The Missouri Automobile Dealers Association has spoken with the sponsor about maintaining language on page 2 lines 36-38. The language is important to car dealers that often sell cars they take in on trade to scrap dealers. We appreciate the sponsor's willingness to support this change.

The theft of copper from AC units is a serious problem in our area. I respectfully request the Committee's support of HB 69. The passage of this Bill would deter the theft of copper from law abiding and tax paying citizens. Thank you for your consideration.

Copper theft is a continuing issue for both property owners and real estate licensees. Owners, generally of vacant property will sometimes visit a property after an absence only to find that it has been stripped of copper pipes, wires, and air conditioner units. Real estate licensees have had the same experience with a property that they have listed. This proposal is a very reasonable and modest attempt to decrease copper theft.

AMEC is in support of strengthening any and all laws on Copper theft Copper theft is a significant concern to our member systems. Thieves have broken into substations, warehouses, and other Infrastructure to steal cooper. Not only is this extremely dangerous, but the cost to replace the damage far outweigh the actual cost of the copper. HB 69 is just another tool to deter the theft of copper by strengthening the punishment against those who purchase and sell the stolen cooper.
