Having a daughter who is 15 and in highschool sports I am supporting HB 183 because I believe it is wrong to allow biological males to compete in sports designated for biological females. My daughter has worked VERY HARD to get where she is at, and it would be absolutely disgusting and wrong to allow a biological male to dominate her team or division just because he wants to be female.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

The Freedom Principle MO is in support of the Save Women's Sports Act. We believe allowing men to compete in women's sports is dehumanizing women. When it comes to sports and athletics, females should compete against other females and males should only compete against other males. One must ask is How is allowing males to compete against females fair? Missouri needs to join other states like Alabama, Arkansas, Florida, Mississippi, Montana, Tennessee, Texas, and West Virginia and protect our daughters, granddaughters, nieces and cousins.

I support HB 183.I support HB 170.We must protect women's athletics.Title IX provided the opportunity for women and girls to participate and compete in sports.I,my daughters, and innumerable women have benefited from this opportunity.However, women's sports are threatened by trans athletes.The muscular, skeletal, and hormonal differences between the sexes are undeniable and place men at a clear advantage.This is obvious when you examine the records in any sport.When biological males are allowed to compete against women they have an unfair advantage and it is not a level playing field.Title IX is completely undermined when women no longer have the ability to win and set records in women's sports.Furthermore, women have been severely injured in contact sports with trans athletes.Trans athletes should be welcomed and encouraged to participate in sports according to their sex, however, for reasons of fairness and safety, male athletes should not be allowed to participate in women's sports. Thank you.

I encourage you to pass this bill as the apparent national push (from media, government, Hollywood, etc.) to convince us that a person's sex in regards to sports doesn't mean anything is ludicrous. I also agree with the withholding of state funds for violators.

I believe students should participate in sports according to their true biological gender. And students who want to be the gender they were born shouldn't be forced to participate with those who have emotional or mental issues and don't know who they are. They are deceived.

Young women should not be disadvantaged in their sport endeavors by those who are biological males who chose to identify in another way. This removes opportunities for scholarships and acknowledgements for the years of hard work and long hours of training and competition. It simply is not fair! It is also mortifying for a young woman to share locker rooms and bathrooms with those who are biological males. To traumatized these young women at this crucial time in their human development is not proper.

Biological men are much stronger than biological women, therefore they have an advantage over women and the playing field is unfair. Men should not compete with women and men should not be allowed into women's bathrooms/locker rooms. When I say men and women I also am referring to boys and girls. Men/boys are sexually assaulting women/girls because they are given access to private areas. This should not be. This should be at all ages from K-12 and college level.

Because of physiological differences in the two genders it only makes perfect sense to keep sports defined as male or females based on a person's biological sex and not their chosen gender identity. This balances out competition and puts everyone on a level playing field.

Children need to be protected, sports allowing men to be "women" in sports (and sharing girls showers) is wrong. This is common sense, we don't want 'wokism' to destroy our young people.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

(1) males after puberty, have a marked biological advantage in body, structure, and strength. They should be separate from women in competition in sports. (2) federal title, 10 specifically was established to allow women the opportunity to compete, gain scholarships, therefore have access to higher education. Female, athletic top spots are used for scholarship. By allowing transgender males to compete in female sports, you are disenfranchising, female opportunity to sports scholarship for higher education. (3) males do not belong in female locker rooms when females are undressing or dressing for their sport. It is a direct violation of the right to privacy. I SUPPORT the separation of sports & competitions according to biological sex designated at birth.

My name is Mary Haley and I believe student women's sports should only be for biological women. Trans gender "females" have an inherent unfair advantage that is based on biological differences that go well beyond reproductive organs. It is ridiculous to even consider allowing this. If transgender students don't want to compete with men then they should have their own sports divisions competing solely against other trans individuals. They should not compete against biological females. Students should compete either in the category of their gender by biology or against other transgender students only.

Biological women deserve to compete against other biological women. Looking at Women's track and field records, it is clear that biological males get their physical advantage early in life, most of the time before High School. Allowing male bodies, regardless of what hormones they have been exposed to, in women's sports conveys an obvious unfair advantage.

Opponents are misleading the public by stating this bill bans transgender youth from sports, which is not true. Transgender youth can still participate in their biological sex category, or a gender neutral category can be created. Allowing biological males to compete against females is unfair and unsafe and will eventually destroy women's sports. I am a Democrat, and I support this bill.

I agree that biological males should not be allowed to compete against biological females. The scientific evidence has not been presented that it is safe for either sex. Biological differences still exist between men and women and this puts most female athletes at a physical disadvantage. Which is why it was created separately in the first place. Until there is more scientific evidence that there are less differences, then we need to protect both males and females. I am speaking as a former middle school, high school, and college female athlete.

Science proves that most biological males are physically superior to most biological females. This is the reason that we created male and female sports. How do we protect the female athletes from males who nearly claim to be females just excel in a chosen sport? Already there are college coaches actively recruiting transgender athletes for the ability to to compete with other teams with transgender athletes. We need to stop punishing the majority to protect the sensitivity of the minority

What incentive does a girl have to get into competitive sports if biological males will dominate? Order in sports, sports have rules. If not, then they aren't sports. They are a social experiment, not sport. Women are cheated if biological boys are allowed in women's sports. Support making women's sports exclusive to biological females.

The name of this bill could not be more misleading. Gender policing students who are transgender leads to invasive questions or accusations for all women who may be "too masculine" to participate in sports. Moreover, it perpetuates extremely harmful (and inaccurate) stereotypes that women are weak. Finally, this isn't an issue that Missouri is facing. My statement is short for these 3 bills because we should not be wasting time in the legislative calendar debating a non-issue. Our state's students are facing significant issues, but none of them have anything to do with women who are transgender wanting to play sports.

I have lived in Southwest Missouri and then Kansas City for the entirety of my life. I am a woman and I am also a lesbian. But my identity reaches far beyond those two things. Above all else I am a human. As a human I try to show empathy toward my fellow people. I understand that they have different experiences than I do. I understand that never can I know exactly what another person is experiencing. I can, however, let them make the best choices for themselves and their family. The Missouri legislature's obsession with regulating and controlling families in this state is where my empathy ends. Transgender children are not a political prop. They are real humans with needs, emotions, and values of their own. Are they and their families not the ones who should determine their own destiny? Are they not worthy of bodily autonomy? I supposed the bodily autonomy question shouldn't be left up to the MO GOP as we know what happens there. In short, transgender children deserve to be free, not under the thumb of the cowards of the right wing. Stand up for children in Missouri and do not support this bill.

As a resident of the State of Missouri and voting citizen, I oppose this measure and any measures which limit the rights of those living in my state to pursue life and leisure without harassment. This regulation will inflict harm upon a number of individuals with nearly no benefit to the rest of society. I acknowledge that this issue is complex, and it's handling should be left to the communities which it effects, rather than being decided by blanket edict. This measure is an over-reach by the state into the lives of individuals and seems more like political performance than actual concern for the citizenry. As a conservative-lead house, I would expect more from the party of small government and personal freedoms.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Testimony of Physicians for Reproductive Health Before Missouri House of Representatives Physicians for Reproductive Health (PRH) appreciates the opportunity to testify on HB 170, HB 183, HB 337, HB 419, HB 463, HB 494, HB 498, and HB 540. PRH is a physician-led advocacy organization working to improve access to comprehensive health care, including gender affirming care. Our network includes physicians of all specialties from across the country, including physicians in Missouri, committed to meeting the health care needs of our patients. We are strongly opposed to these dangerous bills as they are not based in science, require providers to stop lifesaving medical care, and would interfere in not only the patient-provider relationship, but in Missourians ability to be healthy. Gender affirming care is just that; health care. As actual physicians who know the evidence and science behind gender affirming care, we know that the care we provide is not a political stunt like the one the House is pulling today; we are meeting the needs of people of all ages in our state as they come to us for support and health care. Gender-affirming care is any health care that centers and acknowledges the gender identity of the patient. This includes primary care, reproductive care, and any other health service where the patient's gender identity is respected by medical providers. Cisgender people get gender-affirming care every time they go to their doctor: care that believes who they are, trusts their needs, and is in alignment with who they know themselves to be. Transgender, non-binary, and gender diverse individuals of all ages deserve gender-affirming care too. Gender-affirming care is safe, essential, life-saving health care that allows transgender and non-binary people to live their full and authentic lives. Leading medical organizations including the American Academy for Pediatrics, American Medical Association, American College of Obstetricians and Gynecologists, Endocrine Society, Pediatric Endocrine Society and World Professional Association for Transgender Youth support gender-affirming care for transgender and non-binary people. Bans and restrictions on this essential health care make patients and our communities less safe and healthy, and denies them access to the full range of the quality, compassionate, health care they deserve. The data repeatedly shows us that transgender and nonbinary youth are at an increased risk of depression and suicidal ideation compared to other young people, with recent studies finding that 66-72% of transgender youth are depressed and half considered suicide. Your proposed policies are directly harming the mental health and well-being of our community. The political dramatization of the "harm" that transgender people, queer people, and their rights have on communities is dangerous. LGBTQ people are no threat to the health and safety of communities. The real threat to the health and safety of communities is sitting here in this very room: the legislators working to pass these coercive, controlling, and misinformed pieces of legislation. The last-minute hearing on these bills makes it all the more clear that this was never about getting evidence-based information about LGBTQ communities and instead about trying to pass legislation filled with shameful lies fueled by transphobic and homophobic rhetoric. All people, no

matter their age or gender identity, should be able to attend school, play sports, and access health care in ways that affirm who they are. Bans targeting transgender youth sports participation are rooted in false discriminatory rhetoric. A person's gender identity may or may not be consistent with the sex someone was assigned at birth. Gender identity is central to how young people perceive themselves, and it is critical they are supported. When transgender and non-binary youth are affirmed by the people around them, their rates of depression and suicide drop significantly. Forcing young people to compete in sports that do not align with their gender identity is directly harmful to their well-being. There is also no evidence that allowing transgender student athletes to participate on the team that aligns with their gender identity would affect the fairness or the sport. Instead of passing legislation that puts the health care, dignity, and safety for trans people at risk, lawmakers should listen to trans people and the medical professionals who work directly with them, who understand the life-changing, positive impact of ensuring that they can access the gender-affirming care they need. We are the doctors who take care of your constituents. Believe us. Listen to us. Respect science and medicine. The wellbeing of your constituents, and of our patients, depends on it. Reject HB 170, HB 183, HB 337, HB 419, HB 463, HB 494, HB 498, and HB 540.

Trans people and trans kids have enough of a hard time as it is navigating through life. Attempting to block them from participating in the sport that aligns with their gender is simply an attempt to make them feel worse about themselves. You are making laws to literally target a very small amount of people, and they are well aware of what you are doing. Trans people don't transition to improve their capability at sports, that does not happen. You should be focusing on passing laws to improve the quality of life of your constituents. Conservatives campaigned on a supposed lowering of inflation and fixing the economy and yet you people are attempting to write up hundreds and hundreds of anti trans laws and are not addressing the things you ran on.

