I am opposed to any proposed legislation that sets out in premeditated fashion to disarm the Citizens of the United States. We in Missouri have a duty to uphold and defend the US Constitution in it's entirety. It would do the MO Legislature to become very familiar with this ruling document. It seems incentives, bribes, black mail and all sorts of compensations have been ruling and doled out all over our United States by enemies foreign and domestic. There is a word for that in The US Constitution and it is Treason. The U.S. Constitution is the supreme law of the land, and any statute, to be valid, must be in agreement. It is impossible for a law which violates the Constitution to be valid. "All laws which are repugnant to the Constitution are null and void." Marbury vs. Madison, 5 US (2 Cranch) 137, 174, 176, (1803) "Where rights secured by the Constitution are involved, there can be no rule making or legislation which would abrogate them." Miranda vs. Arizona, 384 US 436 p. 491. US Citizens are waking up by the millions to the fact that America I has been under attack with increasing measure for the past 100+years. It's time for those to get on the right side of history before the exposure spotlight is on you. Angela Ong St Francois County

As a student of history, I realize the importance of the individuals right to protect himself and his family. I support this bill. Any effort by the federal government, or any government to control the right to bear arms is a direct conflict with the concept of freedom, as well as the practicality of enforcing freedom. Ask any Native American what happens when you cannot defend yourself and are not allowed to have weapons. Ask any defeated, or enslaved people about the necessity of being able to bear arms, and you see a history of human nature. We must be able to protect ourselves. The only reason to have a government is for the protection of the individual. The state must Protect its citizens from overreach by the federal government, particularly it's such an important issue as the right to bear arms.

On behalf of our members and supporters, the Freedom Principle MO offers its support for HB 712 and HB 701. We know Progressives and even some Establishment Republicans want to do everything they can to try and take away our Second Amendment rights. Across our country and in Missouri, Progressives are politicizing mass shootings to push unconstitutional red-flag laws to try and seize guns from law-abiding citizens. The passage of the Anti-Red Flag Seizure Act is our best opportunity to put an end to the Progressive gun-grab madness. We don't need more anti-Second Amendment gun laws, what we need are prosecutors willing to lock up and prosecute criminals.

Why are we trying to through our laws out the window. No trial, no chance to defend your self in court. Why would we just allow people to come into our homes and take what they want, be it guns knives TV's food. For what reason? Because someone said something about us. Because an accusation has been made without factual evidence against a citizen? Without having a day in court for the state to prove their guilt? Have we not learned anything from history. Did all those that died in wars to prevent these activities, do so for nothing? How did we become so blind, to even consider such an attack on our God given rights.

Red flag laws allow a fundamental constitutional right to be abused, without evidence, by government, or by anyone with a grudge or vendetta against a law abiding gun owner, much like orders of protection are frequently abused by ex spouses or ex girl friends. With the current abuses by the federal government, we the people must depend on our states to exercise their rightful powers to defend against federal tyranny. Law enforcement, at every level, should be prohibited from enforcing or assisting with enforcement of any unconstitutional gun control laws. including accepting money from the federal government for that purpose. Thank you.

I believe that the second amendment protects the rights of ALL Americans. Red flag laws are designed to strip citizens of those rights merely on hearsay. They would be a laws that contradict due process and would be implemented without proof of guilt. If one could merely accuse someone of a crime under ANY law, this would lead to a single judge ruling that the person accused should be denied any of his/her rights based on that accusation. Once this happens, our judicial system would be used for political purposes and justice would no longer be blind.

Representative Boyd is to be congratulated for her leadership in protecting the Second Amendment rights of all Missourians. Encroachments on inalienable rights are being advanced from numerous quarters under the mistaken theory that they are unnecessary or somehow irrelevant in the 21st century. Nothing could be further from the truth. Socialist and Communist countries around the world have restricted gun ownership in order to control their citizens. If we truly believe that our form of government is based on the consent of the governed then there should be no fear when citizens exercise these rights. In fact, it is a national comfort that at all times we the people are able to defend ourselves, our state and our nation. This is a universal principle throughout nature - that of self-defense and it must never be limited except in the case of truly felonious acts established in a court of law by jury trial. I urge each member of this Committee to consider the importance of protecting themselves, their families, their loved ones and their property as a duty, an obligation, not to be spuriously altered.

