<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

In the fall semester of 2020, there was an active shooter warning at Missouri State University (Springfield Campus). While I was off-campus at this time, the warning told us to "Fight back if necessary". At the same time, MSU does not allow any student to conceal carry a firearm, even if valid by the State with a valid concealed carry permit. I believe this is highly hypocritical and students need to be afforded the same right to defend themselves as anyone else in the city, especially as Universities are often surrounded by higher crime rate areas, and Missouri State University is no different. I have never carry concealed or carried at all on university property, much to the detriment to my feelings of safety much of the time, especially when I used to live on campus in the dorms at the university. As of right now, I have put the belief that my academic future and future career is more important than my current safety, and I believe that is not a decision anyone should have to make, especially in a free society such as ours.

I wholeheartedly support this bill because... Those who choose to carry firearms for self-defense deserve to have laws on the books which support this lifestyle instead of being road blocks to it. By removing the restrictions on carrying with a permit from so many locations this proposed change does the job of assuring that Missouri statute better reflects and upholds this belief. It reinforces the idea that the citizens of this state should be free to exercise their right to self-protection as unencumbered as possible. I urge the Committee members to vote in support of HB86.

I oppose because this will make it less safe in all these places. Introducing concealed weapons in all of these places will just increase the likelihood of accidental shootings, or make it easier for someone to commit a crime with a gun. Guns do not belong in schools or daycares or around children. Inebriated people drinking in bars will not make good decisions with firearms present. And we've seen with the way the extremists are threatening govts with violence lately, that they shouldn't be allowed to easily carry guns into govt offices either.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I was an employee of the University of Missouri - St. Louis for 11 years. I used to think about what it would be like if someone came into our offices with a gun. The walls around the outside of the office were glass and we were right off the elevator. My desk was nearest the door. The size and configuration of the office meant there was absolutely no way to escape and my desk would have offered little protection. I would try to get to the stairwell, but the hallways were narrow and the only way to do that was going out the same door the gunman would have been coming in. I thought about the occasional student who would come in to meet with the professor and would leave, clearly upset. We once had a parent come into the office, very angry because her daughter was unhappy about something. And then there are the types of unstable individuals like the one who shot and killed 32 people at Virginia Tech, How would more guns on campus help? I am also a resident of the city. I am bereft at the continued slaughter of children and adults in our city. You all have imposed so few restrictions on guns, our city is awash in them. And now you want to force us to accept more. Why would you want to do this to us? For those of you on this committee who are Christian, I have to ask, is this what Jesus wants you to do? I just can't believe it is. I have a feeling He thinks there are a lot better things you can be doing with the gifts He has given you and you could accomplish so much more. I oppose this bill in the strongest possible terms.

As a concerned citizen of Missouri I oppose HB86. As a graduate of Virginia Tech, with a personal connection to the 33 deaths due to firearms on April 16, 2007- I want to emphasize that the killer acquired his weapons legally. I have two children that will be graduating high school in a few years. They will attend a college /university that has common sense gun laws. If this bill passes they will attend a school outside of Missouri. In more than a dozen states with traditions of robust support for gun ownership rights, and where legislatures have moved to relax gun laws during the past year, the local police have become increasingly vocal in denouncing the measures. Please consider 1.) Unstable people that have legally acquired weapons would be allowed to bring weapons onto campus. 2.) Missouri places of higher education would be forced to accept this bill, leading to an increase in security costs and decrease in enrollment. 3.) The majority of police and university officials do not support weapons on college campuses. Thank you.

As a Missourian, I strongly oppose this bill. Gun violence is a never ending issue in this Country. I am not advocating that guns should be confiscated. Most people are not advocating for that. But we have seen too many gun related tragedies. America has lost control of this situation. It's only getting worse. How many deaths will it take? Why would you need a firearm at the Zoo? In a place of Worship? That doesn't make sense to me. Honestly, if you have such paranoia that you must carry your firearm everywhere, I submit that is all the more reason to support red flag laws. Gun lobbyists have held the podium for far too long. It's time we start listening to constituents.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

My name is Atsuki Mori. I have been living in Warrensburg, MO since 2003. Warrensburg is a small college town with a population of approximately 21,000. More than 20% of people who work in Warrensburg work at the University of Central Missouri, which is a public state university. Ever since UCM was founded in 1871, it has been the heart of Warrensburg. Due to the COVID pandemic, there are not many events right now, however, it hosts events such as sports events or music performances where people would gather. UCM also hosts large educational events for elementary and secondary school students all over Missouri, and sometimes, Kansas, Iowa, or Nebraska. My husband has been teaching at UCM for over 30 years. Two of our five children graduated from UCM 2 years ago and are still pursuing their education at graduate school, and one of them is a student at UCM. Many of my friends work at UCM, many of the children I have watched growing up are now UCM students. And I am currently a full-time student for my second degree and also an adjunct instructor. There are several reasons why I oppose HB 86, guns on campus, however, I would like to share two of my concerns. My husband is a great educator, and so are other professors and instructors. They take pride in their work assisting their students to be successful. Many college students including my children enjoy college life, not because they have freedom, it is because of the challenges that are making them better. Institutions of higher education are not always fun places to be. These are places to learn how to be critical thinkers, which could cause great stress for students. As a psychiatrist, I don't think having easy access to firearms for people who are under great pressure is a good idea. This is my first concern. Additionally, in a 2019 national survey, 62 percent of US college students reported drinking alcohol in the past month and 35 percent reported getting drunk. Sadly some use alcohol as self-medication for relieving stress or depression. Alcohol can inhibit the brain's executive functions such as self-monitoring or regulation of emotion, which results in poor decision-making. Having easy access to a firearm while being intoxicated poses the greatest threat to self and others. This is my second concern. UCM is a small college. UCM families practically know each other. UCM administration and UCM campus police are doing amazing work to keep our campus safe. I cannot find any reasons why we need to have more concealed firearms on campus. The thought of having concealed guns on the UCM campus is upsetting me, I cannot imagine the fear and anxiety that people who are involved in bigger colleges or universities in the larger cities are having. Please do not pass HB 86 that could place my family, friends, and all Missourians in a dangerous situation. Thank you for your time.

I am in strong opposition to this bill because I believe it will only lead to more tragedies. As per school safety experts, guns in schools are unnecessary and unsafe. The risk of an unintentional or intentional shooting increases when civilians are allowed to carry guns in schools. As of now, colleges and universities are relatively safe from gun violence. However, I am very worried about allowing guns on campuses, particularly when added to risk factors such as alcohol/drug use as well as mental health issues. I also believe that allowing civilians to bring guns into bars is incredibly dangerous. Studies have shown that alcohol is associated with increased aggression, and people under the influence of alcohol are both more likely to be shot and more likely to kill someone else.

I do not support this bill. This bill would allow those to carry their weapons upon properties where it normally is not allowed such as in classrooms, etc. I should be able to control the space I am in and this no longer creates safe place for anybody. This is an already open carry state and I ask you to oppose the bill.

I am opposed to this bill not because I am against guns, but because I am against individuals who have not proven that they have the mental capacity and responsibility to carry a concealed and loaded gun in public spaces. Being a victim of domestic abuse, I know that anger can cause someone to be impulsive, and if that individual had easy access to a loaded gun, there could be egregious consequences for all parties involved. However, I also understand that there are many responsible gun owners, and do not want to infringe on their rights. I believe there is a way to do that, while also protecting innocent citizens from those who should not be able to carry a loaded gun, like for instance a domestic abuser. At the present moment there is no law that determines who is fit to own a gun and who is not. Until we have that foundation, I cannot support this bill. Thank you for your time, Bety Le Shackelford

This is an incredibly dangerous bill and it will do nothing to ensure the safety of the citizens of Missouri. Campus police, faculty and students overwhelmingly oppose allowing guns on campus. So why do you want to allow it? The people who are directly affected should have a say in whether their lives are endangered by guns on campuses. Guns in bars? There's another dsanger and terrible idea. People who are drinking alcohol don't make their best decisions. Guns in your child's daycare? Do you want your child to be exposed to people carrying guns a their daycare? As a citizen of Missouri, I want to see the data that shows the actions this bill would allow are both necessary and wanted by the people they affect. I suspect this bill comes up every session because someone is being encouraged by the gun lobby, not because the people of Missouri want it. Aren't you representing us?

Testimony from Catey Terry on HB 86My name is Catey Terry and I live in Columbia, Missouri.I write to offer written testimony in opposition to HB 568. I write as someone deeply affected by this dangerous bill.1. I work on a college campus and only feel safe knowing that MUPD are the only ones carrying weapons on campus. They are licensed and trained.2. My husband works on a private campus in town where no guns are allowed, and they are safe.3. My daughter lives on a college campus in an urban area but it is private and again, trained campus police are the only ones who are armed.4. Because of being under the jurisdiction of both city and campus police forces, campuses are currently incredibly safe places but would not remain so, if anyone was allowed to carry a weapon on campus, especially with Missouri's incredible lax permitless carry laws. There is a lot wrong with allowing guns on college campuses: 1. More guns DO NOT make people safer2. Students are between the ages of 18 and 24 (roughly). This is an age where they are not fully developed emotionally or intellectually and they often make rash decisions.3. There is a lot of alcohol and drug experimentation and abuse on a college campus and guns are a VERY dangerous mix with those two things.4. Suicide rates have increased 105 percent in Missouri for young people aged 10 – 24 over the last decade. As we know, suicides with guns are successful over 90 percent of the time.I would be there in person to testify but I do not feel safe because of Covid.I implore you not to advance this dangerous bill that the affected parties (college administrators and security personnel) do not want to see passed.Thank you for your time and attention to my opinion as a voting citizen of the State of Missouri.

I would like to voice my opposition to House Bill 86. I had two children who were good students and moral people when they went to college. They both graduated with honors. But, the situations that they shared with me as their mother (and I know I didn't hear about everything)) would have been so complicated and perhaps fatal for them if a concealed weapon had been in the mix. Allowing legally concealed weapons in the highly volatile environment of a college campus is a frightening and dangerous prospect. It is equally if not more dangerous in bars, churches, schools etc. Please do not allow this dangerous law to proceed. I am a retired school counselor and I understand people and the things that make them angry! Thank you!

I am opposed to HB 86. Allowing persons to carry deadly weapons in sensitive places such as college campuses, k-12 private schools, bars, and day cares is a bad idea. This is the fifth consecutive year such legislation has been introduced. It is as dangerous now as it was five years ago. Imagine the scenario of a loaded gun falling to the floor, perhaps accidentally discharging in a bar or the other venues where these bills would allow guns – in a daycare, at a dorm at the University of Missouri. Guns are currently prohibited in such places to avoid the danger and trauma of gun violence, accidental or otherwise. I also opposed this bill because it reduces the rights of Missouri property owners by allowing handguns on private property even if the owner has posted a “no guns allowed” sign. This legislation will not make Missourians safer. Instead it introduces greater risk of gun violence affecting innocent children and adults in locations where they should not have to worry about guns.

