FISCAL ANALYSIS

ASSUMPTION

§§376.687 and 376.689 - Insurance Coverage for Insulin Drugs and Epinephrine Auto-Injectors

Officials from the **Missouri Department of Transportation (MODOT)** state this legislation would put a cap on the amount an insured is required to pay for insulin. The remainder of the cost would be required to be paid for by the insurer. As a self-funded medical plan, MoDOT/MSHP would be required to cover these costs. The cost would increase annually with the increase in prescription drug costs, and this would contribute to an increase in health insurance premiums. Based on current utilization of insulin in the health plan, MoDOT expects a first-year negative fiscal impact of \$200,000 in FY 2024 and could exceed \$200,000 in subsequent years, from the State Road Fund.

Oversight notes that the MODOT has stated the proposal would have a first-year fiscal impact \$200,000. Oversight does not have any information to the contrary. Therefore, Oversight will use MoDOT's estimated cost \$200,000 to the State Road Fund (320).

Officials from the **City of Kansas City (City)** state this proposal could have a negative fiscal impact on Kansas City in an indeterminate amount if it resulted in a raise in the health insurance premiums paid by the City.

Officials from the **City of Springfield** state it is anticipated this proposal will have a negative fiscal impact of an undetermined amount.

Oversight does not have any information to the contrary. Since it is unknown whether the provisions of this proposal will result in an increase in insurance premiums to cities, Oversight will range the impact from \$0 to an unknown negative impact to local political subdivisions.

Officials from the **Department of Commerce and Insurance**, the **Department of Health and Senior Services**, the **Department of Social Services**, the **Missouri Department of Conservation** and the **Missouri Consolidated Health Care Plan** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from the **Department of Public Safety - Missouri Highway Patrol** defer to the Missouri Department of Transportation for the potential fiscal impact of this proposal.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other cities and various county officials were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL IMPACT – Small Business

A direct fiscal impact to small business medical services and equipment providers could be expected as a result of this proposal.

FISCAL DESCRIPTION

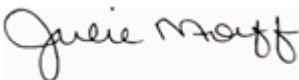

This bill requires insurers that provide coverage for epinephrine auto-injectors or prescription insulin drugs to limit the total amount that an insured is required to pay for a 30 day supply of

covered epinephrine auto-injectors or prescription insulin drugs to an amount not to exceed \$100 regardless of the quantity or type of covered prescription insulin drug used to fill the insured's prescription. The \$100 limit can increase yearly based on a percentage equal to the percentage change from the preceding year in the medical care component of the Consumer Price Index of the Bureau of Labor Statistics of the United States Department of Labor. The Director of the Department of Commerce and Insurance may establish all necessary rules and regulations for the administration of this section. The Department of Commerce and Insurance in conjunction with the Department of Health and Senior Services and the Department of Social Services shall make a report available to the public of findings from each department as specified in the bill by November 1, 2022.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
