

HJR 66 -- ELECTIONS

SPONSOR: Baker

Upon voter approval, this Constitutional amendment specifies that only citizens of the United States are considered legal voters, that all elections shall be by paper ballot or any mechanical method prescribed by law, that voters are entitled to only one vote for each office or issue on a ballot, and that the candidate receiving the greatest number of votes in a primary election shall be the only candidate for that party in the following general election.

This resolution requires every voting machine in use by an election authority to be tested and certified in accordance with federal standards prior to each election in which it is used. Further, it provides that the General Assembly may by law, require or prohibit the use of any voting machine.

This bill is the same as SS SJR 30 (2023).
