FISCAL ANALYSIS

ASSUMPTION

In response to a previous version, officials from the **Office of Administration (OA)** assumed the proposed legislation would have a positive impact on OA Division of Purchasing as it would allow for the public to once again access needed procurement records on the Awarded Bid and Contract Document Search Website and MissouriBUYS Contract Board rather than having to submit an open records request to OA Purchasing in order to gain access to do so. This would reduce the number of open record requests received and reduce the number of hours needed by OA Purchasing to review bid and contract files for any personal Information of a 501(c) entity in the requested records and in bid files prior to award and in prior bid and contract files prior to the new solicitation's issuance and to redact such before providing the bid and contract documents to the public in order to maintain compliance with the provisions of section 105.1500, RSMo.

While there would not be a direct monetary savings to OA Purchasing, the proposed legislation would avoid Purchasing having to divert resources to completing the records reviews and redactions.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.
