In my humble opinion, Career And Technical Education is one of the most important pieces of public education. I feel that it is imperative the the curriculum is kept up to date, and fluid with the ever changing industry. The content must remain relevant and aligned with Industry Standards, to help provide students the education and opportunity to succeed at entry level positions.

Career and Technical Education is a key component of our education system in Missouri. As the landscape continues to evolve, it is critical to have a plan for updating our curriculum, providing students with an opportunity to be career ready in one of the many fields offered in Career and Technical Education.

This bill allows DESE to keep CTE curriculum updated in a timely manner to stay abreast of industry changes, for new teachers like me this is very important and can be extremely beneficial to connect the knowledge recently I gained in college to the information I will be bringing to my students in the classroom. This bill will also keep our CTE curriculum current and aligned with industry standards which is very important as we are training the up and coming workforce.

As an agricultural education instructor I can attest that this bill would be invaluable to the future of our CTE programs. Career and Technical Education programs are a necessity to prepare students to enter the workforce. An updated curriculum framework as well as CTE Certificate qualifications will assure students receive the best education possible. This bill is also a positive thing for Missouri Education because it allows local school districts to make decisions that best meet their communities needs.

Aligned is a nonprofit, nonpartisan coalition of business leaders committed to improving education in Missouri. Our vision is to create alignment between businesses and education so that children achieve their greatest potential and our communities can capitalize on a talented workforce. HB 896 brings together the key stakeholders to ensure that programs offered to students in K12 are relevant, current, and well-aligned with workforce needs. We strongly support HB 896.

I am opposed to this Bill.How many different programs for Career and Technical Ediucaion can the State, County and Local School Districts Offer?This is a duplication of Services.