As a school counselor to see this bill is offensive and appalling. Long term studies show that excluding children and not excepting students/children for who they are create long term mental illness. Confidence decreases, suicidal ideations increase. Talk about not promoting well-being.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

The purpose of these bills is to promulgate transphobic sentiment, and force people to detransition, move, or live in hiding. There is no other pupose than to go against medical science in order to promote an outdated ideology. This is a clear violation of the constitution, and this sham hearing scheduled with just over 24 hours notice with a storm coming in has been scheduled to minimize public comment. You know what you are doing, and should be ashamed. These bills will directly lead to children and adults having deteriorating mental health up to attempting suicide. These bills will promote hatred of trans people, and we already have plenty of that. Are you ready for the blood on your hands? Are you gleeful for the children who will surely take their own lives? With these bills, you are telling trans people you would rather them die, hide, or leave than live as your neighbors. There's a saying in Missouri: Salus populi suprema lex esto. It means "the welfare of the people shall be the supreme law." It's our state motto. I say these obvious things that I believe you know, but you seem to have forgotten. You are not saving children, you are not saving the people of Missouri. You are working to the detriment of our neighbors, our friends, our kids, and ourselves out of fear. In the strongest possible terms, I urge you to vote against this legislation for the sake of our kids, and our future.

It's not the decision of the legislative body to determine who plays in what sport. That is up to the parents, school board, and community. This is an offensive piece of legislation that assumes that women are "weaker" and that they cannot compete at the same elite levels. Furthermore, it is absolutely offensive and discriminatory in its language and biological assumptions. This bill is dangerous to the transgender community in Missouri and violates federal law.

I am so embarrassed to be born in and a resident of Missouri. It is immoral and unethical for Missouri legislators to sanction even the proposal of banning children from the sports they want to participate in. Given that the Missouri legislators we have are not medical professionals but rather politicians, it is none of their business.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

As a parent of a transgender child who came out at 15 and is now 21, I can attest to the importance of maintaining children's privacy regarding their genitalia and breasts. When a child is forced to disclose the sex that was assigned to them at birth, they are in effect being asked to describe their genitalia to adults. Or the parents are being asked to do this. This is not an appropriate thing for adults to be asking children to disclose. It is also not safe for a child who has been safely living as a girl to disclose that she was assigned male at birth because it opens her up to bullying, harassment, physical endangerment--yes, getting beat up or even killed. It is not safe in all areas to live as an out transgender youth, and the attention that this bill and others are bringing to transkids is endangering their lives. Some children are born intersex with male and female sex markers. Doctors may choose a sex at birth with or without the knowledge of the parents, so not all sex assignments are correct at birth. Finally, transgirls and women are not threatening women's sports. Most girls who want to play sports are there to have fun, share camaraderie, compete, be physically active and challenge themselves in a field they enjoy. All children should be able to do that without fear that someone is going to ask them about their private parts. There has been a lot of attention about one collegiate transwoman swimmer but she is one case. Many elite athletes have physical differences that allow them advantages over other athletes and that is not a problem. Michael Phelps had a large arm span which helped with his swimming strokes. He was not disqualified for this. Kareem Abdul-Jabbar was 7'2", he was not disqualified from basketball for his height. But, we are not talking about elite sports. we are talking about school based sports. Transgirls and transwomen are not a threat to other girls who wish to excel in their sports in middle and high school. I oppose this bill

MSHSSA governs athletics in the state of Missouri requiring very specific oversight in accordance with NCAA and other entities as governing bodies. MO legislature making laws to supersede MSHSSA and the national athletics rules of NCAA is overreach by the government for less than 5 Transgender high school athletes in Missouri. This is biased and discriminatory legislation that aims to harm Missourians. There is no good reason for this legislation, very few athletes even are eligible based on MSHSAA and NCAA rules.

Let the MSHSAA handle sports participation in high schools. Let the NCAA handle it at the college level. Let leagues manage their own guidelines. This is an absurd waste of time when we're dealing with a meth epidemic in SEMO and state facilities are shutting down across the board. Knock it off with the stupid culture war, divisive politicking. Do something to actually take care of the people you represent for once.

**Please leave our LGBTQ+ kids and families alone. This isn't on your Republican Governor's list of priorities. This is nothing more than an ALEC copy and paste mandate that has nothing to do with improving the quality of life for Missourians. Talk about how you're going to manage our once-in-a-lifetime budget surplus and stop attempting to legislate a problem that doesn't exist.**

I am writing in opposition to these and any bills targeting transgender students and athletes. These bills are a waste of taxpayer money, a direct attack on transgender kids and their parents, and should not be considered until Missouri's House meaningfully addresses real issues that impact taxpaying, working families like improved healthcare access, better wages, and reliable infrastructure. With only a 4-6 trans athletes in our state, certainly the number of bills being presented seeks to harass constituents, accomplish nothing for taxpayers. and create artificial outrage for the purpose of Missouri legislators putting donor money into their campaign accounts. I call on Missouri's elected officials to take stock and properly prioritize legislation that will make a meaningful difference in supporting the freedom and liberty for all Missourians, not just ones affiliated with party or political clout.

The legislation does not solve the issue that is present in our current society from a medical framework. How will the state regulate when a human presents one specific outer anatomy feature, while having chromosomes that conflict with that outer anatomy? What occurs when a human as both reproductive systems? What happens when a human is assigned one biological sex, but then begins to develop outer reproductive organs divergent from their assigned biological sex on a birth certificate? How does the legislator plan to respond to these instances when these humans are wanting to participate in sports? The lack of clarity and true addressing of the current situation reveals a lack of thoughtful merit towards addressing the concern that is present in this bill.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

My name is Brittany Dyer. I live in Springfield, MO and I oppose Hb 183. I stand before you as a foster mother, a part of the LGBTQ community and a former student athlete through the collegiate level. On the volleyball and basketball court is where I learned how to win and lose. I learned how to work hard as an individual to be successful as a team. I learned how to push myself through the moments that I felt like quitting or giving up. That court was also my safe space. The place where I could quiet my mind and focus on the task at hand. As a closeted lesbian in a class of 55 students in rural MO a quiet mind wasn't easy to come by. I was filled with self-hate, longing to just feel normal, and sleepless nights trying to pray away the gay so to speak. I was like the staggering 60% of the LGBTQ+ community that was struggling with anxiety and depression and I needed an escape, that was sports. Beyond all the invaluable life lessons I learned from playing sports, sports quite literally saved me from my struggle with my mental health. That court was my safe space and is for thousands of students across our state. Every single student should be allowed the right to put on a Jersey and feel what it's like to be a part of something bigger than themselves. Just like you have the opportunity to do here in this committee. Within this room you work together as a collective team to push the state of Missouri forward and to a better tomorrow. Although it is not always well represented within these walls, you do serve a diverse state, with each group deserving equal representation and a voice. I have great pride for our country, but I can also recognize the mistakes we have made in our past and see how we can use it to direct our future. If you are a parent like myself you know children learn the best and with the deepest understanding when it's relatable. We must be able to relate to the world our children are living in today. Unfortunately, that world is currently divisive. I wish American history existed without blemishes but it doesn't. A thorough examination of our history is the only way to ensure we don't repeat it. Yes, it will create some difficult and sometimes emotional conversations in the classroom but that is what pushes us forward. We have the opportunity to start these conversations early and fully prepare our children in how to navigate a divisive world but more importantly teaching them how they can come together and work with their diverse peers to rebuild middle ground. Our state is diverse but our country is even more so, America the great melting pot. If we want our students to be successful in a diverse world, they have to experience diversity and working together at a young age. Capitalize on the innocence of youth that we are always so envious of, their ability to see through all social barriers without judgment based on your skin color, the way someone looks or who they love. To protect the lives and innocence of our children we have to start with their mental health by reducing their anxiety and depression. That cannot be done if we don't allow them equal visibility and representation in the school setting. I'll leave you with two quotes, one by Winston Churchill "Those that fail to learn from history are doomed to repeat it." And one from my 7-year-old son "all of my friends should have books that look like them because I do. It's not fair because everyone is different

and that's ok."

January 24, 2023The Honorable Rep. Alex RileyChairperson, General Laws Committee201 West Capitol AvenueJefferson City, Missouri 65101OPPOSITION for HB 183 a bill to deny participation in public school athletics activities to transgender studentsDear Chairperson Alex and Members of the General Laws Committee:American Atheists, on behalf of its constituents in Missouri, writes in opposition to HB 183. HB 183 is a controversial bill which would intensify systemic discrimination against transgender students in Missouri's athletics programs. We urge you to vote against this discriminatory bill that is extremely harmful to young people and would discourage the athletic participation of transgender students. American Atheists is a national civil rights organization that works to achieve religious equality for all Americans by protecting what Thomas Jefferson called the "wall of separation" between government and religion created by the First Amendment. We strive to create an environment where atheism and atheists are accepted as members of our nation's communities and where casual bigotry against our community is seen as abhorrent and unacceptable. We promote understanding of atheists through education, outreach, and community-building and work to end the stigma associated with being an atheist in America. We reject efforts to undermine the education, acceptance, and well-being of gender diverse students based on the religious beliefs of others.HB 183 is unnecessary, and it harms an already vulnerable population of young people. Supporters of this bill insist, without evidence, that the gender assigned at birth is necessary to ensure fairness in athletic competition. However, by doing so they are willing to sacrifice young people who already face a great deal of discrimination. This legislation would make transgender students far more susceptible to bullying and harassment in Missouri due to state-mandated exclusion and opprobrium. The 2015 U.S. Transgender Survey described the rampant bullying and harassment that transgender students already face, concluding that: Fifty-four percent (54%) of those who were out or perceived as transgender in K-12 were verbally harassed, and 24% were physically attacked; andSeventeen percent (17%) of those who were out or perceived as transgender left a K-12 school because the mistreatment was so bad.This bill stigmatizes trans kids and makes them more vulnerable to bullying and harassment. The overwhelming majority of trans kids, like most kids, do not play at elite levels. They just want to play everyday school sports and participate with their peers. These bans are not in the best interest of our students. When it comes to school sports, trans kids, like other students, deserve the same chances to learn teamwork, sportsmanship, leadership, self-discipline, and to build a sense of belonging with their peers. When we tell trans students that they can not participate in sports with their classmates, they miss out on this important childhood experience and all the lessons it teaches. Every student deserves the opportunity to participate in sports and benefit from the lessons that come with that opportunity.The Missouri House has a clear choice in this matter, either they choose to intensify the unnecessary victimization of a historically marginalized demographic of students or to foster empathy

and diversity and set a precedent of equality by rejecting HB 183. Interscholastic sports encourage teamwork, inclusivity, self-confidence and determination amongst the students that participate, and thus, athletic opportunities should be equally available and encouraged for all students. We urge you, please do not contribute to the discrimination against transgender young people by passing this bill. Do not pass this intolerant legislation under a false conception of "fairness." If you should have any questions regarding American Atheists' opposition to HB 183, please contact me by email at [bwilliams@atheists.org](mailto:bwilliams@atheists.org) Sincerely, Brittany Williams  
State Policy Counsel  
American Atheists

I am strongly opposed to this bill. It does not reflect small government, and violates the privacy of families and individuals. It's troubling to me to see so many adult men obsessed with the genitals of minors in this way. It's wrong to refuse students the opportunity to participate in sports based on psuedo-science that isn't backed up by any legitimate evidence. Bills like this are going to further alienate and depress teens who are already higher risk for mental health issues and suicide. Passing this bill will kill children, and their blood will be on your hands, you bigots.

