24 may severally sustain in consequence of the establishment, erection and maintenance of such
25 road, railroad, street railway, telephone, telegraph line, or electrical line including damages
26 from the construction and maintenance of necessary dams and the condemnation of land
27 submerged thereby, and the construction and maintenance of appurtenant canals, flumes,

30 line over or underneath the surface of such lands; to which petition the owners of any or all as
31 the plaintiff may elect of such parcels as lie within the county or circuit may be made parties
32 defendant by names if the names are known, and by the description of the unknown owners of
33 the land therein described if their names are unknown.

34 2. If the proceedings seek to affect the lands of persons under conservatorship, the
35 conservators must be made parties defendant. If the present owner of any land to be affected
36 has less estate than a fee, the person having the next vested estate in remainder may at the
37 option of the petitioners be made party defendant; but if such remaindermen are not made
38 parties, their interest shall not be bound by the proceedings.

39 3. It shall not be necessary to make any persons party defendants in respect to their
40 ownership unless they are either in actual possession of the premises to be affected claiming
41 title or having a title of the premises appearing of record upon the proper records of the
42 county.

43 4. Except as provided in subsection 5 of this section, nothing in this chapter shall be
44 construed to give a public utility, as defined in section 386.020, or a rural electric cooperative,
45 as provided in chapter 394, the power to condemn property which is currently used by another
46 provider of public utility service, including a municipality or a special purpose district, when
47 such property is used or useful in providing utility services, if the public utility or cooperative
48 seeking to condemn such property, directly or indirectly, will use or proposes to use the
49 property for the same purpose, or a purpose substantially similar to the purpose for which the
50 property is being used by the provider of the public utility service.

51 5. A public utility or a rural electric cooperative may only condemn the property of
52 another provider of public utility service, even if the property is used or useful in providing
53 utility services by such provider, if the condemnation is necessary for the public purpose of
54 acquiring a nonexclusive easement or right-of-way across the property of such provider and

55 only if the acquisition will not materially impair or interfere with the current use of such
56 property by the utility or cooperative and will not prevent or materially impair such provider
57 of public utility service from any future expansion of its facilities on such property.

58 6. If a public utility or rural electric cooperative seeks to condemn the property of
59 another provider of public utility service, and the conditions in subsection 4 of this section do
60 not apply, this section does not limit the condemnation powers otherwise possessed by such
61 public utility or rural electric cooperative.

62 7. Suits in inverse condemnation or involving dangerous conditions of public
63 property against a municipal corporation established under Article VI, Section 30(a) of the
64 Missouri Constitution shall be brought only in the county where such land or any part thereof
65 lies.

66 8. For purposes of this chapter, the authority for an electrical corporation as defined in
67 section 386.020, except for an electrical corporation operating under a cooperative business
68 plan as described in section 393.110, to condemn property for purposes of constructing an
69 electric plant subject to a certificate of public convenience and necessity under subsection 1
70 of section 393.170 shall not extend to the construction of a merchant transmission line with
71 Federal Energy Regulatory Commission negotiated rate authority unless such line has a
72 substation or converter station located in Missouri which is capable of delivering an amount
73 of its electrical capacity to electrical customers in this state that is greater than or equal to the
74 proportionate number of miles of the line that passes through the state. The provisions of this
75 subsection shall not apply to applications filed pursuant to section 393.170 prior to August 28,
76 2022.
