FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue (DOR)** assume the following regarding this proposal:

Administrative Impact

To implement the proposed legislation the Department will be required to:

- Update procedures, correspondence letters and the Department website;
- Update the Missouri Titling Manual;
- Send Communications to License offices and other Contracted stakeholders; and
- Train Staff

FY 2024 - Motor Vehicle Bureau

Associate Research/Data Analyst 40 Hrs @ \$19.90 = \$796

Lead Admin Assistant 20 Hrs @ \$17.05 = \$341

Administrative manager 5 Hrs @ \$26.96 = \$135

FY 2024 - Strategy and Communications Office

Associate Research/Data Analyst 10 Hrs @ \$19.90 = \$199

Total Cost =\$1,471

The Department anticipates that they will be able to absorb these costs. If multiple bills are passed that require department resources, FTE may be requested through the appropriations process.

Oversight assumes DOR is provided with core funding to handle a certain amount of activity each year. Oversight assumes DOR could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, DOR could request funding through the appropriation process.

Officials from the **Missouri Highway Patrol (MHP)** assume the following regarding this proposal:

The fiscal impact to the state of Missouri on vehicle inspections equates to \$1.50 per each additional used vehicle safety inspected prior to sale, with \$1.00 deposited into the Highway Fund (0644) and \$0.50 deposited into Highway Patrol's Inspection Fund (0297). It is unknown how many additional inspections, per year, would be conducted with this proposed legislation.

Oversight notes, in current statute, all vehicles in Missouri must have an inspection prior to being sold, unless the vehicle is sold for junk, salvage, or rebuilding, or for vehicles sold at public auction or from dealer to dealer. This proposal requires a motor vehicle safety inspection be provided to the purchaser, unless the vehicle has less than 40,000 miles within three years of its model year. Oversight is unable to determine how many more vehicles will require a safety inspection as a result of this proposal; therefore, Oversight will reflect an “Unknown, but less than \$250,000” fiscal impact to the Highway Fund and the Highway Patrol Inspection Fund.

Officials from the **Missouri Department of Transportation** assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for MoDOT.

FISCAL IMPACT – Small Business

Small businesses that provide inspections could be impacted as a result of this proposal.

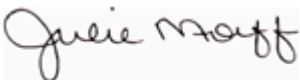

FISCAL DESCRIPTION

This bill requires that used motor vehicles get an inspection at the seller's expense no more than 60 days prior to a sale. The inspection is not required for vehicles having less than 40,000 miles for the three-year period following the model year of manufacture. The seller must present the buyer with the certificate of inspection and approval, who must then submit the certificate of inspection when applying for a registration.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