Dear Friends. I am opposed to HB 86. Allowing concealed carry of handguns on college and university campuses, elementary, middle and high schools, bars, daycare centers and other sensitive locations - as well as on private property even if the owner has posted a no guns allowed sign is immoral and dangerous. Missouri is 6th in the nation in gun deaths and our rate of gun homicide, suicide, and unintentional death via guns has risen over the last decade at a much higher rate than other states with sensible gun laws. Please do not put our citizens in more danger than they already are. All this will do is make death by firearm more prevalent in Missouri. Lawmakers should put the safety of their communities first and reject the gun lobby's very, very dangerous "guns everywhere" agenda in Missouri.

My daughter is 28 years old and a professor at UMKC in the evenings. Concealed firearms on state college campuses is one fraternity party away from a disaster. Daycares are another sad place to allow concealed firearms. I'm sure many of you on this committee have children and know what toddlers can accomplish in the blink of an eye. Polling places in today's polarized political climate can be viewed as both harassment and suppression of the vote. I strongly oppose this bill.

Schools, colleges and universities should be a place for children and adults to learn safely. That seems like the kind of thing that most, if not all people can agree on. We should therefore, as Missourians be doing everything we can to keep kids and adults safe. Allowing hidden, loaded handguns in public colleges and universities and private schools and childcare facilities does just the opposite. The price of this bill is high - security, insurance, and potentially lives. I strongly oppose all aspects of this bill.

I write to request that you oppose HB 86. As a parent of young children, I vociferously oppose allowing concealed handguns in daycare centers and private schools. The risk of unintentional or intentional shooting greatly increases when civilians are allowed to carry guns in schools. We cannot ask teachers or daycare providers to stop a shooter, potentially a parent or current/former student, in the chaotic event of a school shooting. Instead, a handgun in the school or daycare is much more likely to result in unintentional injury to innocent children. Please oppose HB 86.

I am a registered gun owner, the mother of a current UMKC student, and the step-mother of student who was at St. Thomas University in Minnesota when another student was shot and killed by the accidental discharge of a firearm in the adjacent dorm room. I am pleading with you to oppose HB 86, which would force state universities as well as other private entities to permit guns on campus, bars and other incredibly inappropriate venues. It would do so over the objections of owners and managers of these institutions, thus trampling private property rights as well as over-ruling their on-site judgments as to how best to protect health and safety. No responsible gun owner supports such reckless policy that would inevitably endanger students, faculty, staff and parents alike. Missouri colleges already struggle with binge drinking and maintaining student order and safety. They deal with a cohort of society that the Legislature itself deems too irresponsible to legally buy a beer, yet HB 86 would force them to introduce deadly weapons into this already dangerous problem. I urge you to listen to public safety experts, common sense, taxpayers and parents of Missouri colleges and universities and oppose HB 86.

This bill is ludicrous. Forcing bars, university and colleges to allow firearms is a recipe for disaster - alcohol and firearms?!? I have witnessed alcohol fueled fights, and cringe at the idea of adding guns to the mix. Allowing gun owners to ignore the wishes of private property owners is mind boggling and very un-American. This bill does nothing to protect and promote the well-being of Missourians and should be defeated.

As a former MSU student, I feel that allowing concealed weapons on campus would result in an erosion of the open-mindedness that lies at the core of higher education. How are individuals supposed to express their ideals freely on campus if they fear that other individuals who disagree can easily resort to gun violence/in?mida?on to silence their views? In a similar vein, it's completely inappropriate to allow concealed weapons in bars. Guns and alcohol do not mix and never will, and private business owners should have the ability to dictate what occurs

Missouri State University contracts with the Springfield Police Department for an on-campus substation. In addition, we have non-sworn campus safety officers providing safety and security functions. The police officers assigned to our campus are armed. Our campus safety officers are generally not armed as we do not believe their duties make it necessary for them to carry a firearm. We have a unique policy on firearms at MSU. Our policies do not create a gun free zone on campus. In addition to the Springfield police officers on our campus, certain classes of people are authorized by our policies to bring firearms onto our campus without needing to request permission by the University. This list includes off-duty police officers, retired officers, civil process servers, and others. We also do not prohibit employees from having them concealed in their vehicle. We have also set up a process for anyone to request permission to conceal carry a firearm on campus, and I review those requests on a case-by-case basis. To start this process an individual submits an online application to me for review. We perform a background check and require anyone whose application is approved to sign a waiver and attend an educational session about our policies on weapons. We have an appeals process set up for individuals who believe their application was wrongly denied. I am opposed to this bill because I believe our board has created reasonable policies that allow us appropriate flexibility to manage firearms on our campus. I appreciate the language in this bill that would allow us to continue to have some policies governing firearms. However, I believe that this bill would still go too far in limiting our ability to properly manage firearms on our campus. For example, I had a student that decided to purchase a handgun. The student did not have any prior experience using a firearm, has not taken any type of training for its safe use and did not have any extenuating circumstances where there was an increased threat to his safety. I determined the risk to the campus was not acceptable so I denied the request. I contrast that request with one I had from an individual that has used a firearm throughout her life, has a conceal carry permit, has conceal carried for many years and travels to and from campus in the evening. In this instance, I approved her request to carry on campus. It is important that we continue to be able to make case-by-case decisions based on the specifics of a given situation, and this bill could limit our ability to do that. Flexibility in our decisions is particularly important on firearms because of the danger firearms can present in many spaces and situations on our campus. Examples include communal living situations in residence halls, student conduct hearings, recreational areas, laboratories, students dealing with mental health issues, and other situations where firearms could pose a unique risk.

I think it is very dangerous to allow guns on any school campus. Collage students are not under any particular threat that they would need to pack a gun and I was also struck by the insurance increase that was incurred by Idaho colleges after a same type bill was passed. Isn't college expensive enough without making it more so?

How dare you impede the rights of citizens to limit concealed firearms in public and private places! If were a parent looking for a place to send my child to college, I would cross any college in this state off the list. In addition, if I were a young educated professional considering a job in Missouri or considering creating a start-up business in Missouri or a professional considering a move here - this legislation would remove any possibility of coming to Missouri for any economic activity - including tourism.

I strongly oppose HB 86 Guns Everywhere bill. This bill infringes on the individual's private property rights by overriding a property owner's choice to allow or not allow guns on their own premises. Also, allowing guns in bars will cause customers to stay away out of fear of personal harm. People drinking in bars are frequently impaired because of intoxication and can make misjudgments causing serious damage to themselves and others. Arming them with lethal weapons is scary, dangerous and irresponsible. Please work to keep Missourians safe. Vote AGAINST HB 86. Thank you.

As a former MSU student, I always felt comfortable and safe while on campus, and did not worry about the threat of gun violence on a daily basis. However, if concealed weapons had been allowed during my time at MSU, I would not have felt comfortable on campus and would have spent as little time there as possible. I know I'm not alone in this thought process, and if concealed weapons are allowed on college campuses students at MSU and campuses across the state will actively avoid campus because they do not feel safe, which is tragic. Higher education is only successful if students can set aside the fear of surviving and devote themselves to higher thought, and the presence of weapons of any kind prevents this. Additionally, concealed weapons do not belong in bars either. Arguments often occur at bars and they will become much more lethal if guns are involved. Sexual assault is also more likely to occur when alcohol is involved and adding guns to the equation will result in more frequent and/or more severe sexual assault.

I feel that Missourians are put in more danger when more firearms are present, regardless of the motives of the carrier. This would allow too many untrained individuals to carry dangerous weapons in too many places. Responsible use of firearms is applaudable and should be encouraged, but not this bill. Thank you.

I am both an employee at a state public university and a parent of a student at a private school. This legislation would make me a target at work, as I am employed in the Dean's office and a disgruntled student could easily harm me or the dean if they were upset over a grade or a dismissal from the program. My child would be less safe at school. Campus and school officials I have talked to do not believe this bill will make campuses safe. The university is already in a budget crisis and would not have additional funds needed to support increased policing of campus buildings if students may be carrying weapons. This bill is dangerous and unnecessary.

This bill would expand the places where guns would be allowed, including college campuses, bars, day care centers and other sensitive places. Both my husband and I work at universities and we worry that allowing guns on college campuses will lead to more deaths from homicides and suicides. Students are under a lot of stress when first going to college and mental health issues have increased among students over the years. We should not be adding guns to this mix. Likewise, allowing guns in bars where people are already dealing with being under the influence of alcohol is a terrible idea. Finally this bill would infringe on private property rights because it would allow guns on private property even if an owner has posted a "no guns allowed" sign. Please vote NO on this dangerous and misguided bill.

In my opinion, HB86 would only accelerate the gun violence which, as a community, we already face. In addition, it limits the rights of individuals to exercise their choice to post a 'no guns allowed' sign and sets into action a process that will certainly lead to more confrontation and gun violence. This bill sets the bar 'too low' allowing concealed guns to eventually be allowed in any area including city, county, and state government buildings. I ask you to actively oppose HB86.

Not only is this an accident waiting to happen, This bill will force bars, State college campuses, Amusement Parks, day cares, worship, Polling Places, Hospitals, state and local government meeting places to allow concealed guns to be carried on their premises. Private businesses should be restrict guns on their premises, concealed carry or otherwise! What's next, you try to legislate that I must allow someone to conceal carry a firearm in my home? This is government over-reach at its worst! Not to mention allowing weapons in Day cares, bars, & amusement parks is obviously a bad idea and will lead to more gun accidents, injuries, & deaths.

I am writing to oppose this bill that would allow guns on college campuses. I spent seven years working with undergraduates at UMKC. Brain research shows us that for many people the brain isn't fully developed until as old as 23. I saw evidence of this many times as a university instructor. Students are learning to make good decisions during this time. Unfortunately, this often happens as one learns from experience. Drug and alcohol abuse are common. Young people are learning to navigate relationships and violence isn't unheard of. Additionally, many young people are learning to manage challenging mental health concerns. Guns on our campuses will bring far too many risks. Please oppose this bill.

I am writing to ask MO leaders to oppose HB86. I do not want handguns to be in public spaces that are supposed to be safe (especially places where children are at such as schools and daycares—I've got 5 school-aged kids!—and bars, where judgment can get clouded and result in a permanent solution like a shooting in a temporary situation like a bar fight). There is absolutely no evidence (further than individual anecdotes) that more guns equal more safety. Please put the people of Missouri's \*actual\* safety first and stop this bill from becoming law.

