands that produce mining royalties. Lesterville School District is located within Reynolds County and would be impacted by this legislation.

Reference: The Mine Royalty Bill, HB 564 There are many who have and are testifying in favor of the Mine Royalty Bill before your committee. The last time this bill was considered I also testified on behalf of our community. Due to restrictions in the number of people who can attend hearings, I am sending this email to support the bill. I am a 35 year business owner in Viburnum, Mo. the heart of the mining belt. I am a 6th generation Mayfield in Iron County. I am the former Mayor of Viburnum, Chairman of the Viburnum Economic Development Area Corporation, I'm a Deacon and Trustee of the First Baptist Church in Viburnum, I'm a member of the Iron County IDA Board and my wife is a retired teacher from the Iron Co C-4 schools. The expert in our community on this bill is our Presiding Commissioner of Iron County, Jim Scaggs. His research and understanding is unmatched by anyone. His research is years in the making and spans to several states and includes state and federal employees who are in roles that manage the Mine Royalty Funds. In addition, the very company that pays into the Mine Royalty Fund believes the fund should be sent to the area in which the resource came from. That's without question, Iron and Reynolds Counties. Correcting this wrong funding formula will make a significant financial impact in both counties to be able to provide and sustain public education, county revenues for EMS access and support aging county infrastructure. I would be happy to entertain any questions you would have of me.

**This Bill Needs a lot more thought and debate with Amendments. I see that Roads and Schools with get funding, but what about repairing he land from mining, Parks and restroring the Environment?**
