FISCAL ANALYSIS

ASSUMPTION

In response to similar legislation from 2022, HB 2663, officials from the **Florissant Valley Fire Protection District** assumed this proposal could limit a fire district's ability to ensure basic safety requirements are met related to fire protection infrastructures such as road width, access, bridge weights, and water for firefighting to name a few that are provided for in the fire codes.

Oversight assumes this proposal prohibits fire protection districts (FPD) from adopting ordinances, orders, rules or regulations relating to the subdivision of land or to serving residential construction. Oversight assumes FPDs may enter into contracts with counties or municipalities to create a residential construction regulatory system, however if the county or municipality does not adopt a system, then the FPD would only be able to issue permits relating to fire protection. Oversight assumes this proposal would have no fiscal impact unless action is taken by a local government to put these policies or contracts into place. Therefore, Oversight will assume no fiscal impact for this proposal.

Officials from the **Department of Public Safety's Division of Fire Safety**, the **City of Kansas City**, **Jefferson City**, **Jackson County** and the **City of Springfield** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to similar legislation from 2022, HB 2663, officials from the **City of O'Fallon** and the **City of St. Louis** each assumed the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other cities, counties and fire protection districts were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in The Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL DESCRIPTION

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
