I wish to lend my support to HB 68. On body is the most secure place for a CCW permit holder's weapon to be. But when our workplace does not permit this, allowing it to remain locked in our vehicles as near to the door as possible is a more than reasonable compromise. Concealing a weapon on your person for self-defense is not something that should cause you to become a target for job loss when having to secure your pistol in your vehicle while on the clock. I know a woman who lost her job because someone who didn't like her reported to the boss that there was a gun in this woman's car. The person didn't see the gun; she was just guessing that there probably could be one since the woman was known to take her safety and protection seriously. She was a fine employee and the pistol in her vehicle hadn't been a threat or danger to anyone. The only one to gain from this event was the vindictive busy body who used a misguided company policy to get someone she didn't like fired. My testimony to this committee has included the following on more than one occasion. But feeling as strongly about it as I do, I feel it bears repeating... Those who choose to carry firearms for self-defense deserve to have laws on the books which support this lifestyle instead of being road blocks to it. I urge the Committee members to vote in support of HB 68. Thank you, Susan Myers Missouri State Director – The DC Project - Women for Gun Rights SWMO Chapter Leader - TWAWS Shooting Chapters (The Well Armed Woman)
