

HB 1000 -- RESIDENCY REQUIREMENTS

SPONSOR: Davis

Currently, commissioned and civilian personnel of the municipal police department in the City of St. Louis hired prior to September 1, 2023, will not be subject to a residency requirement more restrictive than being required to maintain a primary residence within a one-hour response time, and those hired on or after September 1, 2023, may be subject to a residency requirement no more restrictive than being required to maintain a primary residence in the City of St. Louis for seven years and then being allowed to maintain a primary residence within a one-hour response time.

This bill repeals the provision allowing commissioned and civilian personnel of the St. Louis City Police Department to be required to reside within the city for seven years before being allowed to reside within a one-hour response time.