Since 9/11, we have submitted to bag checks, wandings, and metal detectors at the gates of Six Flags in Eureka, MO. Knowing that everyone who enters is WEAPON FREE is wonderful and allows us all to relax and enjoy the day with our kids and grandkids. DO NOT TAKE THAT AWAY. I will not attend an amusement park surrounded by loaded guns. I will not visit churches, restaurants and bars surrounded by loaded guns. I do not think people should have to worry about being surrounded by loaded guns at polling places, hospitals, and government meetings. VOTE NO please.

As a school district employee, my position is often dealing with escalated parents. Parents can get extremely passionate when it comes to matters of their children. School can become a battle zone for divorced parents who don't agree on a plan for their child. Parents become enraged because they disagree with a policy or stance the school has taken. Parents whose rights have been taken away for some reason come to the school attempting to gain access to their child. The idea that one of these parents could come into our building legally armed is simply terrifying and irrational. Schools must be a safe zone. We can not allow it to be a potential avenue for crimes of passion.

My son owns a bar in Missouri. As the evening goes on, folks who have had too much to drink often will get belligerent and get into fights. If those guests also have guns, chances are really good that they may resort to using their guns and folks will get hurt or killed. Allowing guns in bars would put everyone in the bar at risk. I oppose this bill .

Every year Rep Taylor files a bill like this. And every year, I write to my legislators and ask them to oppose it. I oppose this bill because allowing concealed guns in bars without the owner's knowledge is a crazy idea. Mixing alcohol with guns is never a good thing. Allowing concealed guns into any school without the school's OK is not the way to decrease the possibility of an active shooter. Many of the places that would be opened up to carrying a weapon have their own security professionals. It is unwise to think that anyone who carries a concealed weapon has undergone a background check, is knowledgeable about firearms, or has the amount of training required to respond to an active shooter without hurting bystanders. Missouri has rolled back laws which were effective at preventing gun crime. We must work together to address the gun crime wave and high numbers of illegal guns in our state. Making it easier to weaponize campuses, churches, schools, bars, daycares and parking lots will not make our state safer for our citizens. MO's gun crime has risen at a rate higher than most other states so continuing to gut gun restrictions is insane! All of you share the responsibility for saving lives not just for your own constituents but for all Missourians!

Guns everywhere only creates an environment putting our public at greater risk for violence. Studies have shown time and again that the simple presence of a firearm increases the odds that harm in some form will occur to an individual. Allowing guns everywhere will only create more injuries and death. It should not be passed.

I write in opposition to HB 86, a dangerous bill that would allow the carry of concealed firearms in places like public universities, private schools, and bars. This bill would continue Missouri's race to the bottom. Businesses do not want to headquarter here, people from other areas, do not want to move here, and our children leave the state the soonest chance they get. HB 86 would make our citizens less safe. Mixing alcohol and firearms, schools and firearms, and university students and firearms are recipes for tragedy. The risk of an unintentional or intentional shooting increases when civilians are allowed to carry guns in these spaces. HB 86 would also undermine private property rights by allowing people to bring hidden, loaded handguns onto private property—even if the owner has posted a no-guns-allowed sign—as long as the handgun is in a vehicle. Please do not pass this bill!

I am writing to express my opposition to HB 86. It is my opinion that this law will make schools and bars more dangerous. I believe allowing individuals to carry weapons where alcohol is consumed is extremely irresponsible. Adding weapons at schools is dangerous and will add additional security costs to the schools to try and combat this extra risk.

I do not agree with this bill because I fear that our communities will no longer be safe if guns are everywhere. Right now only trained law enforcement or security officers can carry concealed handguns in public colleges and private schools and daycare centers. If this bill is passed there is a serious risk of unintentional shooting or gun violence at places where our youth should be safe. Also, guns in bars makes no sense. Alcohol use often is associated with increased aggression--don't add to horror and violence by allowing guns in bars. I plead with you to not support this bill. Do not encourage more gun violence in our state.

I strongly oppose HB 86 which would force guns in schools, hospitals, colleges, day cares, bars, polling places, and amusement parks, despite the judgment and wishes of the property owners and governing bodies. I live in a densely populated suburban area near a major metropolitan area. The above listed venues are large and full of unknown persons. It is not possible to access whether persons carrying a concealed gun have licenses and training. Permitting a proliferation of guns in these environments will result in disputes being resolved with gunfire and many incidences of unintentional discharge. I believe the proprietors, owners, and governing bodies of these venues should be allowed to set concealed carry policy based on their assessments of their specific community and population. If they feel the need for additional security, they should arrange for that in a way that assures the public of greater safety, not less. Assessments made in a densely populated area may be extremely different than those made in less populated, rural areas. Many bar owners, university stakeholders, and hospital administrators would tell you that alcohol and stress fuel aggression and despondency that does not mix well with easy access to guns. As a poll observer, I saw no need for voters to bring their guns into polling places. In addition, the costs of adding additional security guards, cameras, and storage facilities if guns are forced into these venues would be enormous and should not be imposed on institutions that do not see the need or wisdom in having unlimited numbers of guns forced upon them. Please vote NO on HB 86. Thank you.

As an owner of a tavern (Bier Station) in Kansas City, I would like to voice my fervent opposition to Missouri HB 86. Allowing firearms into businesses that serves alcohol will only make potentially harmful situations much, much worse. I know many other tavern and brewery owners in our area feel the same way. I own the building my business is located in, and I feel it's my right to not allow individuals to bring firearms into the business. As a neighborhood business, we also have many families who come here for lunch and dinner and I feel HB86 could very adversely affect my business by making customers less likely to come in because the fear the guns that could be present. I also am a father and my wife is a teacher in the Kansas City area. The thought of forcing schools and universities to allow firearms on campus -- even if they are opposed -- is absolutely outrageous. The last thing we need is to bring MORE firearms around our kids (and teachers). Please do not pass this bill. I am not against common sense gun laws like allowing people to own guns to hunt. But, this is absolutely the worst possible idea I can imagine. John Couture Kansas City

The position that more guns make us safer is a false narrative. FBI data shows that background checks on all sales can lead to 10% fewer gun homicides. Missouri has the 5th most gun deaths per-capita and this is not a stat we want to lead in. In Missouri, the rate of gun suicide increased 37% and gun homicide increased 61% from 2010 to 2019, compared to a 13% increase and 26% increase nationwide, respectively. we need to do better. We can protect the second amendment and reduce gun deaths with better and smarter gun laws. Putting guns on campus is a terrible idea when you combine them with drinking, stress and depression. No school systems or police department is supporting this. there is no problem this is solving and the state has much bigger problems to put its energy behind. I strongly oppose this bill

I am asking as a mother and citizen to please oppose this legislation. Allowing guns in sensitive areas like schools and churches makes our community less safe. I have three children in Columbia schools and am from a family of teachers. Carrying guns into these spaces makes us all less safe. I am also a clinician and am adamant about patients not carrying weapons into our clinic. I have the right to keep guns out of my workspace to the benefit and safety of all that work and seek medical service there. Please oppose HB 86. Thank you.

As a citizen of the state of Missouri, as a church member, as a person who in non-pandemic times patronizes restaurants and bars, and as the mother of a college professor, I vehemently oppose this Bill. It will serve only to increase the level of gun violence in our state, and make us all less safe in the spaces like our churches and our college campuses, where we need to feel most at peace, most comfortable, and most secure

I wholeheartedly **OPPOSE** HB86. Not only does allowing concealed weapons in places like bars, schools, universities, daycares, and churches endanger the lives of everyone present, but it actually opposes the wishes of those institutions who would prefer not to have guns on their premises. Perhaps even worse, HB86 flies in the face of property owners' rights, allowing individuals to conceal carry dangerous weapons onto owners' property **EVEN IF THE OWNER HAS POSTED A SIGN PROHIBITING GUNS** on the premises. I am a parent of 2 young children. I am already terrified of the number of school shootings that take place in the U.S. and know that inviting **MORE** guns onto school campuses is absolutely **NOT** the answer. Our family also owns a business with 250 employees. It is imperative to their safety that concealed firearms **NOT** be allowed on the business property and it is best for our business' financial health and longevity that we not have the liability of employees or visitors bringing weapons to our business. Please **OPPOSE** HB 86. Thank you.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

As a gun owner and mother of two young children, I oppose HB 86. HB 86 would allow civilians to carry hidden, loaded handguns in Missouri private elementary, middle, high schools, and childcare facilities, despite opposition from school safety experts, who know that guns in schools are unnecessary and unsafe. The risk of an unintentional or intentional shooting increases when civilians, who are not required to have the proper training, are allowed to carry guns in schools. More access to firearms is strongly correlated with the additional risk of gun violence. When more guns are placed in schools, children will be more likely to access them. I trust law enforcement and security officers with proper training and background checks to keep my children safe. Please do not pass HB 86.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I oppose HB 86 because it will make Missouri a more dangerous place to live. I'm a proud 4th-generation Missourian, a Mizzou alum, and I reside in Representative Chris Brown's district in Kansas City's Northland. HB 86 would force public colleges and universities to allow hidden, loaded handguns on their campuses; allow civilians to carry concealed handguns in private elementary, middle, and high schools, bars, day cares, and other sensitive locations throughout the state; and encroach on Missourians' rights by allowing handguns on private property even if the owner has posted a "no guns allowed" sign. Forcing Missouri colleges and universities to allow concealed firearms on campus is dangerous. Campus life is rife with other risk factors, including heavy alcohol and drug use, mental health issues and suicide, and adding hidden, loaded firearms is potentially fatal. Missouri's firearm suicide rate for youth aged 10-24 has increased 105% in the last decade (<https://everytownresearch.org/report/the-rise-of-firearm-suicide-among-young-americans/>). Moreover, because Missouri does not require extensive safety training for concealed carry license holders, I'm concerned that students, faculty, or visitors will leave loaded guns unattended and unlocked, increasing the likelihood of unintentional shootings or theft. These laws result in new expenses to ensure campus safety, including additional police and security staff, metal detectors, cameras, and protective gear. I support the Second Amendment, and come from a family that owns firearms and passes them down through the family. However, it's important to note that James Madison, the author of the Second Amendment, and Thomas Jefferson, the author of the Declaration of Independence, believed guns had no place on college campuses. In 1824, at a University of Virginia Board of Visitors meeting, both Madison and Jefferson supported a rule prohibiting firearm possession and use by students at the university. <https://www.theatlantic.com/politics/archive/2016/05/when-jefferson-and-madison-banned-guns-on-campus/481461/> I have a daughter and a son and their safety is my top priority. I cannot imagine sending my children to a campus where other students are armed. It will lead parents to look for out-of-state higher education options. I also oppose allowing concealed carry in other sensitive places like day cares, K-12 schools, and bars. I have the same concerns about people leaving loaded guns unattended in schools, where children may find them with fatal results. There are better ways to address school safety, including the development of threat assessment and identification plans. These plans help schools identify students who are at risk of committing violence and resolve these incidents by getting the students the help they need. Effective programs work to identify threats, determine if a student has access to guns, and ensure that there are enough professionals available to provide students with mental health services. Other ways to improve school safety are to enact stronger background check laws and safe firearm storage laws. Here in the Northland in 2019, the parent of a student at a private day care/elementary school was charged with making a terroristic threat. According to media reports and court records, a family member said the parent told her not to bring his son to school the next day because "a storm is coming." After the

