

HB 618 -- ABORTION

SPONSOR: Doll

Currently, abortions are prohibited in the state except in cases of medical emergency. This bill adds cases where pregnancy resulted from rape or incest to the exception.

Additionally, it allows as an affirmative defense that the person performed or induced an abortion on a woman who previously reported being raped or an act of incest to a law enforcement agency, or child protective services in the case of a minor, and provided a copy of such report to the person performing the abortion.
