FISCAL ANALYSIS

ASSUMPTION

Officials from **Office of the Secretary of State (SOS)** assume, each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Joint Resolutions proposing a constitutional amendment are submitted to a vote of the people at the next general election. Article XII section 2(b) of the Missouri Constitution authorizes the governor to order a special election for constitutional amendments referred to the people. If a special election is called to submit a Joint Resolution to a vote of the people, section 115.063.2 RSMo requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY24 petitions cycle, the SOS estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

The Secretary of State's office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, the SOS reserves the right to request funding to meet the cost of the publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Oversight has reflected, in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2024. This reflects the decision made by the Joint Committee on Legislative Research that the cost of the elections should be shown in the fiscal note. The next scheduled statewide primary election is in August 2024 and the next scheduled general election is in November 2024 (both in FY 2025). It is assumed the subject within this proposal could be on one of these ballots;

however, it could also be on a special election called for by the Governor (a different date). Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2024.

In response to similar legislation, HCS for HJR 131 (2022), officials from the **Kansas City Board of Elections** assumed it costs \$625,000 to conduct an election in the Kansas City portion of Jackson County. The State would be responsible for its prorata share based on voter registration. For audit and testing purposes, two permanent staff would need to be hired at \$40,000 each, including benefits. Additional programming or service by election vendors may be needed at an unknown cost.

Oversight notes that Section 25 requires every voting machine used for the purpose of counting and tabulating results in the state of Missouri shall be tested and certified as secure prior to each election in which the machine will be used.

Oversight also notes this proposal is contingent on a voter-approved amendment to the Constitution. Oversight will show the impact as either \$0 (Constitutional amendment is not approved by voters) to a potential cost to local election authorities based on Kansas City Board of Elections response above.

Officials from the **Missouri Senate**, the **Platte County Board of Elections**, the **Greene County Clerk's Office**, and the **St. Louis County Board of Elections** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to similar legislation, SJR 30 from 2023, officials from the **Missouri House of Representatives** assumed the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this agency.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other local election authorities and county clerks were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

*SOS has updated the estimated cost of a statewide special election after examining actual reimbursement costs for the General Primary and General Election during 2022.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

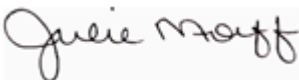

Upon voter approval, this Constitutional amendment specifies that only citizens of the United States are considered legal voters, that all elections shall be by paper ballot or any mechanical method prescribed by law, that voters are entitled to only one vote for each office or issue on a ballot, and that the candidate receiving the greatest number of votes in a primary election shall be the only candidate for that party in the following general election.

This resolution requires every voting machine in use by an election authority to be tested and certified in accordance with federal standards prior to each election in which it is used. Further, it provides that the General Assembly may by law, require or prohibit the use of any voting machine.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