I am the mother of a transgender child. His name is Chase. He always entertains us with his dry sense of humor. He is a straight A student. He is a member of future farmers of America (FFA) and even raised the cow that is currently feeding our family. He is building and painting sets for the high school play. He loves animals and calms every dog, cat, and mule he's ever pet. He cares for his siblings dearly and makes them homemade gifts on holidays. He loves being outdoors and is at ease kayaking our local rivers. As Chase would tell you himself, being transgender is the least interesting thing about him. He is so many other things. Its not a topic of conversation among his friends it school. It doesn't matter and his peers don't care. He's just Chase. A teenager in high school trying to become a happy and successful adult like everyone else. These bills attacking LBGTQIA+ youth in Missouri are inhumane, morally wrong, and full of misinformation. Offering "affirmation care," does not mean sex change. There are about a million steps in between a trans person coming out and surgery. And I can assure you, that we are not "coercing" our children into surgery. What we are doing is listening to them, finding counselors, psychiatrists, support groups, and anything else we can to support our children. These are all examples of affirmation care. With so many major issues impacting our state (poverty, education, crime, infrastructure), why is there so much attention/attacking on a group that is less than 1% of the population? If we are so concerned about our youth, why do we rank so low in child poverty and education? I encourage you to protect your child by any means you believe are right for them. I encourage you to protect my child with your vote. "This is a political mission that doesn't actually protect youth, but further defends the fears and phobias of some adults," Justice Horn

Sports and play are important to development and disallowing trans youth to participate in the sport that aligns most with their gender does a great deal of harm. Also where are the studies to support gender separated sports in the first place?

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

This legislative session in Missouri is the most dangerous one we've seen in many years. Missouri has the dishonorable position of having introduced the most anti-LGBTQ bills of any state so far this year. I thought America was founded on principles of freedom, life, liberty, and pursuit of happiness. Maybe it's supposed to be, but the current Missouri legislature is working hard to target and oppress a minority group of people and children, who want nothing more than the rights and opportunities afforded to the rest of the country. They have a hard enough time in life, without the state government actively searching for ways to cause them more harm. This is a targeted hateful overreach and the Missouri government does not belong in Missouri families lives. All kids deserve to play sports as the gender they identify as. Kids' aren't losing out opportunities to be a professional, college scholarships or anything remotely like that, due to a few transgender kids that want to play sports. The is a non-issue in the state of Missouri, and an excuse for some lawmakers to target a vulnerable group of children. This state has so many more problems that need addressing than whether a transgender kid or two want to play a sport. Go fix some real problems in Missouri that require critical thinking, rather than picking on kids and family civil liberties. Missouri kids should be allowed to get treatment that the American Medical Association advocates for in this country. There is no place for the Missouri government to interject itself in to family medical decisions and civil liberties of the citizens. Missouri lawmakers should be working towards advancing all healthcare, not regressing it because some people don't understand it, or have personal experience. These bills will contribute to a downward trend of overall medical care, as quality doctors will leave the state, and new ones will not want to come in. The bill targeting adult cabaret performances is another solution in search of a real problem. There is no issue here, and Missourians are free to ignore and not attend performances they aren't interested in. This is another excuse to target a minority group of people, in order to take away their civil liberties, and damage their lives and other career opportunities. If these hateful bills become law, more businesses will leave the state. More people will leave the state. More money will leave the state. Fewer people and business will come to this state. I have lived almost my entire life in Missouri and have been proud to be from Missouri. However, I've watched sports teams leave for better opportunities and thrive. I've seen businesses leave for better opportunities and take jobs with them and thrive. I don't want to watch the state become more hateful, and become an more oppressive place, forcing more people to flee. Missouri doesn't have the same resources and allure of many other states in America. It has to work harder to compete. Don't give people and business another reason to leave or avoid Missouri. Please don't advance or pass HB 170, HB 183, HB 337, HB 419, HB 463, HB 540, and HB 498. Get rid of them and any other copycat bills like them. They are bad for the people of Missouri and they are bad for the business of Missouri. There is no place for this hate in Missouri, regardless of political party. All Americans and Missourians should be free to be who they want to be,

**and live how they want to live.**

Please do not shut out students from the emotional, social, and physical benefits that arise from team sports. The kids who would play on these teams don't participate because they have an unfair advantage or nefarious intentions, they play because it's a fundamental human right. This bill would be another step towards making our state a more hateful and hostile place towards children.

This is an attack on trans people fueled by lies to allow hate and discrimination. Trans people are loved, they are our children, our parents, our grandparents. They deserve to be who they are and play as they are. Safety and privacy are important for everyone. That's why we have laws in place that make it illegal to harm or harass people, or invade their privacy. It's already illegal to enter a restroom or a locker room to harm someone, period. Anyone who does that can and should be arrested and prosecuted to the fullest extent of the law. So why are we singling out LGBTQIA? Transgender kids, like all kids, have the best chance to thrive when they are supported and can get the health care they need. Being a kid is hard enough. We don't need it to be even harder for kids who are transgender, denying them best-practice medical care and singling them out for increased bullying and harassment. Denying of them of body autonomy and basics human rights is wrong and most certainly not of Christian value.

HB 183 and HB 337 are nearly word for word identical, and eerily similar to other bills around the country, as if some national clearinghouse is writing them to disseminate them. I've been around youth sports and school sports for over 30 years, working basketball games, sponsoring cheer, and was a 13 year wrestling mom. These laws, as written, do not account for co-ed sports like cheerleading. That's a problem. I saw womens' basketball teams that could run circles around their male counterparts. Finally, until recently, there was not a women's division for high school wrestling so girls wrestled divisions. That is allowed in this bill: if there's no women's equivalent they can compete against the men. So are these girls magically stronger. The primary argument is that the girls are physiologically inferior to their male peers, so a transgender girl, even with hormone therapy, will be so much more powerful. Unless there isn't a women's division. Then they can totally compete against male peers, filled with male power-building hormones. I watched boys wrestle girls in the before times, and watched the girls beat the boys. Sometimes they beat my son. So the "weaker sex" argument seems pretty weak, so let's stop pretending this bill is about saving womens' sports. Let's call it for what it is: transphobic discrimination. Period.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

The Missouri State High School Activities Association has had a policy in place since 2011 that allows adolescent and teen trans students who can prove they have undergone certain medical treatments to “mitigate physical advantages” to participate in sports. Yet, there are still no trans athletes in this state who any elected official can even name, let alone point to as winning “all the things” or “stealing opportunities” from cisgender girls. It’s funny how trans people, who — youth and adults combined — are so few in number that many of you probably believe the majority of the population shouldn’t have to be “forced” into accommodating them by using their names and pronouns or creating gender-neutral restrooms. Yet somehow you also believe that a small percentage of that same tiny group of people — those who are school-aged, have an interest in participating in sports, and were assigned male at birth — is somehow going to completely dominate and ruin girls’ sports...which, by the way, has an estimated three and a half million cisgender female athletes competing across the U.S. I know that those of you who want to support this bill don’t see my child the way I do: as a smart, vivacious, generous, kind, and empathic young person. But this is the Show Me State, and if you would just take a minute to really look at Avery, I could show you that. We could all show you how wonderful our kids are. It breaks my heart, that you aren’t willing to really see them, and only imagine them as dangerous, scheming cheaters who want a trophy at any cost. As leaders of the Show Me State, you should be looking for facts to base your votes on. The facts are that no trans kids are threatening sports here. The facts are that this is a nationally manufactured fake crisis to divide the electorate and win votes. The facts are that 20 other states have trans-inclusive policies in place — some for as long as decade — and they are working. Trans kids get to play and participation in girls’ sports has actually increased since those policies were implemented. There is no crisis here. There is no reason to move any of these bills beyond this committee. And if you really care about girls’ athletics and don’t simply want to demonize and punish trans kids to get votes, you would take the time to consult with leaders in those other states to ask questions, to find out why and how those policies are working to the benefit of all students.

Blanket, draconian, invasive bans on trans youth participating in sports and subjecting them to degrading inspections is not the way to ensure fairness in sports. While people at different stages of transition may retain a strength advantage if they are transfeminine, the timeline matters; if they were on puberty blockers and transitioned before going through full "male" puberty, there is no evidence that they have any advantage to begin with. Hedging them out is unfair and wrongheaded (see here: <https://www.nbcnews.com/feature/nbc-out/trans-women-retain-athletic-edge-after-year-hormone-therapy-study-n1252764>). Further, advantage is not universal across sports or at all levels of sports. Competitive, varsity sports are distinct from intramural or non-varsity sports and physical activity. Golf is distinct from Football, for example. And on that note: transmasculine people GAIN a strength advantage, and the text of this bill is not clear enough to prevent cases like this one, from Texas, in which a fully grown trans man was forced to wrestle girls, because he was considered "female" (<https://slate.com/human-interest/2017/02/the-texas-trans-boy-forced-to-wrestle-girls-exposes-the-illogic-of-anti-trans-policy.html>). That policy would create unfairness in sport, rather than prevent it, as would this bill, as written. It is nonsensical and should be revised. Trans athletics are a complicated subject for which no one-side, fits all, simplistic policy can act as a solution--and definitely not this one.

I am writing in serious opposition to the following bills: HB183, HB337, HB419, HB463, HB540, HB494, HB498. As a parent, it is upsetting to me that my friends whose children don't identify as binary or cisgender, would be targeted in such a way. It is firmly understood in the scientific and medical community that these people exist. They exist, and they identify themselves when they are CHILDREN. The only way to keep them safe from self-harm is to affirm their identities. The only way to keep them safe from harm from others is to build tolerance and allow them to be seen and understood. By attacking these children's capacity to participate in extra-curricular activities and to seek medical treatment (which is again, well documented as life-SAVING treatment), you are in a very real sense, erasing them. I beg you to do some actual research into transgender and non-binary children and adults. Please, look at the vast evidence we have at our disposal of how to keep ALL children safe and properly cared for. As a legislator, I think it's important to always consider the following about proposed laws: Who does this help? Who does this harm? These bills do nothing to help your constituents. All they do is harm. Thank you, Gina LaRose

I am in opposition to this bill. It is an invasion of privacy. I don't believe the Missouri Legislature should be in the business of policing children's genitalia. The Missouri High School Activities Association already has a policy to deal with this issue that is based on national guidelines. I implore this body to address real problems like the 120 kids who were killed or injured in the St. Louis area alone. Or the increase in illegal modifiers that convert semi-auto firearms into fully automatic weapons on our streets. Please stop wasting tax payer money on a fringe issue that impacts a very small minority of students. Kids are dying and this is what you chose to spend your time and our tax dollars on. Shameful. This body is making Missouri a national laughing stock.