threat was reported to the school, the school reviewed surveillance video of the parent accessing the school without using his parental code, wearing a backpack. He walked the halls and entered restrooms and private offices. Law enforcement officers found evidence in his home that he was interested in Sandy Hook and other school shootings. We don't know if he had a gun with him that day, but it is terrifying to think that under this bill, carrying would be legal in the school and not grounds for charging him. [https://www.kctv5.com/news/local\\_news/man-charged-with-making-terrorist-threat-towards-galdstone-school/article\\_140c2732-0a86-11ea-8f95-efe817028620.html](https://www.kctv5.com/news/local_news/man-charged-with-making-terrorist-threat-towards-galdstone-school/article_140c2732-0a86-11ea-8f95-efe817028620.html) I also oppose HB 86 because it infringes on personal property rights of business owners and individuals. I am particularly concerned that people who visit businesses where alcohol is served may drink and get into an altercation inside the business, then access their personal firearms. While the bill grants property owners liability protections for such an incident, it does nothing to protect the people who are victims, which is reprehensible. As an attorney who advised clients on employment and workplace safety issues, business owners and their employees and patrons should be concerned about the risk of guns in parking lots in workplaces. It's too easy for a terminated employee to easily access that gun to fire on the human resources manager who delivered the bad news. More people carrying more guns in more places is not going to make us safer, and private property owners should be able to completely restrict firearms on their property. This bill will not make our communities safer. Please vote NO on this bill.

I am opposed to HB 86 and want legislators to please vote NO. This bill will make Missouri Families more vulnerable to gun violence in our state by allowing concealed firearms in sensitive locations. Allowing guns in places where people are drinking alcohol like colleges and bars is reckless and puts everyone (even those not carrying a gun) in danger. Missourians do not need more guns in places with small children. Allowing guns in schools and daycare facilities will make accidents more likely to happen. I also do not think the state should force property owners to allow concealed firearms on their private property.

Please do not pass this terrifying bill. Our daughter is a high school teacher in Columbia, Missouri. She should never have to worry that her students and fellow co-workers are carrying a gun into a SCHOOL. This is a place of learning. It needs to be a safe place. Untrained people carrying a gun into a school to supposedly "protect" themselves and others are sadly mistaken. This is a terrible bill. Please do not pass this. - Thank you.

As a grsduate student at Washington University in St Louis, the aspects of this bill allowing concealed carry on campuses is something I deeply opposed. Concealed carry was allowed at my undergraduate campus, Wichita State University, and there were several incidents of firearms being left unattended. I pay far too much money to be feeling unsafe on the campus I attend due to unknown persons carrying firearms.

I oppose HB 86 because more guns in more places will not make Missouri more safe or more free. HB 86 would allow guns in public universities, hospitals, and outside polling places, making these places much more dangerous. Bars and places of worship already have the ability to permit concealed carry. Additional law is not needed. Last year, 689 people were shot and killed in Missouri, making us one of the most dangerous states in America. Please do not pass HB 86.

I strongly oppose HB 86, as a parent first, and educational professional second, guns being allowed into safe zones is in opposition to the safety of all members within those learning environments. With mental health challenges being at a critical point, and the air of extreme conflict and unrest heightened, ease of access emboldens those who carry and denies those who don't their choice to be in spaces devoid of such powerful weapons.

I am writing to share opposition to HB 86, a measure to force hidden, loaded guns onto our college campuses and into many other sensitive places, including bars and daycares. I urge the committee to agree, as I do, with UM System President Mun Choi, who said in 2019 during a court case on this issue that he opposes changing the policy because it would decrease safety on campus. We trust our campus police who work hard to ensure our campuses are overwhelmingly safe from gun violence--and who also oppose guns on campus legislation. My oldest son is a senior and has been accepted to MU—and could very well be attending in the fall. And as a longtime Columbia resident, I observe frequently how college campuses are not an environment where sober, rational decision-making always prevails. Access to a guns when students are feeling acute depression or anger or in the midst of an alcohol-fueled fight is a deadly scenario. It's simple common sense that guns and alcohol do not mix. As a mother I would never choose that environment for my kids when I send them away from home for an education. Please vote NO on this dangerous, unnecessary bill. Thank you for prioritizing safety and common sense.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I oppose concealed, loaded firearms being allowed in daycares and preschools. As a parent of young children, I can tell you that they have no sense of physical boundaries and are intensely curious. They swarm teachers and adult classroom visitors and touch anything that looks interesting. All it would take is for one adult to forget one time to properly secure a gun on their body and a small child could have it in their hands and pull the trigger in an instant. Or if a gun was left in a purse or lying on a bathroom counter, a small child would never think to call for an adult before touching it; they would pick it up and play with it. Allowing concealed guns in daycare and preschool settings introduces unnecessary risk of harm and death to small children. For the safety of my children and all children in Missouri, I absolutely oppose this bill.

I opposed this bill. My cousin was inside a bar several years ago when shots were fired. We need to enact stronger gun laws, not more lenient. If more guns made places safer, then the US would be the safest country. We are not.

This is a violation of my rights as a personal property owner to control who may enter my property with firearms. This bill creates a dangerous situation for students, teachers, parents, staff and visitors to educational properties. Efforts should be taken to protect these institutions, not make them more dangerous. Only trained, law enforcement individuals should be allowed on school property. Please vote against this horrible bill.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Dear Committee Chair and Committee Members, My name is Laura Burkhardt and I am a volunteer with Moms Demand Action for Gun Sense in America, I am a group lead for Moms Demand Action in West St. Louis County, and I am a gun violence survivor. I am a mother of 3 and a resident of Ballwin. I am submitting this testimony on behalf of Moms Demand Action and urging you to oppose HB 86. HB 86 or "guns everywhere" would further weaken Missouri's gun laws and in turn, add to our rapidly increasing rate of gun violence. Missouri currently has the 5th-highest rate of gun homicides in the US. We are trending in the wrong direction. HB 86 would force public colleges and universities to allow people-including students, staff, and visitors-to carry hidden, loaded handguns on campus. Under current law, typically only trained security officers or law enforcement can carry concealed handguns in college and university facilities. HB 86 would also allow civilians to carry hidden, loaded handguns in private elementary, middle, high schools, and childcare facilities. When firearms are allowed into schools, there is a greater risk of children accessing them. Along with college and university campuses, elementary, middle, and high school, early childcare facilities, and certain other sensitive places, this bill would allow people to carry hidden, loaded handguns into bars. The public strongly opposes this. We all know that alcohol is associated with aggression and increases the likelihood of violent behavior. This would be a dangerous and deadly combination. I have been sexually assaulted at gunpoint and I have been on the other end of the phone as a close friend died by gun suicide. As a gun violence survivor, I know firsthand the trauma that comes with surviving gun violence. I have three school-aged children, and we take full advantage of everything St. Louis County and Missouri as a whole have to offer. We attend church together, go out to eat at local restaurants, and visit the many attractions our community has to offer, including the zoo and Six-Flags. I bring my children to the polls with me every single election day. Before Covid, we would go as a family to volunteer at a local hospital. The trauma that comes with constantly wondering if the person next to me is carrying a hidden firearm is indescribable. If "guns everywhere" becomes law, I and many others will relive that trauma every time we are put in this position, especially in the densely populated community that I live in. I feel safe in my community. I feel safe sending my children to school. I feel safe in my church. I support the Second Amendment. I also support the right of Missouri residents and visitors to enjoy everything Missouri has to offer without the constant wondering and worrying of who may be carrying a gun everywhere they go. More guns in public spaces do not make us safer.. I'm asking you to put the safety of your constituents first. I am asking you to keep our community a place where families choose to congregate. I am asking you to OPPOSE HB 86. Thank you, Laura Burkhardt

I assume the premise is that carrying a gun provides protection in a perceived emergency. Reacting quickly and accurately in an emergency with a firearm requires training and skill. The greater risk is shooting innocent people. Rather than providing safety, this bill is an encroachment on the right of citizens in Missouri by reducing their safety. Gun laws need to make people safer, not more at risk as this one does. The accuracy of an untrained individual reacting to a perceived threat is highly questionable, and the easy access to a firearm during an emotional event could have tragic consequences. Please do not make our state and places such as our educational institutions less safe by considering this bill which allows the carry of a loaded gun anywhere in Missouri.

HB 86, would allow for concealed carry of firearms on our Missouri college campuses, K-12 private schools, bars, and churches. I urge you to oppose this dangerous legislation. Every year the Missouri legislature proposes this and every year the stakeholders line up in opposition. I want to address the impact of allowing guns on our college campuses. Parents, faculty, students and campus security are not in favor of adding guns to classrooms, stadiums and dormitories. College years have many stresses and with COVID those stresses are greater than ever. Students are more likely to use a gun to end their life than they are to use it in defending themselves from a mass shooting. My own son struggled his freshman year in college and made bad choices. I shudder to think what the outcome might have been had his college roommate been able to bring his handgun into their dorm room. To see the impact of firearm suicide I refer you to: [https://health.mo.gov/living/families/mch-block-grant/pdf/adolescentsuicide\\_final.pdf](https://health.mo.gov/living/families/mch-block-grant/pdf/adolescentsuicide_final.pdf) Again, please oppose HB 86.

I work at a private university and am writing to express my strong opposition to HB 86. From a purely academic standpoint, this is an appalling idea to the vast majority of our in-state, out-of-state, and international students and their families; safety is a big concern for students and administrators. While my university has vast resources at its disposal, it can still take days to weeks to get a mental health appointment with a counselor. We all know the stresses and demands of university and being a young person in general. Drugs, alcohol, depression are all present at universities. Adding in easily accessible guns will without a doubt make it a deadly situation. We have a governor that seems hellbent on decimating the state's education funding at all levels; where is the money going to come from to pay for the needed extra security this bill would require? Will the legislature pass that along to struggling students and families, too?

