

HB 623 -- PRE-EXPOSURE PROPHYLAXIS AWARENESS

SPONSOR: Doll

This bill requires the Department of Health and Senior Services to raise awareness and educate the public on the availability of certain free or low-cost pre-exposure prophylaxis (PrEP) treatments. Methods of raising awareness can be found in the bill.

Additionally, this bill creates the "Preexposure Prophylaxis Fund," consisting of appropriations made by the General Assembly, for the Department to use to implement awareness.