My name is Eury Speir. I was born and raised in Missouri and it is where I have chosen to pursue my graduate degree in geology. This bill targets a minoritized group, trans girls and women, under the guise of protecting women. This bill, and others like it, will harm our trans community, resulting in increased instances of suicide. This bill does nothing to protect women or women's sports and is purely aimed at removing liberties from a small community.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I am a cisgender woman who was 28 times all-state in track, cross country, and swimming in high school, had three school records for track and one school record for swimming, and who went on to compete in D1 track and cross country. I loved my sports because they were inclusive, that swimming and running were no-cut sports that allowed us to have girls on the team who didn't make varsity or junior varsity on other teams. It was a big family. And for the state to violate that inclusivity and dictate that some girls aren't welcome, to say that these little girls are wrong or lesser—that is such unimaginable cruelty. I can't imagine having grown up without sports and my beloved teammates. Some of the most valuable moments for me were racing my heart out, whether or not I won, just pushing myself as hard as I could, and celebrating with my mom and my grandparents afterward, and feeling how proud they were of me. To take this sense of community away from some girls just because you don't think they weren't assigned female when they were born...I just wouldn't wish that upon anyone. Transgender teens are more than 7x more likely to kill themselves than cisgender teens, and it's because of attacks like this cruel legislation that marginalize them. I oppose this bill.

Hello. I am a St. Louis, Missouri born-and-raised resident, and I am opposed to all of your policies attempting to eliminate transgender people from our state. I am a 22-year-old transgender man, and I live every day fulfilled and loved as the man I was meant to be. Everything you are citing and saying are conspiracy theories fueled by hate and the need to control bodies that are not yours. I hope that recognize the error of your ways and listen to science and the people about whom you speak. Every person deserves to play games.

This bill is horrifying in two ways. First it targets such a small group of people, requiring them to provide personal medical information to a school which is not under the same strict standards as a Dr. office or insurer, and demonizes them to their peers, making it that children who are trans cannot participate in sports at any level. Secondly this is a waste of tax payer money to fight a made up situation. There are no facts supporting this measure being beneficial or positive to Missouri schools, just conjecture and tall tales. Let the kids play sports and stop giving reasons for young Missourian's to either leave the state or end their own lives because you, in your ivory tower, want to push forward this fascist Christian propaganda. Threatening districts that you will pull their funding, which you have already gutted, ensures that Missouri stays at the bottom of the list for education, income, and safety.

If by saving women's sports you mean allocating sufficient funds to public education so they fund women's sports equally, then yes. Except no, this is a bill creating a solution to a completely non-existent problem. So distant from reality and the \*reliable\* empirical evidence available. If you're in state government because you're worried your kid won't get first place in peewee baseball, then respectfully go home.

My name is Hannah Shanks. I am a woman, a Missourian, a mother, and a Christian. I oppose this bill on all of those grounds. As demonstrated over and over again in this very body, this is a bill in want of a problem. Governing bodies of sport already have measures in place to accommodate trans athletes - and these have been in place for decades. The underlying assumption that girls and women have to be rescued by legislators from a vanishingly small number of athletes is ludicrous. I was a multi-sport athlete throughout k-12 and an all-state player in high school. This bill does nothing to protect girls and women's sport, and everything to place a target on the back of trans youth. I urge this body to kill this bill, as Missouri has done multiple times over the last several years.

Is Representative Burger familiar with the current MSHSAA guidelines regarding trans-student athlete participation in sports? What is wrong with the current rules? There is currently ONE students competing in middle or high school sports in an event that matches their gender identity. ONE! Trans children are already at higher risk of suicide and other mental health issues, bills like this just make things worse.

I am a citizen of this state, concerned about the well-being of our youth and families affected by the 8 bills scheduled for the hearing this afternoon. This bill, in addition to the others on the schedule today, January 24, 2023, would take away the freedom to access gender-affirming health care, legislate kids' sports and ban trans kids from playing sports where most appropriate, and would attack drag shows. We have REAL issues in this state and these bills are a cruel distraction from solving real problems Missourians are facing. These bills would have real-life tragic consequences for youth, families, and businesses in this state.

Hello,I am writing the same complaint for each of these bills as their text and intent is essentially the same. Please refer to the text from Title IX (1972):No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.These bills, while invoking Title IX, simultaneously undermine it, by creating a class of people who by design will get NO opportunities on the basis of sex: Anyone who doesn't fall under the categories of strictly male or strictly female, including over 1 in 1000 individuals who are born intersex in the United States (0.1% of the population). Therefore, both of these bills are a violation of Title IX and unconstitutional.Thank you, Jason Gober

This would be discriminatory and harmful. A student should be able to participate on teams intended for their gender, which does not necessarily correspond to the sex assigned at birth. Also, any rules about changes to birth certificates should be made separately. This bill is not the place to decide to ignore legally made changes to an official document.

My name is Jen Bernstein, and I am submitting this testimony in opposition of HB 183 on behalf of the National Council of Jewish Women St. Louis (NCJWSTL). NCJWSTL is a non-profit organization in metropolitan St. Louis, representing over 5,000 members and supporters throughout the state. We focus our work on community service, advocacy, education and philanthropy to improve the quality of life for women, children and families while supporting individual and civil rights, and have been doing so since 1895. We are opposed to this bill because it would cause active harm to trans kids. We care about all children in this state, and trans kids are at extreme risk for self harm and suicide. This is just entirely unnecessary and cruel.

Good Afternoon: What data from the past 10 years support the need for this legislation? Annually, how many occurrences are there of males competing or requesting to compete in female's sports teacher? Specifically, please sort out those requests due to there not being a male team in a school (example, volleyball). How many special requests\* has MSHSAA received for for males to participate in female sports? See MSHSAA policy. How many complaints has each school district received annually in the past 10 years from parents about males participating on female sports teams? 2. How is this legislation different from current policy followed by all public schools? 3.20 PROVISIONS FOR GIRLS AND BOYS PROGRAMS3.20.1 Sex-Separated, Competitive I would like a response, please at email provided with this form. Thank you

The National Survey on LGBTQ Youth Mental Health (The Trevor Project, 2021) found that affirming transgender and nonbinary youth by respecting their pronouns and allowing them to change legal documents is associated with lower rates of attempting suicide. You all are literally killing kids by continuing on with this nonsense legislation. I don't know how you sleep at night.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Transgender children vary in athletic ability, just as other youth do. There is no evidence to support claims that allowing transgender student athletes to play on the team that fits their gender identity would affect the fairness of the sport or competition (ACLU, 2020). In February 2021, the National Coalition for Women and Girls in Education issued a statement supporting transgender and nonbinary students' full and equal participation in all education programs and activities, including sports (see Resources section below). The American Psychological Association took the same position in February 2020 (APA, 2020). A person's gender identity is how each person self-defines their gender. This may or may not be consistent with the sex someone was assigned at birth (APA, 2009). Gender identity is central to how children and adolescents perceive themselves (APA 2015). Requiring transgender youth to athletically compete on teams based on their sex/gender assigned at birth is the same as banning them from athletic competition entirely (ACLU, 2020). There is ample evidence that an opportunity for adolescents to participate in sports results in positive outcomes, such as better grades, greater homework completion, higher educational and occupational aspirations, and improved self-esteem (Darling et al., 2005; Fredericks & Eccles, 2006; Marsh & Kleitman, 2003; Nelson, & Gordon-Larsen, 2006; Ortega et al., 2008; U.S. Department of Health and Human Services, 2008). Additionally, excluding any subset of girls from sports can encourage divisiveness and compromise group cohesion, undermining the benefits all youth deserve from team sports (ACLU, 2020). All youth should have access to the benefits of sports. As the father of a transgender son, I would hate to have the ability to participate in sports taken away from him. He is no threat to taking away any scholarships from anyone. He just wants to play sports with other boys as he identifies as a boy. Having to deal with dysphoria and discrimination is bad enough. Being told that he cannot play with his peer group is just cruel. I implore you to not pass this bill. Let's not hurt our children trying to grandstand for politics.

We are all created in God's image, therefore, everyone has a place in their society and everyone deserves our care, understanding, and support. Legislation that seeks to hurt or limit opportunities for a certain type of person is just wrong and our state legislature should not be making decisions on who can participate in school sports. HB183 and all the bills like it are fear responses and show no understanding of the lives of these individuals ( there is NOT an army of Trans youth invading our schools) who simply want to enjoy the comradery and growth that comes from playing team sports. Please stop wasting time on these divisive, fear-mongering bills. Our needs in Missouri are great and this is not one of them.

**THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.**

On behalf of the Anti-Defamation League (ADL), I write to urge Members of the Committee to oppose House Bills 170, 183 and 337 (HB 170, 183, and 337). Founded in 1913 in response to an escalating climate of anti-Semitism and bigotry, ADL is a leading anti-hate organization with the timeless mission to protect the Jewish people and to secure justice and fair treatment for all. Today, we continue to fight all forms of hate with the same vigor and passion. A global leader in exposing extremism, delivering anti-bias education, and fighting hate online, ADL's ultimate goal is a world in which no group or individual suffers from bias, discrimination, or hate. HB 170, 183, and 337 would senselessly prevent female transgender students from participating in intercollegiate, interscholastic, and intramural athletics throughout our State's public and private educational systems. The bills rest on tired and inaccurate stereotypes regarding athleticism, biology, and gender, resulting in harm to transgender girls and young women. e. Anti-Trans Athlete Opposition Depriving transgender students of such opportunities is discriminatory and wrong. The legislation specifically bans transgender girls and women from participating on a school-sponsored athletic team that is exclusively for students of the female sex at both public kindergarten through postsecondary schools and private kindergarten through postsecondary schools that receive state funds. Due to this blatant discrimination, this legislation is unconstitutional and unlawful, as it violates both the Equal Protection Clause(1) and Title IX(2). HB 170, 183, and 337 are attacks on transgender, intersex, and gender nonconforming girls and women. Transgender students – particularly transgender women and girls of color – regularly face systemic discrimination, marginalization, and violence. Excluding them from school sports causes additional deep harm. School sports offer unique opportunities for relationship building, leadership, physical and mental health, development of self-confidence, and creating a sense of team and belonging in school. Depriving transgender students of such opportunities is discriminatory and wrong. HB 170, 183, and 337 also rest on inaccurate stereotypes regarding athleticism, biology, and gender, which not only demonstrates that the bills are a terrible, misguided solution in search of a non-existent problem, but also causes further harm. In conclusion, we urge this Committee to oppose HB 170, 183, and 337. Thank you for your consideration. Jordan Kadosh Regional Director ADL Heartland(1) See Hecox v. Little, 479 F. Supp. 3d 930, 987 (U.S. Dist. Ct. ID 2020).(2) See Bostock v. Clayton County, Georgia, 140 S. Ct. 1731 (2020) (holding that Title VII's prohibition on discrimination because of sex includes discrimination based on an individual's transgender status); Adams v. Sch. Bd. of St. Johns Cty., 968 F.3d 1286 (11th Cir. 2020) (applying Bostock to hold that Title IX's prohibition on discrimination because of sex includes discrimination based on an individual's transgender status); Grimm v. Gloucester Cty. Sch. Board, --F.3d--, (4th Cir. 2020) (same).