I strongly oppose HB 86 for many reasons. First it infringes on the rights of private businesses. Bars and guns don't mix. That is common sense! Guns in schools do not make our children safer. More guns in more places does not make it safer. If that was the case, America would be the safest place in the world and it is not. More guns in more places makes it harder for law enforcement to do their jobs. Campus police and security oppose guns on campus. Why should Missouri lawmakers force this upon these stakeholders? This bill is dangerous and wrong.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Chairman Trent and Members of the Committee: I am a retired faculty member and former Director of the School of Social Work at the University of Missouri in Columbia. As an educator with 25 years of experience at the University, I am particularly concerned about allowing concealed firearms in schools and on college campuses. Our students are wonderful people with an eagerness for learning. But every once in a while there is a student with a troubled background, or who has displayed violent tendencies. We once had a student in our program who had problems with emotional regulation and temper. This student sent threatening letters and emails to faculty and we became concerned for our safety. Because of this student, we developed a safety plan for notifying someone if he was in our office and we felt threatened, but I'm not sure how well it would have worked if he had had a concealed weapon. This student was an exception, of course, and he was eventually counseled out of the program. Still, all it takes is one person to have a tragic incident. There are students who become angry and upset either because of something that has occurred in their personal lives, or because of a bad grade, or other issues. They sometimes act impulsively. The thought that some of these students could be allowed to bring a firearm on campus is a frightening one. Another reason that I am concerned about firearms on campus is my concern about students not being in control when they are drinking alcohol. Like it or not, alcohol is a perpetual problem on campus. There have been many incidents reported in the news about the inappropriate and impulsive behavior of students on campus when they are drinking, and even more situations that go unreported. Otherwise upstanding young people are not themselves and often act impulsively when they are drinking, and I worry about what could happen should students who are inebriated have legal and ready access to guns on campus in their dorms or fraternity houses. My concern about the availability of firearms to people who are drinking alcohol is that it increases the potential for suicide. Suicide completion is greatly increased when using guns (as opposed to overdosing on pills). The suicide rate has increased greatly (by over 105% in the last decade) for young people ages 10-24, which includes college-aged students, and the easy availability of gun possession would increase the potential for students to use firearms for suicide. I urge you to vote against HB 86. Thank you for your consideration.

I am opposed to HB 86. If more guns in more places made us safer, I would be on board with this. Guns in bars is a very dangerous idea. You have only to look at your own colleagues two years ago on March 13, 2019 for an example of why this is so dangerous. Mo. Senator's LA went into a bar with a gun, became intoxicated, got into a fight and tried to grab his gun which fell out of his pocket. After he was arrested he is quoted as saying "I wish my gun was closer — I woulda used it," . That very same night hours earlier, two state House members were involved in an incident at another Jefferson City bar that left one of them with a black eye. These are anecdotes for certain but a good illustration that if even lawmakers and their staff , who really should be held to a higher standard, are unable to behave in a responsible manner when guns are in the mix, it is not a good idea to allow guns to be carried into bars. This story can be read in many newspapers, but here is a link to one source:  
<https://apnews.com/article/df33aa50ca92433fb754e882f4bf991f>

**RE: OPPOSITION TO "GUNS EVERYWHERE BILL - HB86**There is no logical reason to allow civilians to carry hidden loaded handguns in our schools, colleges, universities, day care centers and other sensitive locations. How could we ever justify allowing people with loaded guns in schools – and at the same time, witness the drills our children go through to be protected from a shooter in the building. It makes no sense. Our children and teachers and workers deserve our utmost protection – not to be put at risk of being shot as we have seen happen in so many heartbreaking situations.I am the parent of an elementary teacher as well as a university staff member. They (and I) want them to be able to teach and work in a safe environment – as I am sure you do as well. Please stand for what we all know is right and common sense – please oppose HB 86 vigorously.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

March 1, 2021 Honorable Members of the House General Laws Committee: I am writing to express my opposition to HB 86. I believe that our churches, college campuses and ANY place where there are children, especially schools and daycares, should be free of firearms. Among my concerns are these:

Accidents and momentary distractions happen. The very thought of my grandchildren attending a daycare or school where employees or visitors may be permitted to carry a concealed firearm, no matter how well intentioned, is horrifying. Guns on campuses, even those kept in automobiles, are too easy to access. Higher education may include significant stress among faculty as well as students, and the danger of suicide by gun increases when a firearm is easily accessible. In addition, parties that include alcohol consumption may lead to heightened emotions and/or reckless behaviors. I have a right to feel safe in a church and the establishments I visit. I should not have to worry that the man or woman in the pew behind me during church services, or a person in the next aisle of a store, may be carrying a loaded gun in their pocket or pocketbook. Allowing firearms at voting precincts is intimidating to voters, at best. It appears that the legislation allows the property owner or a school district or church pastor to post signs prohibiting firearms in the establishment or on the property, but that begs the question of who is then responsible for enforcement. From what I can see in the legislation, the property or business owner or employee will have to initially enforce the prohibition themselves. Whether the person carrying a concealed weapon has a permit or not, challenging their admittance could be a difficult if not potentially dangerous task for any individual, and they should not be expected to have to deal with that. Thank you for your attention to this, and please vote NO on HB 86. Sincerely, Mary Schuman 7006 Maryland Avenue University City, MO 63130

I do not support carrying a concealed weapon on premises with already **CLEARLY** stated statement of No firearms on premises. Just because you can carry doesn't mean you should. This would be in cases like bars, or polling sites, or schools etcetera. There is no reason to do so and could endanger others rather than provide protection.

Allowing anyone to carry a concealed weapon on a school campus without the schools consent is a recipe for disaster. I am very disappointed that any elected official in Missouri would think that adding more hidden lethal weapons is a good way to deal with our horrific gun violence problem. We need a solution that doesn't have a body count. As a mother of a college student the idea of their fellow students being armed is blood curdling. This bill is bad for every Missourian.

Hi I'm a constituent from Columbia, Missouri. Columbia is blessed to have several amazing colleges and universities in town not to mention a great K-12 education system. But this bill will force public colleges & universities to allow hidden, loaded handguns on their campuses; allow civilians to carry concealed handguns in private elementary, middle, and high schools, bars, daycares, and other sensitive locations throughout the state; and encroach on Missourians' rights by allowing handguns on private property--even if the owner posts a "no guns allowed" sign. We live a couple of blocks away from the Mizzou campus, and forcing the campus to allow guns makes me so nervous and scared. Especially as a mom to a 11-year-old girl who routinely play outside with her friends, this bill terrifies me. If we can be safer with more guns around us, the US would be the safest country in the world. We all know that, that's just so far from the truth. The US has more than 10 times gun violence than any other developed countries. In addition, this is not right or rational for the State to dictate and force firearm-related rules to universities/colleges and other schools, when they know very well what rules should work best for them. I strongly oppose this bill. Thank you.

Loaded concealed firearms increase the likelihood of them being used. Most civilians are not skilled enough in aim or emotional control to wield such power. I am especially opposed to college campus carry. College age students are highly emotional, there is often drugs and alcohol use: their ability to carry loaded concealed weapons is very dangerous. The allowance of guns in bars is strongly opposed by the public and myself. I will no longer patronize bars if this is allowed. Alcohol clouds judgement and in many people leads to aggressive behavior. School children need to be removed from any risk of contact with guns. More guns loaded, concealed, and in the hands of civilians is not the answer to our cultural gun problems. Do not pass this bill, for God's sake!

Missouri NEA Testimony on HB 86 to the House General Laws Committee March 1, 2021 The Association appreciates the opportunity to present written testimony regarding HB 86. The Association opposes the bill. Missouri NEA believes HB 86 would reduce local control of college and university governing boards to regulate concealed weapons on campus. The Association believes that all students and education employees should be allowed to learn and work in a safe environment free of unauthorized guns and other deadly weapons and opposes the bill. On behalf of the Association, I thank you for the opportunity to offer our testimony on this bill. Otto Fajen MNEA Legislative Director

I am writing today to oppose this legislation. Although I support the Second Amendment, there are some places that guns make more dangerous instead of safer. As a retired, longtime educator I firmly believe that only law enforcement officials should be allowed to carry guns in any school setting- preschool through college. Accidental shootings are on the rise in homes and allowing guns in schools, churches, bars, daycares, colleges will only increase the chances for more accidents. I also have college age daughters- I know that allowing conceal and carry on campus would only put them and their peers at more risk. I know that university officials and security are also opposed to this legislation. They know that guns, college students, stress, and alcohol are not a great mix. Finally, the Second Amendment should not infringe on others rights to be incharge of their personal spaces- dorm rooms, classrooms, businesses, parking lots. This legislation would not help our state be safer, we would only see even more preventable gun violence.

As a concerned parent, whose son plans to attend a Missouri state college next year, I strongly oppose HB 86. College students are under constant stress, and some indulge in heavy alcohol or drug use. The addition of concealed weapons to such a volatile environment can only increase the likelihood of injury or death, including suicide. This bill would also be costly to the colleges, which would require increased security and insurance coverage. Campus police, college administrators, faculty, students, and parents overwhelmingly oppose bills such as these. Allowing concealed carry in private schools, childcare facilities, and bars is similarly foolish and dangerous. This bill also encroaches on a private citizen's right to control whether firearms are allowed on his own property. Vote NO on HB 86.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I am opposed to House Bill 86 for many reasons. This bill **FORCES** public colleges and universities to allow people to carry hidden, loaded handguns on their campuses. This is a terrible idea and does not make the students, faculty, nor others on the campus more safe. We all know that colleges are full of kids who are struggling to fit in, struggling with loneliness, and dealing with change. Additionally, the prevalence of alcohol and drugs makes it more difficult for them to make appropriate decisions. Easy access to a firearm is a toxic and dangerous addition to an already very stressful environment. Campus stakeholders such as police, security, college administrators and faculty, along with students, overwhelmingly oppose guns on college campuses. Please listen to the people that are impacted by this bill. Additionally, this bill takes away Missourian's rights by allowing handguns on private property, even if the owner has posted a "no guns allowed" sign. This is a dangerous option and does not support the individual's right to decide what should happen on their own property. If the purpose of this bill is to make our state safer, it is missing the mark. Having more guns in more places does not improve the safety of your constituents. Missouri is ranked 5th in the country for gun deaths and we have some of the loosest gun laws in the United States. Loosening these gun laws even more, like this bill will do, will cause even more violence and deaths by firearms in our state. Thank you, Randee Steffen  
St. Louis, MO 63146

