This bill is so important to the blind and disabled community. It will allow individuals to stay at home and take their medication safely without medication errors. Call. Errors occur when individuals with Low, Vision and Blind and even other dish abled individuals take their meds without being able to read the labels on it and just go by the site in the feel of the pills which can change, depending on what ran the pharmacy is using this will keep individuals independent out of nursing homes, and at a hospital with medication errors being able to live on your own as a blind person is a great accomplishment and sometimes if we are unable to take her meds on her own, they have no choice, but to go in to the nursing home so please book. Yes for this bill and help us live the life we want. .

**I Oppose this Bill and its Intention. This Bill is for "Special-Interest" and takes away the Responsibility and Accountability of the "Supervising Physician." Defeat this Bill! The "Supervising Physician NEEDS to be Disclosed!**
