FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration - Budget and Planning**, the **Department of Economic Development**, the **Department of Elementary and Secondary Education**, the **Department of Natural Resources** and the **Missouri Department of Transportation** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to a previous version of this bill, officials from the **Missouri Department of Agriculture**, the **Office of Administration**, the **City of Kansas City**, the **City of O’Fallon** and the **City of Springfield** each assumed the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight assumes this proposal would have no local fiscal impact without action taken by the governing body of the local political subdivision to adopt an ordinance, resolution, regulation, code or policy to enact this proposal. Oversight does not know of any governing bodies that have approved such an ordinance. Until that action is taken by the local political subdivision, Oversight will assume a \$0 direct fiscal impact to local political subdivisions.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other cities and counties were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL IMPACT – Small Business

There could be a positive direct fiscal impact to small businesses if local political subdivisions adopt an ordinance, resolution, regulation, code or policy that requires installation of electric vehicle charging stations.

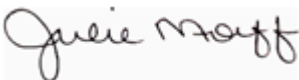

FISCAL DESCRIPTION

This bill provides that any political subdivision that adopts an ordinance, resolution, regulation, code, or policy that requires the installation of electric vehicle charging stations must pay all costs associated with the installation, maintenance, and operation of the electric vehicle charging stations. The bill also prohibits any political subdivision from requiring more than 5 electric vehicle charging states per parking lot or infrastructure for future installation of more than 5 vehicle charging stations, and further states that such policies will only apply to parking lots with more than thirty parking spaces.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