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Thank you for your time. As a mother whose child is going off to college in the fall I am deeply concerned about legislation that would force public Missouri colleges to allow guns on campus. Under current law, generally only trained law enforcement or security officers can carry concealed handguns in public college and university facilities. HB 86 would gut this common sense public safety law and force these institutions to let civilians -- including students, staff, and visitors -- carry handguns in college and university facilities. However, campus safety officers, campus administrators, presidents, staff, faculty, students and resident life directors are the ones who know the campus environment the best -- and they know what works best for those environments. They oppose this kind of legislation and they have for years. We should listen to their expertise, first-hand knowledge and insight. States that have recently passed legislation similar to HB 86 are struggling with the consequences, one of which is accidental discharges: In Texas, just weeks after a gun on campus law went into effect, a permit-holding student unintentionally discharged his gun in his dorm room. In Utah, another permit-holding student discharged his gun in a crowded cafeteria. Fortunately, the bullet hit only a light fixture and a table. If the Missouri Legislature is truly concerned about stopping mass shootings, they should start by taking action to keep guns out of the hands of domestic abusers. A report on mass shootings (from 2009-2017) shows that in at least 54% of mass shootings, the perpetrator shot an intimate partner or family member. When this legislative body passed Permitless Carry (SB656) in 2016, you promised to fix the problems that very legislation created -- which our law enforcement officers were clear made it harder for them to keep guns out of the hands of domestic abusers. It's been over 4 years. Law enforcement officers, prosecutors are waiting. People in domestic violence situations are waiting. To be honest, they are not only waiting -- they are dying. Dying at the hands of domestic abusers who easily get their hands on guns. According to the FBI's Supplementary Homicide Reports from 2013-2017, at least 183 Missourians were killed in intimate partner homicide and 64% of them were killed with a firearm. Loosening Missouri's gun laws has resulted in a significant public safety risk. After the repeal of Missouri's purchase permit law requiring background checks, the state experienced a 25% increase in the firearm homicide rate and a 16% increase in the firearm suicide rate. Let's please stop going in this direction. Real lives are at stake. My father was shot and killed in Missouri by someone who never should have been able to get hands on a gun. However, this prohibited purchaser was able to get hands on a gun a couple different way -- and then hold a gun to my father's head and pull the trigger two times. How easy would it be for that person to get guns again since Missouri does not require background checks on private sales, or require permits? Too easy. Too easy for a convicted felon and a convicted murderer to get hands on a gun in Missouri. Research shows that criminals know that the internet is the place to go to get armed with no questions asked. In fact, in 2018 alone, there were 54,195 ads for firearm sales in Missouri that had no legal requirement for a background check. Please stand up for people like me and take common sense steps that would help keep guns out of the hands

**of dangerous people in the first place.**

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

General Laws Committee Members:I write today in opposition of HB86. I want to first say that our family owns guns, we are hunters and occasionally my husband likes to go to the range with his handgun. We support the second Amendment and we understand the utilization of these tools for sport. However, there is a limitation that should be placed on where concealed carry weapons are allowed.I am the parent of a child in pre-K and I do not want concealed carry weapons in a childcare facility. I am the parent of a child in Elementary school and I do not want concealed carry weapons in our classrooms- either in the hands of a teacher, staff member, volunteer security guard or guest.I work on the MU campus and I do not want concealed carry weapons on campuses of higher learning, in our parking garages or in our buildings.I work in the School of Medicine, our building is accessible to the hospital, and I do not want concealed carry in our hospitals where patients in crisis could obtain access to firearms.We have laws in place to keep weapons out of facilities like schools, childcare centers, hospitals and bars because it increases public safety.More access to firearms leads to more firearm related deaths. Medical students are three times likelier to die of suicide than their counterparts in the general population, according to data cited in an AMA Council on Medical Education report presented at the 2019 AMA Annual Meeting. In my position, I see the stress and strain both pre-med and medical students suffer from. I think it would be detrimental to increase the availability of firearms on campus for these students. I have been through two lockdowns in my time on the MU campus. The first was because victims of an attempted murder were brought to University Hospital and police were concerned that the suspect, who evaded police for nearly 24 hrs, would enter the hospital to pursue the victims. Having the law in place that weapons could not be brought into the hospital made anyone that might carry a weapon an obvious person to alert security to. It made the environment more safe. The second was when a female student was seen carrying a weapon across campus. Campus police were notified and able to find the girl before she committed to her plan for self harm. Someone noticing a weapon and calling campus police saved her life. This may not happen again if concealed carry is a common thing on campus.On average, roughly 40 percent of inmates who are incarcerated for violent offenses were under the influence of alcohol during the time of their crime. If we allow firearms to be added to the mix in bars, we should expect an increase in deadly assaults, intimate partner violence and homicide.Teachers, law enforcement, bar owners, school and hospital administrators have all stated their opposition to what you propose today. We should listen to the people in charge of our safety, our classrooms and our facilities.

My son attends a private grade school in Kansas City (St. Charles Borromeo Academy). And it seems every year the Missouri legislature tries to force private schools like my son's to allow civilians to bring guns into his school. ENOUGH. It's bad enough that Missouri doesn't require any training at all to carry a gun. I do not want those untrained gun owners to bring them into my kid's school. Trained law enforcement officers sometimes accidentally leave their guns around. What happens when a well-intentioned civilian leaves their gun where a small child finds it. This was a bad idea last year, and the year before that, and it continues to be a bad idea. I oppose HB 86. Again.

To whom it may concern, I am writing as a Missouri resident to voice my opposition to HB 86. As a parent of two teenagers I think it is a horrible idea to allow concealed, hidden, loaded guns on college campuses. Both of our children have factored in Missouri's lax gun laws when considering their college choices. This will most definitely impact students choosing schools outside of the state. It concerns them as future students and deeply concerns me as a mom sending them off to a school that protects gun owners rights more than a college student's life. College students can easily become depressed, stressed, angry, trying drugs or alcohol and now we want them to have easy access to firearms. It is ridiculous. Please do not pass HB 86.

I am opposed to every facet of HB 86. As one who lived in University of Missouri dorms for five years, witnessing the stress of studies, arguments over loud music, frequent alcohol and drug use etc., adding guns into the equation will make campuses more violent, less safe. Leave the guns to the trained law enforcement and security officers. Same goes for schools at the lower academic levels. And as far as BARS go: if there is the potential for concealed weapons in the bars that I frequent, I will stay away---and THAT will seriously harm the state's economy.

Guns do not belong everywhere! I'm a gun owner and, of course, support the 2nd amendment but Missouri goes way too far in allowing the unfettered carrying of guns. Missouri's lax gun safety laws have proven to cost lives, not save them. Guns everywhere means more access for those who have no business having access. Everybody carrying a gun means more chances those guns can get into the wrong hands. Please put the safety of our children ahead of the wants of the gun lobby. My family owns several hundred acres in rural Dallas county. We should have the right to decide who carries a firearm on our property, don't you think? Furthermore, alcohol and guns don't mix, as you know. Why would you want to increase the chance of gun violence by allowing guns in bars? Please reconsider this dangerous bill that will have absolutely no benefit to the citizens of the state of Missouri.

This bill has many bad aspects, but the idea that firearms belong around polling places is one of the most shocking. It's one thing for a Missouri legislator to expose his own children to a campus full of armed students engaging in underage drinking, under stress and frequently depressed (has the sponsor even been to a university???). Polling places are quiet havens with important functions and elderly people who are unarmed and want to stay that way. We saw just this year that there are way too many people willing to take up arms against election results that displeased them. There is no way on God's green earth I want those people anywhere near where my neighbors and I go to vote. I am appalled, and strongly oppose this insane bill.

I am writing to share opposition to HB 86, a measure to force hidden, loaded guns onto our college campuses and into many other sensitive places, including bars and daycares. I offer this testimony only as a private citizen who lives in Columbia, has a son who's gotten into the university for the fall, and who will not attend in the fall if this dangerous bill becomes a law. I also happen to be a professor at MU (though I'm not testifying in that capacity), and I don't have the option not to go to work. Like so many of my colleagues, I worry about my own safety and the safety of the staff, but I worry more for the students. If you actually work on a campus today, you know that the students are not adults with fully-formed decision-making abilities, and you also know that they are under a ton of stress, more than college students have been since I started teaching in the mid-nineties. Introducing firearms into such an environment would be foolhardy. I urge the committee to agree, as I do, with UM System President Mun Choi and our campus police, who are on the record as opposing changing the policy. Please vote NO on this dangerous, unnecessary bill. Thank you for prioritizing safety and common sense.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Dear Committee Chair and Committee Members, My name is Sara Ennis and I am a volunteer with Moms Demand Action for Gun Sense in America. I am writing in opposition to HB 86. I am the mom of two girls, aged 6 and 8, who attend Oakhill Day School, a private school in Gladstone, Missouri. On Wednesday, November 13, 2019, there was a serious, credible threat of violence made against our school by a parent of a fellow student. The family of the suspect was aware of the threat, so their children were kept home the day the attack was to occur, while the rest of us unknowingly dropped our children off as usual. It was only due to an early morning welfare check by police that the suspect was arrested and his plans were diverted, just hours before they were set to take place. The suspect is currently out on bail in Clay County, pending trial. The details of the police report are chilling. Our school has 300 children enrolled from ages 18 months through 8th grade. While I do not know every family, there is a strong feeling of community, a feeling that we look out not just for our own children, but for each other's. While my sense of security was shaken, I do feel relief in knowing that this particular threat was identified and contained without anyone getting hurt. We now know the threat can exist among us, and we appreciate that our school has addressed this appropriately. However, if this bill allowing concealed handguns in private schools were to pass, my husband and I would not feel comfortable sending our children to school. Students should not be put in an environment where their only protection against school shootings is trusting that the parent attending the school holiday program with a concealed handgun is in fact a "good guy with a gun." Firearms simply have no place in our schools. Missouri children deserve the freedom to focus on their education without having guns brought into their classroom. I urge the committee to please vote NO on HB 86. Sara Ennis

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I strongly oppose HB 86. I am a middle aged middle class educated white woman living and should be insulated from the impacts of gun violence, but I am not. This bill will make my life wrecked and miserable and may lead to me moving my family out of Missouri. I have already sent a child to college in a state that has stricter gun laws which expressly forbids the carrying of weapons on campus. He received extensive scholarships based on his test scores and grades and essay. He got into every college he applied to. If this goes thru, I would not recommend to any student or interviewee that they be part of any institute of higher learning here. ?I am a graduate of VA Tech, the most horrific college shooting in the US. I knew Liviu Librescu, as a coreligionist and as the major professor of my house mate and friend. He was brilliant and brave, a survivor of the Holocaust who was shot while saving all the students in his class. A gun at hand would have done nothing to prevent his death and would have made it more difficult for law enforcement to tell who the shooter was. It would not have made the door more secure or the glass thicker. The shooter in VA Tech never entered Dr. Librescu's room What would have protected Dr. Librescu and the other victims would have been stronger laws forbidding the sale of powerful weapons with large magazines, stronger and universal background checks, the ability to sequester guns from dangerous people, better and more available mental health, and not the carrying guns in university classrooms. Rest assured that the students in the graduate level engineering course in solid mechanics where one is focused on the mathematical modeling and observed deformation of materials due to external and often repeated forces and stresses and would not have been easily able to refocus on shooting an intruder especially the shooter is out side the room and the professor is locking the door. It would have just meant that rather than spending time escaping the students, would have been rummaging thru backpacks, laptops, notebooks and the the like, they might have shot their beloved teacher who was locking the door or been shot thru the door. ? ?I can also tell you as scientist and member in the academic world carrying a weapon will not make you safer. In the lab, your gun is likely to be far away from where you are working. You might even risk having it stolen since you aren't with it all the time. You have neither the room to carry the weapon with you nor the clothing suited for it. You are most often concentrating on things which require your entire attention, often using equipment far from where your handbags, backpacks, messenger bags etc. are stored (frequently a locker, office, desk, some other lockable area) and wearing PPE which are not designed with guns in mind and would make it infeasible to carry a weapon. In addition, the idea of firing a gun in while surrounded by flammable materials and dangerous machinery would be tantamount to setting the entire building on fire, release toxic chemicals or radiation. I am also a former member of the Tree of Life Synagog in Pittsburgh, PA. I have a friend who's cousin was injured in that shooting. The shooting in a sanctuary is anathema to our spiritual life. Carrying a gun on Shabbos is not allowed and bring a gun into our sanctuary is forbidden. We are not even allowed to touch the Torah with a material that could be easily made into a weapon. In this age of rampant hate crimes, and

