

HB 240 -- HAZING OFFENSE

SPONSOR: Smith (155)

This bill modifies the existing offense of hazing to prevent a person from being found guilty if an individual is the first to call 911 or campus security to report a need for medical assistance as specified in the bill. The individual must remain at the scene until assistance, law enforcement, or security arrive. The bill also specifies that any person who renders aid to a hazing victim is immune from prosecution for hazing as specified in the bill.