MSHSAA has guidelines around this. There is no reason for this legislation other than to virtue signal your opposition to trans kids rights generally. Sorry to put it so bluntly but its true. There are more bills targeting trans kids than trans kids playing sports in Missouri. I understand that for many the world seems to be changing around them so quickly and that can be scary and frustrating, but these kids deserve to be protected, not targeted. This bill does nothing to protect children and only does harm to the most vulnerable among them. I urge you to vote this down.

It is highly inappropriate for a school to examine a student in some way to determine if they are a "biological male or female" and then discriminate against their participation in sports. Trans youth deserve the right to the same freedoms as other children, without fear of exclusion from their favorite activities.

This bill ostracizes an already vulnerable demographic, and exists to promote a moral panic about trans people. Trans people have existed for all of humanity, and they deserve to be treated with dignity and respect. It is disgraceful that, instead of addressing the very real shortcomings in Missouri's public education system, politicians are trying to throw a minority group under the bus and hoping it will score them points with an uninformed public.

This bill is a distraction, harms all our students (not just transgender ones) by enforcing draconian measures in regard to gender assigned at birth. This does not benefit our children; this is a shameless ploy by elected officials to virtue signal the latest political trends. Do your jobs and quit wasting our time with things like this.

My name is Dr. Kerri Schafer and I live in Columbia, MO. I am a licensed psychologist, working with college students at the MU Counseling Center and on the board of The Center Project, Mid-Missouri's first and only LGBTQ community center. I oppose this bill. This line of legislation clearly exists because we as a community understand the benefits of participating in team sports. I was painfully shy as a child and teenager and being part of the tennis team in high school was a huge source of self-esteem for me. On the tennis court I felt happy, free, and un-self-conscious. I was secure in my sense of belonging with my team. I learned how to handle disappointment and failure, and how to support and uplift others. Many of you or your children probably have similar stories about the positive impact of being part of something – a team, an organization, a community. There are a lot of misconceptions about the impact of transgender girls participating on girls' sports teams. Some of these arguments may seem reasonable at first glance. However, the reality is that transgender athletes are not much different than the other girls they participate with – very few of them become elite athletes. They participate in sports for the same reasons as any student: to have fun, challenge themselves, and experience the sense of belonging that comes with being part of a team. There is no evidence that transgender girls are bigger, stronger, or faster than other girls, and they should not be punished for this incorrect assumption. In fact, when a non-transgender girl is exceptionally tall or strong, we celebrate that and encourage participation in sports – “Wow, have you thought about playing volleyball?!” Sense of belonging is a huge benefit of team sports. Everyone wants to feel part of something – a family, a group of friends, a faith community, a team. Unfortunately, transgender kids are often excluded from this sense of belonging. We know that trans kids are already at high risk of poor treatment and exclusion from all sides. We also know that excluding transgender students from teams that align with their gender identity really means excluding them from sports altogether. I want our state to do better than this kind of discrimination. We can continue to leave policies up to our state high school activities association (which currently allows transgender students to play on the team that aligns with their gender identity) and prevent government overreach. Transgender students deserve our respect and protection. Every single day, these students are choosing to live their lives with integrity, despite the risks. We should be celebrating them and giving them opportunities to thrive, not excluding them. Please vote against this bill. Thank you very much for your time today.

What has happened to the legislators in MO? These bills are contrary to national and state values and plain common sense. The GOP claims to be Christian! Why are MO legislators so threatened by people unlike themselves? LGBTQ are not a threat to anyone, any more than heterosexuals are. Why not deal with ACTUAL issues - high maternal fetal morbidity and mortality rates? Poverty? Hunger? Homelessness? Mental health crises? ACT and think like the Christians you claim to be. Sponsoring bills such as these is shameful and wasteful spending of our tax dollars. Do good things instead of forcing your personal or political beliefs on others. THESE are not political issues. These are not problems that require a political intervention. DO work on REAL problems affecting MO residents, especially our vulnerable ones. Leave student athletes alone.

As a parent and a citizen of the state of Missouri, I oppose HB 183, which is a misguided attempt to scapegoat transgender students. The issue of transgender students having an unfair advantage in youth sports is a non-issue. Proposing legislation such as this is a waste of time and resources and only serves to increase discrimination against transgender youth. Transgender students are already at increased risk of bullying, violence, and suicide. Denying them to participate in sports teams that align with their gender contributes to the isolation and discrimination these students already face on a daily basis. I urge our legislators to act to protect these vulnerable students, or at the very least to avoid causing them additional harm, by opposing HB 183.

This bills is a solution to a problem that doesn't exist. MSHAA already has guidelines in place for the 0.00174% of high school athletes in the last 10 years to whom this might apply. Those guidelines are working. In my 12 years as a school board member, there has never been a citizen concern raised over this subject. There is no reason to spend legislative time and money on this non-issue.

I am writing in opposition to the anti-LGBTQ and blatantly anti-transgender bills that are being discussed. Specifically, HB170, HB183, and HB337 which discriminate against transgender children and adults participating in school sports, HB 419, HB 463, HB540 which deny gender affirming care for those under age 18 as well as HB 494 and HB 498 which attack and criminalize drag performances. All of these bills are unnecessary and are a blatant attack on the rights of LGBTQIA Missourians! They horribly discriminatory and harmful and violate the human rights of Missourians. These bills are (horrible) solutions looking for a problem. They are a waste of time and they are extremely harmful. They will negatively impact the physical and mental health of LGBTQ+ Missourians, who already lead the nation in reports of self-harm. You will kill people if you pass these bills. Again, I strongly oppose all of these bills and they should be rejected.

Trans children deserve to live happy and healthy lives in Missouri and the United States - we cannot pick and chose which children to support and which to abandon. Bills like these have devastating effects on the LGBTQ+ community, and can lead young LGBTQ+ folks to depression, self-harm, increased suicidality, etc. Parents and families deserve the right to make decisions for themselves in regards to bodily autonomy, school activities, gender, and sexuality. If we pass draconian laws targeting trans children, we create a state that is dangerous for not only LGBTQ+ families, but for all Missourians. Why would anyone want to diminish what could be a happy and healthy childhood? We cannot be truly free until we all are free.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I am a concerned citizen speaking out in **VEHEMENT OPPOSITION** to HBs 419, 540 and 463! While each of these bills talks about, in overly inflated ways, the health risks to children who seek gender-affirming care from hormones to gender transitioning procedures. They do not in any way discuss the mental health of a single child, in ANY of these bills. These legislators exhibit feigned outrage over the need to, "protect" and "provide care," for MO children yet they do not care one iota about their mental wellbeing. Transgender children have exponentially higher rates of mental health crises, addiction and substance abuse rates and alarming levels of self-harm and suicide instances. Pretending to care about children, while only being concerned for their chromosomal gender-conforming normalities is both antiquated, short-sided and nothing but using false pretenses to force a set of suffering individuals to conform with this legislator's regressive and puritan beliefs. These are the same legislators who cry about vaccinations being mandated, which actually hold demonstrable public utility. Gender-affirming care impacts **NO ONE** but the patient in need of such care. **NOT ONE** person will be impacted, other than the patient. These instances of gender-affirming care are **NOT** under the jurisdiction of the MOLeg any more than are my choice of meds for my sinus infection. This decision should be left to **NO ONE** but a parent, the child in question/in need of care and the medical professional that has been chosen to oversee the medication or procedure. These procedures are safe, regulated and overseen by licensed medical professionals with experience in this type of care. Ignoring the mental health of these children goes against the hypocritical oath of a medical professional and thus should be weighted as equally as physical health, in deciding care for these minors. It is **NOT** up to MOLeg to make these decisions. They will have blood on their hands as more MO children suffer from depression, anxiety and suicide. This type of care is **ESSENTIAL** to the physical health, wellbeing and general safety of all children for whom gender is a source of mental and physical anguish. I have no right to tell you what to do with your child but conversely, you have zero right to tell me what I cannot do for mine. I **STRONGLY** encourage you to vote in opposition of this bill or MO will be known for child suicide rather than protecting children. These bills seek to **HARM** kids, not help them. Don't let the titles fool you, that is all they will cause; **HARM** to children.

My name is Lisa Spahr. I live in Manchester, MO and parent a transgender youth. Please do not support this bill as it harms children like my own. MSHSAA already has rules in place that our community respects and complies with, for inclusion and fairness. This bill fabricates a need that does not exist. Trans youth are not out competing cis-gender peers from scholarships and game wins. Due to bills like this, Missouri is gaining the dubious honor of having the most anti-trans bills in the nation. To families like mine, that is embarrassing at best, terrifying at worst.

This is hateful, unnecessary, legislation. I would prefer that my elected officials work on items that could truly (and in a far more positive and proactive manner) help our state. Rather than policing people's preferences, performances, and genitals, get to work better funding our schools, tackling our out of control crime rates, and work toward drawing businesses to our state.