with the rise of neo-nazis (which is what the Tree of Life shooter was) HB86 would directly risk the lives of those in prayer. Such hate crimes have already happened here, recall the shooting by at the Kansas City JCC which took place in the parking lot a few years back. HB86 would allow for exactly this scenario to be repeated. The threat of hate killings is real and present for us in this community. I attend a synagog where my rabbis repeatedly receive death threats and where our building has received hate mail and vandalism. We also house a preschool/daycare facility. We strictly forbid weapons on our sanctuary. We have fortified our building with crash barriers and coded doors, alarm systems and video cameras. We have hired off-duty police officers to conduct bag checks and to protect us as we pray, so that we may focus on our religion and spiritual life and not be afraid. HB86 means that we would no longer be able to protect ourselves with these measures and would make us much more vulnerable.??Most problematically this bill sets up a legal quagmire that will embroil the state in endless costly court cases. It sets up a head to head challenge between the Castle Doctrine (as most recently cited in the Amicus Brief by Attorney General Schmitt in Case No. 2022-CR01300 ) and Stand Your Ground. This will be costly and nightmarish for every municipality and stakeholder in the state. If HB86 is passed, for example a demanding property owner is potentially confronted by an aggressive gun carrier who is on the property in a car or parking lot. HB86 means both people would be in the right and it is easy to see the problematic outcome that the state and local government would be required to litigate and taxpayers foot the bill. ?HB86 would also feed into exponential rise of guns stolen from cars. Guns left in cars is now the primary sources for stolen guns in Missouri and has risen dramatically since the passage of Concealed Carry legislation. ?Stronger sensible gun legislation like registration of lost and stolen weapons, universal background checks, re-initiation of concealed carry permits as we previously had in this state would be more protective. Jewish law forbids the sale of arms to people who are suspect of criminal intentions. We now have gun sales (private and gun show sales) where there is no check on the criminal record or ownership of the gun and in Missouri we allow almost everyone to buy a gun with very little to no scrutiny of the transaction or those involved, either buyer or seller. This paragraph took 15 seconds to read and based to the Bushmaster AR-15 manual you have sent out between 10 and 15 rounds.

There is no evidence that the carriage of weapons, either concealed or otherwise, improves the safety of either the person carrying the weapon, or those with whom they come into contact. In fact the reverse has been shown to be true time, and tragic time, again. I strongly oppose the passage of this bill.

Please, for the sake of safety, do not pass this bill. It is reckless. We do not need guns on college campuses. I have a freshman in high school and I will not even consider a college in Missouri if you ever pass this bill. And no one I have talked to thinks that allowing guns in bars is a good idea and that includes my gun enthusiast friends. Have you been in a bar? Do you understand that people are using alcohol and that it lowers their inhibitions and for some makes them more aggressive? This seems the most idiotic part of HB 86. Time to get the NRA out of your pockets. They have been ripping off their members for a long time and giving those funds to politicians....when they aren't using them to go on luxury vacations on private planes. I'm not anti-guns. They have their place. But this bill is dangerous and anyone who votes for it, isn't thinking clearly. Act on behalf the citizens who would like to live in this state without fear of getting shot by a college kid who hasn't developed their pre-frontal cortex and/or drunks who think it is a good idea to carry a firearm. For goodness sake. Please.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

My personal safety, and that of my family, friends, and neighbors, will be placed at risk if many of the bills pending in the Missouri General Assembly that relax or remove current restrictions on firearms become law. I am a gun owner, husband, father and grandfather who moved to Jefferson City several years ago to be close to family. I believe, as many do, that individual gun rights under the Second Amendment can peacefully coexist with public safety rights. However, legislation such as HB86, in addition to bills addressing guns in churches, colleges, on public transportation, and prohibiting Missouri law enforcement from enforcing federal gun safety laws, disrupts this balance, and dismisses my right to live in a community in which I feel safe. My son-in-law is a Sargent with a local county sheriff's department, and I know from him, and many other officers which I have spoken, that more weapons in the hands of more people in more public places, does not make our community safer, and dangerously increases the risk to our law enforcement officers. Restricting him from attempting to enforce gun anti-trafficking laws, prohibitions on illegal weapons, domestic violence laws, and gun purchasing laws that keep guns out of the hands of dangerous criminals, puts his life in greater danger. I feel for his safety as well as my daughter and grandchildren if HB 86 is passed. I don't drink alcohol and frequent bars but do play guitar and enjoy live music. I belong to the Mid-MO Blues Society that holds frequent jam sessions in local establishment such as The Mission or Spectators. Two years ago, a Chief of Staff to a Missouri Senator, dropped a loaded gun during a fight onto the floor of Spectators while inebriated. Innocent people could have been killed or seriously injured. I feel for my safety as well as fellow music lovers if HB 86 is passed. My grandsons attended a local day care facility here in Jefferson City and my wife and I enjoyed attending special events and holiday presentations by the children, often in packed school rooms with other parents. I feel for the safety of innocent children, teachers, and parents if people were allowed to attend those events with guns strapped to their hip at eye-level to a 5-year-old. I enjoy visiting and attending events at Lincoln University as well other local colleges such as Westminster, William Woods and MU and Stephens in Columbia. But I can't imagine feeling comfortable on a college campus thinking I'm surrounded by 18- and 19-year-old teenagers with loaded guns hidden in their coats and backpacks. Consistently, college administrators, teachers, students and campus police have opposed allowing guns on campus. Most notably, Lincoln University Police Chief Gary Hill, who was recently credited by Gov. Parson as establishing the first law enforcement training academy in a historically Black college or university in the nation. <https://www.newstribune.com/news/news/story/2019/mar/07/lincoln-university-police-chief-opposes-proposed-firearms-bill/768782/> Advocates for bills such as HB86 claim that they have an "inalienable right" to possess and carry any weapon they chose and that any laws restricting firearms violate that "right." But that is not how our Constitution and democratic system operates. Ultimately, it is the Supreme Court which makes this judgement. In the Court's pivotal Heller Decision, Justice Scalia wrote "like most rights, the right secured by the Second Amendment is not unlimited" and that it

is “not a right to keep and carry any weapon whatsoever in any manner whatsoever and for whatever purpose.” Further, “Nothing in our opinion should be taken to cast doubt on longstanding prohibitions on the possession of firearms by felons and the mentally ill, or laws forbidding the carrying of firearms in sensitive places such as schools and government buildings, or laws imposing conditions and qualifications on the commercial sale of arms.” As a representative of the people in this state, I expect you to uphold the state’s motto, “Let the welfare of the people be the supreme law” and respect the rights of all citizens who want to live without fear in their communities. HB86 tips the balance between 2nd Amendment Rights and public safety too far away from people like myself, who simply do not feel safe surrounded in public areas by persons (often untrained) with loaded guns. Please vote NO on HB86.

As a professor and administrator at Missouri State University, I strongly oppose HB 86 that would allow for the carrying of concealed firearms on campuses like mine. This proposed legislation is short-sighted and unnecessary, since we have armed and trained law enforcement officials on our campus who are ready to respond to active shooters. There is no evidence that concealed carry laws reduce crime and violence. But it would make college campuses more dangerous places, since mental health issues are a common occurrence and university life can be stressful on students. Those of us who actually work on college campuses know that a law allowing concealed firearms in our midst will not solve any problems but rather increase risks for accidents and suicides. I would not want my children attending a college where other students were allowed to carry guns.

This is the type of dangerous bill that might make a handful of extremists happy, but will absolutely not make Missourians safer. The presence of guns in sensitive places WILL lead to more intentional and unintentional shootings. Why would Missouri lawmakers want to infringe on private property owners rights and put us in harms way? Why would lawmakers think that mixing alcohol and firearms is a good idea, despite overwhelming evidence that this a dangerous combination? Most especially, our children are at risk. The security officer or administrative assistant that allows people to enter the school have no way of knowing the intent of the person hiding a loaded handgun until it's too late. The majority of Missourians do not support this kind of extremist and dangerous legislation. Please do not pass this bill.

I oppose this bill because I work in violence and substance abuse prevention on a Missouri university campus, and know that the evidence is clear regarding college students and easy access to firearms: the leading cause of death among college-age young people (18-24) is suicide, and by not allowing firearms on campus we provide a protective factor against suicide by gun that young people not in college do not have. Add in the consumption of alcohol and other drugs, and the risk of both suicide and accidental death by firearm only increases, when guns are present. Please, don't allow this change to our law.

As a former teacher and with grandchildren in school and college, I oppose any form of guns on school grounds and campuses. It would be more dangerous if just anyone can carry except for security already provided by the institutions and plus it would be more expensive to add to gun violence prevention. Young peoples minds are not fully matured until around 23 years and because of conflict mismanagement and depression, there should be no lethal weapons available. We need to care for our children and resist the gun promoters who enrich the pockets of the gun industry. ( All gun owners should have training to carry a weapon.)

