PSTIF continues to endanger the environment by not funding clean-ups appropriately around the State. Therefore, the sunset should not be extended until PSTIF proves they have changed their behavior. Why reward bad behavior by extending the sunset for them? Make them prove themselves that they have changed and will clean up environmental dangers first and properly do what they were created to do. PSTIF wastes millions of dollars every year duplicating the same work of MDNR. I am sure MDNR would rather have the funds to clean up spills themselves, than to deal with PSTIF. PSTIF lied to the Citizens of Harrisonville and cannot be trusted now. If you continue with PSTIF by extending their sunset, at the minimum make them accountable with proper oversight. Thank you!

I believe an extension is not warranted because the fund is currently set to sunset in 2025. Based on its poor performance and lack of oversight, I believe PSTIF needs to improve its methods of petroleum cleanup and if it does so, an extension could be considered later. Many individuals and communities have been harmed over the past several years and that is unacceptable. PSTIF endangers the environment by not funding clean-ups. The sunset should not be extended until after PSTIF changes its behavior. PSTIF wastes millions of dollars every year duplicating the work of MDNR.

The performance of PSTIF needs to improve before they are afforded an extension. There is already a sunset date of 2025, so an extension to 2030 is not warranted.

PSTIF puts their own benefits and profits above what their sole purpose is. The health of Missouri citizens should be a top priority but PSTIF uses its pull with Missouri Legislators to not do the clean up projects that it is required to do. PSTIF lied to the citizens of Harrisonville by not funding a cleanup project and cannot be trusted. There are no checks and balances for PSTIF and they are wasting millions of dollars every year. How does PSTIF continue to dupe Missouri Legislators year after year, and make them look like they have no clue what is going on? The sunset should not be extended until PSTIF is held accountable for it's unlawful behavior.

PSTIF puts their own benefit above the health of Missouri citizens. PSTIF needs to improve its methods of petroleum cleanup before being allowed to continue. The behavior of PSTIF needs to change before they are given additional time based on its poor performance and lack of oversight. PSTIF lied to the Citizens of Harrisonville and cannot be trusted now.

The portion of this bill that extends the sunset of PSTIF from 2025 until 2030 should NOT be adopted. PSTIF is a rogue entity that has committed fraud and endangered the lives of Missourians across the State. Multiple sources including the EPA, DNR, and Washington University have issued warnings about the mismanagement and dangerous operation of PSTIF. For over 10 years, PSTIF has done business as usual, abusing its authority and ignoring its mission. Past promises of internal reform have fallen flat. The sunset does not expire for 3 more years. Hold PSTIF accountable for real change. If it proves itself, then its sunset can be extended in future years.

PSTIF benefits their themselves instead of the health of citizens. They need to change thier behavior before they are given any extension of time.