The number of trans women who want to participate in sports is relatively small, but the number of students whose mental health is impacted by this proposed legislation is quite large. Our government should not be targeting and excluding members of our community based on the personal and religious beliefs of individuals.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Dear Chairman Riley and Members of the Committee on General Laws, As a former Division 1 athlete, I respect the intent of legislation to support women's athletics and women athletes. I started playing sports at the age of 8 and spent 14 years competing on women's soccer teams. With this experience, I am certain HBs 170, 183, and 337 would do nothing to promote or support women in sports. I ask that you oppose these bills because - It is unnecessary government overreach. Sport governing bodies have successfully negotiated trans inclusion at all levels of athletics. Transgender athletes have been competing openly for decades, with multiple state high school athletic associations and several professional and amateur sports leagues allowing transgender athletes to participate in accordance with their gender identity as early as 2004. Guidelines already exist to ensure a level playing field. In Missouri, MSHSAA provides such guidelines in their handbook here - <https://www.mshsaa.org/resources/pdf/Official%20Handbook.pdf> Targeting trans women in athletics negatively impacts women, cisgender and transgender alike. In 2021, evidence showed that the inclusion of transgender athletics at the high school level had no impact on sports participation or athletic achievements for cisgender women and girls. Though you may hear about very few, cherry-picked examples of competitions where a transgender athlete outperformed a cisgender athlete, those cisgender athletes did not need protection from the government in their moment of loss. The playing field has always been a sanctuary of fairness and the legislature need not rob athletes of valuable lessons that accompany winning and losing. This is the nature of competition. Bills targeting trans women in sports is both a misguided disservice that distracts from the real issues impacting all women athletes, like lack of funding, and a potentially fatal injustice that harms the lives of trans youth. A state government that bans trans youth from playing sports with their peers is a legislature that is okay with denying Missouri kids (some of whom you'll hear from today) the benefits of sports participation. Chairman Riley - I have faith that you will keep the committee focused on legislation that will truly make a positive difference in the lives of Missourians, and ask that you not bring these bills to a vote. For the honorable members on the committee invested in a future where all kids can compete in a safe environment, I urge you to speak out against HBs 170, 183, and 337 and vote no if given the opportunity. Thank you for taking the time to read my letter. Sincerely, Madeline Friedmannmadelinefriedmann@gmail.com314-703-2267

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Chairman Riley, Vice-Chairman Hicks, members of the committee I am submitting remarks on behalf of Pro Choice Missouri in opposition to SB 42 that seek to mandate exclusionary political interference in Missouri classrooms. Chairwoman O’Laughlin, Vice-Chairman Brattin, members of the committee; thank you for the opportunity to submit testimony today in opposition to SB 781, a dangerous ban that threatens the health and safety of all Missouri women & girls in sports. Pro-Choice Missouri works to protect and expand every Missourian’s right to bodily autonomy, to access essential reproductive healthcare, to access accurate information in order to make the best decisions for ourselves and our families, and to parent our children in safety and dignity. Moreover, we work to ensure reproductive justice for all Missourians, which involves advocating to reduce disparities based on race, income level, insurance coverage status, and other factors. When compared to their cisgender counterparts, transgender students are more susceptible to bullying, sexual assault, and drug use, causing transgender youth to be more than three times more likely to attempt suicide. This is a direct product of the isolation, demonization, and invalidation resulting from policies, like this proposed bill, that deny their gender identity. SB 781 will perpetuate this harm against young people by attempting to codify discrimination against transgender student athletes in state law. This proposed requirement is inconsistent with medical research. A meta-analysis of transgender athletes published in the Sports Medicine journal concluded that there “is no direct or consistent research suggesting transgender female individuals (or male individuals) have an athletic advantage at any stage of their transition (e.g. cross-sex hormones, gender-confirming surgery).” Instead, policies which discriminate against transgender people serve as a substantial barrier for transgender students to participate in interscholastic sports. SB 781 does nothing to “protect women in sports,” as the bill sponsor claims, instead this bill empowers adult extremists to target, bully and harass individual students– children. Implementation of this discriminatory bill would subject all young Missouri women and girls in sports to potential humiliating, traumatizing, and inappropriate examinations. Ensuring young people’s understanding of bodily autonomy and agency is a critical component of combating sexual harassment and violence. SB 781 would teach young children that their bodies are not their own and are subject to non-consensual inspection. This dangerous sentiment empowers abusers and puts all young Missourians in sports at further risk of exploitation. As was globally exposed in the case of Larry Nassar’s rampant abuse of young gymnasts, the dominant culture, policies, and practices of competitive sport especially already silence whistleblowers and enable abusers. According to Gatorade’s Girls in Sports study, more than half of young women and girls quit sports altogether by age 17; due to stigma, lack of encouragement/ support, and lack of protection from abuse. If this body is really concerned with protecting and empowering young women and girls in sports they should focus on increased funding for women’s and girls sports teams and programs, and strengthening

policies that protect young women and girls from exploitation and violation at the hands of powerful adults in sports. On the national level, the Supreme Court has already ruled in *Bostock v. Clayton County* (2020) that discrimination on the basis of sexual orientation or gender identity qualifies as sex discrimination. This discrimination has been at the root of violence and exclusion of transgender individuals for decades, and must be ended to create a society where every student has the opportunity to participate in interscholastic sports. As Missourians, we value personal freedom, and the right to live life free of political interference, yet the Missouri legislature is once again eager to undermine our abilities as individuals to make decisions about health and wellbeing. Missouri students deserve to be treated with dignity and respect, including transgender students who want to participate in sports in a way that corresponds with their gender identity. This bill will create lasting damage to the mental health and development of transgender young people, whose gender identity will be explicitly invalidated by this legislation. Missouri children deserve MORE than politicians interfering with their understanding of themselves, their bodies, and their history. Pro-Choice Missouri, representing more than 60,000 members across the state, opposes the advancement of these resolutions, and urges you to vote NO on HBs 170, 183, 337 today. Thank you.

As a therapist working for the Department of Mental Health, I strongly oppose this proposed act. Current best evidence-based practice acknowledges the need to protect transgender youth, a group of individuals whom already have the highest rate of youth suicide. Current peer-reviewed research tells us that the best way to protect these individuals is not by continuing to exclude them from their community and peers, but by allowing them to embrace their identified gender. The note that exceptions can be made if there is not a suitable team already existing for the individual's gender clearly accepts that there is little to no risk for individuals who choose to practice and engage in athletics with their chosen gender. The proposed act appears to be stemmed from outdated science, faith-based ideas, and transphobia. Additionally, the proposition to remove funding from schools who do not adhere to this appears to be a blatant misuse of government funds. These choices should be left to the schools, and individuals who know their children best, not a room of lawmakers. Note: I am a Callaway County resident, and would have attended in person to oppose these harmful bills. However, the choice to release them with only 24 hour notice was clearly deliberate to keep these bills quiet, and keep those who have full time jobs from being able to request time off in order to more vocally oppose.

I am in opposition to this bill. I believe we should be focusing on paying our teachers more, fixing our crippling infrastructure, and expanding medical access to rural and urban Missourians. Salus Populi Suprema Lex Esto. This bill attacks the welfare of minors and distracts from truly improving the welfare of the people.

This bill goes directly against science. Science has shown that most - if not all - trans youth know that they are transgender before the age of 6 or 7. This does not occur by brainwashing or being read to by a drag queen - it is simply the way these children are made. Further, the notion that there are only two sexes (male and female) is simply incorrect. Science has shown throughout decades that intersex people exist - thus meaning that there are more than two biological sexes that can be determined at birth. It is important to note that about 2% of the world's population is intersex, which is a similar number of people in the world with naturally red hair. These statistics cannot and should not be ignored in determining rules based on sex and gender. Additionally, there is no reliable research supporting the notion that trans girls have an advantage over cisgender girls in sports. Further, this legislation will negatively impact transgender students, regardless of whether they are taking any medications for transitioning. Transgender youth have a statistically significantly higher rate of suicide than their cisgender peers - with some studies stating that transgender teenagers are 7.6 times more likely to attempt suicide than cisgender peers. Further forced isolation will only further worsen these statistics.

It is my understanding that this bill applies currently to 5 students among the 6 million Mo residents. This is a waste of precious lawmaking time. It is also my understanding that school sports leagues already have policies in place to deal with this. Government intervention here is over reach. Allow the schools and sports teams the autonomy to do what they are professionally prepared to do. Stay out of it.

My name is Melissa Cameron, and I am writing to express my opposition to HB 170. I strongly believe that all individuals, regardless of their sexual orientation or gender identity, should be treated with dignity and respect. This bill would discriminate against members of the LGBTQ community. It would have a detrimental impact on their mental and physical well-being and would send a message that they are not valued members of our society. It would create a hostile environment for LGBTQ individuals and would likely cause many talented and qualified individuals to leave the state. This would be a loss for all of us, as diversity and inclusion are essential to a strong and prosperous economy. I urge you to reject this discriminatory bill and work towards creating a more inclusive and equitable society. Thank you for your time and consideration. Sincerely, Melissa Cameron

I am writing in opposition to the anti-LGBTQ and blatantly anti-transgender bills that are being discussed. Specifically, HB170, HB183, and HB337 which discriminate against transgender children and adults participating in school sports, HB 419, HB 463, HB540 which deny gender affirming care for those under age 18 as well as HB 494 and HB 498 which attack and criminalize drag performances. All of these bills are unnecessary and are a blatant attack on the rights of LGBTQIA Missourians! They horribly discriminatory and harmful and violate the human rights of Missourians. These bills are (horrible) solutions looking for a problem. They are a waste of time and they are extremely harmful. They will negatively impact the physical and mental health of LGBTQ+ Missourians, who already lead the nation in reports of self-harm. You will kill people if you pass these bills. Again, I strongly oppose all of these bills and they should be rejected.

This is an issue that wastes precious time in the state legislature. There are already sufficient rules in place from the appropriate sports bodies to address this issue. There is no reason to spend time on legislation that punishes kids just trying to play a sport with their friends. Just let kids be kids, regardless if you agree with their, and their parents', medical choices. Evidence shows that the current rules in place around hormone levels level the playing field with students of different sex and genders.

I am a woman who has lived her whole life in Missouri and I am ashamed that my state legislators are using their time to make rules about who can participate in what sport based on an uneducated view of gender. We rank 49th in education nationwide, but who can play what sports is a pressing issue? Women and girls face many levels of discrimination that could be fixed instead. Why don't schools provide period products? Why do rape kits sit un-processed? Putting forward bills like this shows me as a voter that you care more about headlines and made-up "scandals" that are not real issues. Do better.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

I am a primary care physician in the heart of Kansas City. I have over 14 years of experience serving this community. I provide high quality, top notch primary care to underserved and marginalized communities. I am the Health Commissioner for the Kansas City LGBT+ Commission and serve on this advisory board to the Mayor, City Council, and City Manager. I am the Medical Director for the LGBT+ Specialty Clinic at University Health. I hold several academic roles at the University of Missouri Kansas City School of Medicine including Docent, Clerkship Director, and Assistant Professor of Internal Medicine and Pediatrics. I am board certified in Internal Medicine and Pediatrics and see patients of all ages. This work is my specialty. I have worked with the LGBT+ community for many years and have experience with gender diverse kids, teenagers, and adults. All 9 of these bills should be strongly opposed. All of our national professional medication organizations including the American Academy of Pediatrics, American College of Physicians, and ACOG as well as five others, support and affirm the LGBT+ community and would vote against these bans. There is evidenced based medicine and science to support gender diversity. We have strict guidelines that we follow (See WPATH SOC 8 and UCSF). These bans are all hateful, discriminatory, and attention seeking for a political agenda. They ignore basic human decency. It is vital that the house votes against all 9 of these dangerous bills. WE know that the number of anti LGBT bills proposed in the past 5 years has skyrocketed. Ironically, this aligns closely to this country's culture wars. I am in the exam rooms today with LGBT+ patients. The work I do with these patients is the most fulfilling, important, and vital work I do as a physician but it is hard work. I will leave here today emotionally and physically exhausted because I spend time with these patients and I learn and listen to their stories. Ultimately, their voices should be heard/centered but in this day in age, it is dangerous to be out. These bills are dangerous and threaten their existence. I urge you to contact me for medical questions or a professional medical discussion on the science and evidence behind gender diversity. I strongly encourage you to vote against these bills. I would be there today with you if I was not with patients. I appreciate your time.