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Dear Committee Chair and Committee Members, My name is Taggart, and I am currently a junior in high school. I am writing as a member of Students Demand Action for Gun Sense in America in opposition to HB 86 because having guns in schools outside of those possessed by law enforcement officials is not conducive to learning. I often think about how as a child, my elementary school had intruder drills once a year. Our teacher would turn off the lights and my classmates and I would all sit quietly in a dark corner of the classroom for about ten minutes while staff did a sweep of the school, jiggling all the handles to make sure doors were locked and peering in the window to make sure that we weren't in view from the hallway. These drills weren't only a distraction from schoolwork, but an introduction to a legitimate fear of harm which students across the USA experience in what is supposed to be a safe place for learning. These drills have become so common that from the 2005-2006 school year to the 2015-2016 school year, the number of American public schools performing these drills had an increase from 40% to 95%. This fear of harm is also present in middle schools, where my teachers would remind us that should an intruder ever enter the classroom, especially with a weapon, we'd have to use school supplies like scissors, pencils, textbooks, or chairs, to defend ourselves. If we allow for people to carry concealed handguns on school campuses, the danger to our children will only grow. Missouri is especially dangerous for kids when it comes to gun violence already, with the leading cause of death for children in teens being by a firearm. This bill will drastically hurt Missouri's children, introducing threats that could walk in the door armed without being able to be stopped. I fear that allowing concealed handguns in schools will not promote the safe use of firearms. HB 86 would lead to even more guns being carried in our communities. I, for one, know that if a person walked into my high school right now with a gun of any sort, I would immediately feel uncomfortable and be distracted from my work. My school, like most schools I've been to, appreciates this fact and doesn't allow weapons to be carried on the property because they know that guns on campuses don't only put students in harm's way, but offer no tangible benefit to the students or staff of the school. The fact that schools, where our children are supposed to grow and become productive, compassionate, and driven members of society, would have their basic wish for a safe learning environment overruled by this bill is incredibly irresponsible. I am beyond concerned with the ramifications of allowing more guns into schools and colleges because they are places of learning where those threats certainly do not belong. For these reasons, I implore you all, vote NO on HB 86 to protect our schools and make Missouri a place where education is valued and our students can feel safe.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I am writing today in opposition to HB 86. This is a dangerous bill and will put lives of Missouri citizens, especially its children and young people, in danger. I write as a parent of college age teens, a parent of a child in a private K-12 school, and as co-owner of a bar. Requiring weapons to be allowed in any of these locations is foolhardy, and infringes on the rights of private property owners to have discretion over what can and cannot happen on their property. While many college students are of legal age to carry weapons, and some have grown up with guns and shooting sports, colleges are a dangerous place to have ready access to a weapon. Not only does alcohol use fuel bad decision making at a greater extent than in general society, but the rate of depression and suicide among our youth whose brains are not yet fully developed and rational, is quite high. Adding a gun to the mix makes it more likely that someone contemplating self-harm will accomplish their goal. A permanent solution to a temporary feeling. There have been too many instances in schools that allowed non-SROs or even designated teachers to have weapons where guns were left unsecured and accessible to students. This is a danger to all students. Additionally, we have had instances in the Northland of Kansas City, where I live of parents carrying weapons and threatening harm at private elementary schools. If a private school does not want weapons on its property, it is private property and those property rights must be respected. As a bar owner, I see people making bad decisions with alcohol all the time. If we are responsible for not allowing someone to drive after being visibly intoxicated, how can we be responsible for the safety of all of our patrons if we cannot ban those whose decision making is impaired from using a weapon in our place of business? Guns and alcohol are a deadly combination, and can cause a normal bar altercation to escalate and turn deadly quickly. No rights exist to cause or threaten harm to others. While you would hope all gun owners are responsible, time and time again has shown this is not the case. Please oppose HB 86, as it makes our state a more dangerous place to live. Tara Bennett Parkville, MO

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I don't want concealed carry firearms in those places that presently prohibit them. Missourians are no longer required to get a permit to carry concealed firearms and therefore miss out on the requisite training that comes with a permit. This training includes the instruction on the proper, legal circumstances in which a concealed firearm may be discharged. Think also of the legal liability faced by institutions and businesses that allow firearms on their premises and the cost of liability insurance to them. Allowing guns on college campuses, in hospitals, bars, casinos, daycare centers and etc., is unwise. How can mixing firearms with students, kids, alcohol, and ill/mentally ill/injured people be anything but a bad idea? I will feel less safe if guns are allowed in these places. Please don't allow it. In my opinion, more firearms in public doesn't equal a safer society - just a potentially more violent one. Police already have a difficult time determining who is a 'good guy' with a gun and who is a 'bad guy' with a gun. Let's not let a dangerous gun law like HB86 make it more difficult for our neighbors, our kids, our law enforcement officers, and other first responders to stay safe. Thank you for your consideration of my concerns with HB86.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I taught for 30 years at Missouri State University until my retirement in 2019. I urge you not to support any proposed bills that would allow people to carry a gun into buildings on campus. School security officers already may carry sidearms, and I feel that they provide adequate security. In my classes, I always encouraged students to respectfully debate all sides of social issues and public policies. The classroom is a place where students can feel safe when they disagree with me or with other students. Knowing that some people in the room may be armed would greatly undermine students' sense of mutual trust and the feeling of security that are the foundations of effective discussions and debates. Open, honest discussions are essential to the learning process. From time to time I had to tell students in my office that they were failing my classes, and I had to admonish them for poor attendance, tardiness, missed assignments, and the like. Most students took my words well, but some reacted very angrily to my explanation for their poor grade. Frankly, I am glad that I never had to worry that a disgruntled student might pull a gun on me during those instances. While school shootings get a lot of media attention, they are a very small part of the youth homicide problem. The Department of Justice in coordination with the Department of Education has been running the School-Associated Violence Study since 1992. The S-AVS data show that 1.5% of murders of children happen in school buildings or near school grounds. The other 98.5% of child homicides occur at home, on the street, or in other places. Having students armed on campuses will not help make schools safer. Instead, armed students will undermine the mutual trust and sense of security that are essential to an open and effective learning environment. Therefore, I ask you not to support any bill that would allow people other than security personnel to carry guns into campus buildings. Thank you for considering my views.

The Missouri Catholic Conference (MCC) respectfully opposes HB 86. Under current Missouri law, gun owners are prohibited from carrying a weapon into a church, or a private elementary or secondary school. Missouri properly recognizes that churches and schools are spaces in which guns have no place as a matter of public policy. They are appropriately considered gun-free zones, because they are spaces where we educate our children and in which we meet for worship. HB 86 changes this paradigm. It makes churches and schools places gun owners can lawfully carry, rather than recognizing them in law as gun free spaces. Churches and private schools wishing to remain gun-free would be required to post signage in a conspicuous place. In the case of churches, this signage would likely have to be posted near the sacred space of worship. The MCC views this as an inappropriate and unnecessary intrusion upon religious freedom, which is guaranteed under the First Amendment of the U.S. Constitution. The MCC recognizes that we now live in a society where legally recognized gun-free zones will not always protect innocent people from gun violence. Churches and schools are free under current law, however, to address these situations by establishing security protocols tailored to meet their situation. The MCC believes this is a more appropriate way to address the current proliferation of gun violence than removing churches and schools from the list of places guns are not permitted. The Second Amendment of the U.S. Constitution ensures the right to bear arms, but it should not be used to justify infringing upon the Constitutional rights of others. The Missouri Catholic Conference urges you to vote HB 86 "DO NOT PASS."

I am a lifelong Missourian, a graduate of MO S&T, and the mother of a current MO S&T student. My focus for opposing HB 86 is forcing our public universities to allow guns on campus. College is a stressful time for many students. Having easy access to guns on our campuses will increase the suicide rate. Having guns in the dorms, classrooms, cafeterias, libraries, etc. will increase the number of unintentional shootings. Our campuses are, for the most part, safe places for our young people to learn. Adding guns on campus will make them less safe. Thank you.

As a parent, I am so very opposed to this bill allowing guns on college campus, amusement parks, daycare centers. As a human begin I am opposed to allowing guns in hospitals, places of worship, polling places, government meeting places. How can we have just passed laws to keep our kids on elementary through high school campuses safe by banning guns and developing school shooting safety protocols and at the same time allowing guns in all of these other locations that should safe? Guns do not provide safety, they only harm and kill.

**VICTORIA GODFREY-ZELLER** <https://voteforkids.wordpress.com> <https://www.facebook.com/Magaw-for-all-Children-102940631091081> Testimony in Opposition of HB 86 I am an advocate for children. I am an independent active voter. I am always learning. I have been victimized but I am not a victim. I believe that we have to make children a priority in our society/political system. I believe we need to look at every law and every action through the eyes of a child so to make this world a place where we all are free to live and feel safe. We are all unique spiritual beings who have a place in this world. We are all children of god who are meant to love not hate. I am an advocate for children and youth in Missouri. I do not want to see anymore Missouri youth dying due to gun violence. I also work with youth in residential behavior setting and most if not all of them have witnessed gun violence, or they have lost a loved one to gun violence. The toll on our youth of the excessive gun violence in Missouri is alarming. I am asking our lawmakers to use common sense do not implement laws that would make it easier for our youth to get a hold of a gun or to witness gun violence or to lose a loved one to gun violence. I strongly oppose HB 86 which would force public colleges and universities to allow hidden, loaded handguns on their campuses; allow civilians to carry concealed handguns in private elementary, middle, and high schools, bars, day cares, and other sensitive locations throughout the state; and encroach on Missourians' rights by allowing handguns on private property even if the owner has posted a "no guns allowed" sign. The suicide rates in MO among the 10-24 age group is up 105% over the last decade. Missouri's gun homicide rate is worse than all but two other states and is more than twice as high as the national average. • With a rate of 6.63-gun deaths for every 100,000 people among people under the age of 21, the state ranks third in the nation. • In Missouri, shootings are the leading cause of death for young people. Colleges and universities, which have traditionally prohibited guns on campus, have been relatively safe from gun violence. But campus life is rife with other risk factors that make the presence of guns dangerous – including heavy alcohol and drug use, mental health issues and Suicidal thought. Allowing civilians to carry concealed handguns in private elementary, middle, and high schools, increases the risks of unintentional or intentional shootings impacting our children. More access to firearms is strongly correlated with additional risk of gun violence. When more guns are placed into schools, children will be more likely to access them. I do not want to see Missouri rank even higher in gun deaths then it already is because we have increased access to guns. Prior research shows that ninety-three percent of Americans think people should not be allowed to bring guns into bars. Alcohol is associated with increased aggression, and people under the influence of alcohol are both more likely to be shot and more likely to kill someone else. Another father, mother, brother, sister or cousin lost. Every death impacts a child in this state. Additionally, HB 86 would undermine MY rights as a private property owner by allowing people to bring hidden, loaded handguns onto my property—even if I have posted a no-guns-allowed sign—as long as the handgun is in a vehicle. I had a delivery driver pull out a gun and threaten to shoot my fenced dog because he was

barking at him, I do not want guns on my property for any reason by any person. Please vote for the welfare of our youth. The right to own guns ("bear firearms) does not overrule the right to safety for all Missourians and does not overrule my right to safety as a property owner. The numbers in Missouri tell us we need to do things differently to protect our youth and all citizens. We have to start thinking of the impact of all this violence is having on our children. We need to use common sense not fear of losing rights to determine our laws. Vote in OPPOSITION to HB 86

There is no evidence that this would reduce crime or protect anyone. The presence of more guns on the street and in more public places makes violence more likely. It gives citizens more reason to be fearful about the safety of themselves and their children every time they venture out. It will make public employees tense and fearful—for good reason. Finally this has nothing to do with the second amendment, which was intended to protect states from congressional overreach.