I urge your opposition to bills that ban trans athletes from competing in school sports. Federal courts have ruled that it is illegal to discriminate against transgender people, which this bill clearly does. Transgender athletes participate in sports to learn fair play, be healthy, and be on a team, building a sense of belonging among their peers. These are the reasons any student participates in sports. Trans students have testified, saying this kind of measure would be harmful to them. I urge you NOT to do anything to intentionally make trans students feel less a part of the community than they already do.

Representative Berger, I write in opposition to SB 183. Given that the over riding theme of school districts is to help build contributing future citizens, your bill is the antithesis of this. Team sports build character, promote discipline, commitment, cooperation. Denying trans kids the opportunity to participate in school sanctioned sports does far more harm than good.

Again, tries to ignore science and define sex as only male or female based on genitalia. Not only is this invasive to the students, it is downright discriminatory. What about students who are born intersex and have both genitalia at birth? No sports for them? Outrageous to not allow schools to intervene in any way and to have schools potentially lose funding for supporting their students.

This bill represents a violation of human rights and an improper interference of church doctrine in public education, resulting in a violation of separation of church and state. It is harmful to the mental, emotional and social health of children and community members, and is completely hypocritical, given that the broad excuse for this bill and others like it is "parental rights". This bill and its bigoted companion bills completely disregards the parental rights of parents of LGBTQ+ youth to make medically-supported healthcare, social, educational and recreational decisions for their children, while imposing the will of a subset of unrelated parents onto children who are not their own.

The Association appreciates the opportunity to offer comments on HB 183. The bill would override MSHSAA policies on transgender participation that generally align with NCAA and IOC policy and seek to balance fairness and inclusion for athletes. The Association believes that educators should continue to establish the policies and procedures that govern the activities of Missouri students who participate in school activities and opposes the bill.

I oppose legislation in this state to restrict the rights of LGBTQ+ individuals under the guise of protecting children. I know that most citizens of this state care deeply about the welfare of our children. But instead of providing funding for child hunger, child health care, child protection services, education, the arts or acts to protect children from gun violence - this house is responding to right wing fear mongering about LGBTQ+ individuals. Please reject these transparent and ineffective bills that will not protect our children or improve their quality of life - and instead focus on how we can provide more safety from gun violence in our communities, and a better quality of life for all Missouri youth.

Bill does not create equal protection under the law as it only forbids "biological males" from participating in sports teams designated for females, but does not provide protection against "biological females" participating in boys sports teams. This is duplicate legislation. Cook, Seitz and Hudson should get together and cosponsor a bill instead of wasting my time trying to get credit for passing a bigoted law from their bigoted voters.

I stand in opposition to the organization of youth sports around the sex assigned at birth, rather than the one that the child identifies with and lives as. Not only is this practice discriminatory and harmful to transgender and non-binary youth, but it also distracts from more pressing issues that state legislatures should be focused on addressing. All children should have the opportunity to participate in sports in a safe and inclusive environment, regardless of their gender identity.

This law is set to harm children. Transgender children in particular. You know that it's untrue, you know that there is no harm in allowing a trans girl to play on girls teams, or a trans boy to be on boys teams. If they are getting treatment and on hormones the trans child will develop the exact same as a cis child of that gender aside from genitals. And no child or young teen is seeing another's genitals, unless you and I went to vastly different schools. The proposed classification of sex is unscientific and invalid as well, and the ban on changing a birth certificate is very much against the spirit of the American people and freedom.

For this second anti-trans sports bill, I'd like to highlight the medical inconsistencies mentioned therein. The bill fails to recognize or account for intersex conditions, which include, but are not limited to, chromosomal intersex disorders, developmental disorders, and pubertal and hormonal disorders. This bill would have you believe there are only two natural sex conditions, XX and XY, a patently untrue statement. Intersex conditions are present in an estimated 1.7% of the population. They are intersex Missourians, there are intersex youth. Why does this bill erase them and limit their and their colleagues ability to be themselves and play sports?

Please do not support this bill. It is not helpful for children. There are about 5-10 kids in high school that this bill would impact. Transgender athletes participate in sports for the same reasons as everyone else — to learn good sportsmanship, get and stay healthy, be part of a team, and build a sense of belonging with their peers. Our laws should protect transgender youth, not encourage discrimination against them.

Another bill targeting trans students. The sex assigned to them at birth isn't always a reflection of who they really are, and all this effort to ostracize a very small amount of students is harmful. Students aren't going out of their way to join sports just to cause a ruckus, it's who they are, and punishing students for something that was listed on their birth cert, is dangerous and puts trans youth lives at risk.

I am the parent of two Missouri public school students. I have no issue with the guidelines already set by the Missouri State High School Athletics Association, the body that oversees competitive sport in our state for athletes. Playing sports competitively taught me invaluable lessons in working as a team, learning how to lose graciously and how important it is to have others depend on you. I am certain that our coaches and schools can figure out ways to make changing rooms safe for everyone and I don't fear that a trans-athlete would have a competitive advantage. Losing is part of the process of learning as much as is winning.

To the Legislatures currently hearing the anti-trans bills on the floor: Instead of focusing on real issues that affect Missourians, such as obeying the voice of the People and expanding Medicaid as approved in August of 2020, you GOP Legislatures are now trying to distract Missourians by targeting literal children. We see right past your tactics. Your entire illegitimate clown show has been a self-repeating cycle of creating issues that don't exist in the first place, then providing fluff solutions that look like you've solved something big. However, your political games will put children in harm's way. Denying kids to healthcare will do more damage to them in the long run and place more costs on the state. Additionally, criminalizing the existence of drag queens, trans people, and other adults with free will is a violation of our inalienable rights. You have no right to threaten us and children with structural oppression when your entire party has made a mockery of a governance.

Youth athletics are a valuable experience for children and youth. They learn lifeskill such as teamwork, goal setting, perseverance and how to manage disappointment and loss. Sports help our children and youth stay active and healthy. Establishing rules about participation that are based in only one measure of gender/sex excludes entire populations of students. There is no scientific evidence that transgender students radically outperform their cisgender peers, thus this legislation is based in discrimination and must be dismissed.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Good afternoon. My name is the Rev Mike Angell. I am a pastor at the Episcopal Church of the Holy Communion in University City Missouri and I am here to voice my opposition to eight bills attacking the LGBTQ+ community. Eight bills, announced late yesterday, which seek to criminalize parents, punish doctors, and defund schools for allowing kids to play. You now have proposed more bills against trans kids than there are known trans athletes in our state. Doubtless today we will hear about the book of Genesis. We will likely hear that God created humanity male and female, from chapter 1, verse 27. That reading makes it sound like the gender binary is the point of the teaching. It isn't. There's a repetition in the verse: God created humanity in God's own image. Human beings have the capacity to do such good. Last night, my husband and I were explaining to my four year old why I needed to get up before five in the morning to be in Jefferson City, why I wouldn't be back in time to put him to bed. Some lawmakers want to make a law to keep your friends from playing sports, was the best I could explain. Now, our son is about the most gender normative kid you could imagine. He loves trucks, and dinosaurs, and he loves sports. He said, "that's mean! Dada, tell them not to be mean." Please stop this cruelty. Stop trying to win elections by unleashing ugly bullying. Let the doctors and parents and educators and coaches work together to decide what is best for our kids. Don't put big government in the way. The last thing I want to say is this, to every trans leader who is here, especially the kids who are out of school to fight back. You are made in the image of God, just as you are. Your courage inspires me. Whatever awful questions you face today. However scared you are, know, know that these proposed laws will not have the last word. Cruelty will not have the last word. You are loved, valued, seen, and infinitely worthy. And we will show up again and again to tell these legislators not to be mean.

As a member of the clergy I am appalled that such bills are being introduced. Officials in Missouri are cowards to bring this up 1 day before. This severely limits the amount of public input. With the record Missouri officials have shown this is another lame, disgraceful, conniving, & cowardly act. Every single one of you should be ashamed of yourself.

**These bills are harmful, absolutely harmful, to transgender children, who experience suicidality at a 1:2 ratio. These bills are cruel and unnecessary. There are more bills against transgender children this session than there are transgender kids wanting to play sports in this whole state. Leave transgender kids and their families alone, treat them in a way that honors their full humanity. I strongly oppose these bills!**

You're spending public time and money on divisive issues that stem from your religious beliefs rather than anything to actually improve the quality of life for Missourians. Our state has a median income of LESS THAN \$31,000; we are ranked around 30th for education; 42nd in healthcare; and some of you are too focused on what people have between their legs and if house members have a jacket with long sleeves? You people make a mockery of public office and I will be happy to stand alongside younger generations who will be the end to the out of touch bigoted boomer era.

MSHSAA already has rules in place to regulate trans athletes. There is no need to add more legislation. Please get back to work on actual problems like access to healthcare, rural internet access, our embarrassingly low pay scale that is causing us to lose good teachers and state employees, maternal mortality, homelessness, the affordable housing shortage, and so many other issues that are more urgent than your current sick obsession with children's genitals.

I am testifying in opposition to bills HB170, HB183, and HB337. As was established when similar bills were heard before the legislature last session, these bills banning kids from participating on the sports team of their gender are a solution in search of a problem. The number of transgender kids participating on sports teams in Missouri is very small, and there have not been issues - these are just kids wanting to be on a sports team and have the same school experiences as their peers. Besides, MSHSAA already has a thorough policy governing transgender athlete participation to ensure fairness. If that policy is insufficient, then MSHSAA should change their policy, rather than the legislature getting involved in high school sports. Additionally, ostracizing a small group of kids through targeted legislation is unacceptable. I cannot imagine the legislature would find it appropriate to consider legislation which only applies to black kids, poor kids, or Jewish kids, and singling out transgender kids is equally offensive and inappropriate. Please oppose these three bills.

There's no just reason why any kids should be arbitrarily denied the benefits of competitive sports -- or even just the fun. If trans girls receive puberty blockers, they won't even have any significant advantage over cis girls. Why is it so terrible for a cis girl not to get an athletic scholarship, but it's perfectly okay not to let a trans girl even have a shot at one? There is no point to this bill beyond demonizing a small minority of already marginalized children, teaching other children to view them with fear and loathing.

Leaving aside its violation of the principle of the provision of equal opportunities to all, neither scientific evidence nor basic moral decency supports a discriminatory bill of this kind, which is destructive to the physical and mental well-being of young Missourians, their families, and their friends. The bill should be withdrawn.

<b>THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.</b>			

Transgender youth grow up knowing deep down that their sex at birth doesn't match who they know they are inside. With the love and support of their family, they can thrive and transition to living as the gender they know themselves to be. Participating in sports and having a sense of belonging will provide that support. Applying regulations meant for elite athletics to all students is unnecessary. Local schools across the nation have already created policies that both protect transgender youth and ensure a level playing field for all students—and they're working. And they've done it without blanket policies that would require schools to test or provide an affidavit, for example, for a 13-year-old transgender girl who simply wants to be part of the school volleyball team. We all want to ensure a level playing field when it comes to youth sports. The truth is, every child is different in different ways—which is why some girls excel at gymnastics, others at volleyball, some at basketball, and others at soccer. Success in school sports is really about practice, self-discipline, access to good coaches and facilities, and even money to pay for outside training. The overwhelming majority of transgender youth, like most kids, don't even play at elite levels. They just want to play everyday school sports and participate with their peers. As a matter of fact, Title IX is vitally important when it comes to girls' sports. If we want to support girls' sports, we should be providing more funding and more opportunities to play, and also creating stronger laws to protect female athletes from harassment and abuse—not banning transgender youth from participating in school sports with their peers.

I am a concerned Missourian who opposes HB183 for several reasons:1) Transgender youth are already disproportionately at risk of having mental health issues. Targeting youth with this bill might make these problems worse.2) The physical activity and mental health benefits of sports cannot be understated. Banning transgender youth from sports would remove a valuable resource from them.3) The state has no business regulating this. The individual school district should be allowed to craft policies that work best for them and this big-government bill would stop that.4) Missouri has bigger problems than transgender people in sports, we should not be wasting taxpayer money debating this.

The bill defines sex incorrectly. For years, experts in the field of transgender health care have testified as to the harm of this kind of legislation which assaults the dignity and humanity of trans girls. Trans girls are worthy of inclusion and opportunity. Year after year, I have witnessed bill sponsors refuse to listen to — and really hear — the testimony, and refuse to respect the medical professionals and those with lived experience who deliver it. There is certainly no need to continue to torment children in this manner year after year. This bill also sends the unmistakable message that girls are inferior athletes, and that message is damaging.

Our students deserve to participate and belong. Trans kids exist and should be able to play on a team. I understand that elite female athletes do not want a trans female to possibly take their spot. The number of trans athletes are small. Their wanting to transition to take a spot from someone else is even rarer. This is a way to hurt ALL Trans students telling them that they don't belong over the risk that 1 or 2 athletes might get an elite spot or scholarship. Are you going to pull the lever on the trolley or not?

These bills do nothing but further divide people between political extremes. They are garbage aimed squarely at taking transgender folks out of public spaces and indeed actually making our existence illegal. You hold in your hands to power to actively harm thousands of Missourians and you have chosen violence over kindness, hate over love. There is nothing that your chosen targets, the transgender community, can do to convince you that we are your neighbors, caretakers, friends, family, children, teachers, partners, and above all, that we are human too. May your choice to destroy us haunt you forever.

This is a media stunt, a distraction, from the real work the MOLeg was elected to do. Missourians face the loss of local affordable healthcare, low wages, unattainable housing, and the defunding of public education. As a rural leader representing residents of Southcentral Missouri, it is my duty to once again ask that our quality of life no longer be ignored. Stop advancing a culture war that is wasting residents' tax dollars while members of this House and their buddies gain fame and wealth with tax-cut legislation.

My Representatives, I am writing a testimony in opposition of the uneducated and biased bills you waste our taxpayer dollars on. I grew up from a conservative family but we never discussed the rights of trans kids as something to be destroyed. What you and the Senate are doing I fully believe is unconstitutional and unpatriotic. It is against the 1st and 14th amendment to bar LGBTQ children and students from learning and speaking about their experience. Preventing them from competing with their peers is a direct attack on their rights that they all are entitled to. Your "excuses" on why all these bills are just and to help these children is a blatant lie. You waste your time creating discourse on human rights. I don't believe any of you are true Americans because this country was supposed to be the shining light of all people's coming together. What you are doing is sexualizing children before they can even find their sexual orientation and forcing them into a box that will never fit them. Do you truly never put yourselves in those children's shoes because your point of view is so stuck up your own behinds to imagine anything else but your hate? Transgender people are people and transgender children are just like other children and deserve every right to how they would prefer to present. You are saying right now to all Missourians that you want to discriminate against these people because you can't sexualize them the way you want to. Why can't we have bills geared toward the true safety of children such as putting more pedophiles in prison? There is an epidemic of child sexual abuse and you want it to be worse for those children to punish them and put them into more danger than they already face daily. Don't even go there with the misinformation about children being abused by the LGBTQ community because statistically it is mostly conservative white men who sexually abuse children. What would your mother's think I wonder about this blatant disregard for human life? What would your God think or Jesus if he saw the atrocities you write into law? God made transgender kids the way they are and you are saying he's wrong by barring said children from medical procedures that would enrich their lives. Jesus said to love thy neighbor and thy enemy and let me tell you I see no ounce of love for these poor children just trying to be themselves. You should be ashamed of yourselves for the misuse of your positions. You have a plethora of opportunities to learn from LGBTQ people if you don't understand something. What I see you doing though is not asking the LGBTQ community what would be best for these children even though you know nothing about what it means to be transgender or queer. So if your goal is not to help the children, not to learn of their struggles and help them then it is obvious your only goal is to strip the rights of people which is corrupt and unjust. It's frankly no one's business if a child wants to transition or experience something they feel would be a better fit. The fact I have to write any of this at all shows how bigoted and uneducated you all are on these issues. This is not the America I envisioned when I was young; this isn't the Missouri I know. True Missourians are kind and help one another in need. How much of your own humanity are you going to continue to sacrifice for your fantasies? For your hatred? Is this really what you want to burn in Hell for? You are weak. I challenge you to turn all these bills around and start from scratch the

right way. With actual education and engage with the LGBTQ community directly instead of pulling things from thin air like you have been doing. I am regretfully ashamed to be a Missourian because of you and the Senates transgressions the past three years. I would like to be proud and I am telling you now how we could become a state that is respected and called home by not just people like you but also the LGBTQ community and transgender kids. Make it make sense and do the right thing.

I am a citizen of Missouri living in the Kansas City area and I wholly oppose this and other legislation targeting young people who are intersex or transgender. No one, especially those who are still young and vulnerable to all the hatred directed at people who are different or don't fit in with the majority, should have to be the target of government actions to further marginalize and "other-ise" them. Transgender and intersex kids deserve our love, support, and aid to help them navigate the insanely difficult school years. Not the blind bigotry and uneducated conclusions drawn by so many that say they must conform to a (false) sex or gender binary. The challenges and medical decisions faced by transgender and intersex kids should be the business not of the legislature to limit, but only that of the kids, parents, and their doctors. It's nobody else's business.

I am trying to understand why there is such an effort being made to exclude 4-5 Missouri student athletes who identify as transgender, want to play sports and have reached out to MHSA. Titling bills Save Women's Sports, Missouri Children Deserve Help Not Harm and Missouri Save Adolescents from Experimentation demonstrates the lack of sensitivity and understanding around this topic. Medical professionals advocate for inclusion noting that children who identify as transgender and aren't treated as such have a higher incidence of self harm and suicide. The focus should be on inclusion, not exclusion, and having fun with their peers. Everyone isn't going to be an Olympian -- let MHSA, the NCAA and the Olympic Committee deal with these issues outside the purview of the Missouri legislature.

Advocates of Planned Parenthood of the St. Louis Region and Southwest Missouri (PPSLRSWMO) opposes House Bills 170, 183, and 347 as dangerous, discriminatory, and unconscionable. Let us be clear: PPSLRSWMO affirms that trans rights are human rights, and proudly provides essential, lifesaving care to transgender, gender-nonconforming, and gender diverse individuals. By even introducing this legislation, its sponsors have already done unconscionable harm, adding fuel to discrimination against transgender and gender-nonconforming young people, further contributing to radical attempts to erase them, and signaling that a government ostensibly in place to protect them is hostile to their very identities. Transgender adolescents experience disproportionate psychological distress, including reporting staggering rates of suicide attempts. What we know to be true, what the data confirms, is that we can optimize the health of young people — including transgender and gender-nonconforming young people — by affirming their identities, supporting them, and securing their safety and ability to participate in their communities according to their true identities. As adults, and certainly as policymakers, that is our ethical obligation. This legislation is reckless. Please oppose House Bills 170, 183, and 337.

The number of transgender athletes is incredibly low and preventing trans athletes from participating with further alienate them and could cause significant mental health issues. Trans people are at significant risk for suicide. I will use my platform to support trans rights, encourage my colleagues and followers to directly oppose any politicians that are in opposition of trans rights, as well as fund community action against any politician that votes in opposition.

Transgender children in sports requires a far more nuanced hand than this; it all comes down to when transition started, how long it has been going, and what the particulars of the sport are. But I know Missouri is trying to sidestep this issue by making transgender people - both minor and adult - illegal in the state, an injustice far greater than having the one in every ten-thousand students participate in grade-school sports as transgender. This bill benefits effectively nobody.

Sports are about working as a team and supporting one another. Sports are about challenging yourself to do better and developing fitness habits that improve one's life. One can say sports are about competition, but a very high majority of student athletes are not going to win an Olympic medal or be awarded a sports scholarship. My enjoyment of softball and track and field as a student was because I enjoyed the sports. I still play co-ed softball for fun 30 years later. Your hateful attacks on transgender athletes impact their choices to enjoy and develop love of healthy fitness activities. Your hateful attacks on transgender athletes impact everyone from having positive team and friendship building activities. Your desperate need to "save women's sports" is an insult to female athletes who possess a great deal of talent. They don't need you to save them.

I am a 3rd year medical student in Missouri, and I oppose the Save Women's Sports Act. There is no real threat to women's sports, and sports organizations have their own guidelines on requirements for fair play. Legally banning trans people from sports is discriminatory and will negatively impact many children who want the same opportunity to play as their peers.

The House Bills 170, 183, 337 rely on restrictive and simplified understanding that is not informed by current and ongoing academic or scientific research on the nature of human sexuality. The bills also unduly require individuals to release private medical information about themselves, which goes against the logic of having a non-invasive government, here intervening where it was not asked to intervene, and discriminating against a minority for what can only be described as personal moral stances, something that governments cannot and should not adjudicate.

A person's sex assigned at birth does not inherently advantage or disadvantage them in competition, it is simply one of many elements that make up who they are. There are a lot of factors that contribute to an athlete's ability to succeed in competition: biology, time, resources, training, and money, to name a few. Trans girls are not always stronger or bigger than cisgender girls. Trans girls aren't shattering records and taking over like the media claims. Let trans kids play! They deserve the same access to sports as their cisgender peers.

What is wrong with you? STOP VOTING TO GOVERN PEOPLE'S BODIES. Let kids (and adults) be who they are, love who they love, participate based upon their chosen gender. Stop meddling in things that you have NO BUSINESS governing....i.e. people's bodies and what we choose to do. This is the MOST BACKWARDS, HILLBILLY stuff I've heard of. Why make MO look even worse in the eyes of the educated and open-minded. What are you afraid of?