In general, "Red Flag" laws are easy to abuse; they deny due process. It is a shame we need to pass laws to force our state government to abide by the United States Constitution when the United States chooses to ignore it, but that seems necessary now.

As a Missouri citizen, I do not feel that federal gun regulations, particularly red flag laws, should be upheld within Missouri. I believe that many of them are a violation of the 2nd amendment of the Constitution, but also that requiring Missouri to abide by these federal mandates and federal gun seizure orders is an overreach of federal power that interferes with the rights held by the state of Missouri.

Eliminate gun free zones.A very long time ago it was recognized that we were endowed by our creator with unalienable rights, among them is the right to defend ourselves and those things important to us. Another important issue is the entire concept of innocent until proven guilty, along with the right to a speedy trial by a jury of our peers. These long standing basic principles must stand and be considered together especially when contemplating rules and laws. We must be sure that we do not violate any of these important concepts while attempting to draft new rules or laws.PLEASE REMEMBER THAT ALL LAWS STEAL LIBERTY FROM SOMEONE AND WE AS A PEOPLE MUST MAKE EVERY EFFORT TO PRESERVE THE LIBERTY AND RIGHTS OF EVERY INDIVIDUAL. I SEE IT AS YOUR DEVINE APPOINTMENT.There should be no, "gun free zones", places where a persons are denied the right to protect themselves, places where a law abiding citizens are required to be defenseless vulnerable victims!Eliminate Red Flag laws and efforts for them.Red flag laws provide too much opportunity for abuse by too many who just want to deny a citizen of his unalienable rights, before an individual has been convicted in a court of law of any crime. These types of proposals are ripe with opportunity for anyone to harass innocent persons with the burden of defending themselves and their unalienable rights when they have done absolutely nothing wrong.John Webb

I fully support these bills. The over reach of local, state and national government has reached an all time high in the last 10-15 years. We are more in bondage to governments than we were in 1776 and that's a sad testimony of how we, as Americans, have stewarded the governments that God has given us. As a 10th generation Daughter of the American Revolution, ANY infringement on ANY of the rights obtained from my ancestors in 1776 is a disgrace to them, my heritage and my rights as an American. I ask that the committee support HB712 and HB701.

Freedom-loving Missourians want you to craft legislation to forbid Missouri agencies from participating in federal Red Flag gun seizure programs, **INCLUDING** forbidding Missouri agencies from taking federal money (bribes!) to set up a state level Red Flag law. I stand in support of this type of legislation.

I fully support this bill as-is. The passage of this bill in it's original form is crucial to the protection of the 2nd Amendment rights of Missouri citizens. Without the protection this bill will offer, it will be too easy for our 2nd Amendment rights to be trampled on and denied by a corrupt political judicial system. We need to return to "innocent until proven guilty".

I am against the federal government forcing or coercing state governments to comply with Red Flag Gun Seizure. The federal Red Flag Gun Seizure bill steps on and over states rights. The federal government has no constitutional grounds to force a state to adhere to such Red Flag Gun Seizure and definitely does not allow for proper due process for the individual gun owner whom police or the government deem should have their guns taken from them. Nor should the federal government be allowed to assist a state in such Red Flag gun Seizure policies whether financially or by advice. Thank you, Norma Davis Franklin County Missouri

I support HB 712 because one's firearms should not be seized apart from our Constitutional protections of due process, verifiable probable cause and the ability to face one's accusers in a court of law. The right of law-abiding citizens to keep and bear arms is a sacred principle enshrined in our Constitution, along with the principle of due process. An anonymous person should not be able to prompt the seizure of a another person's property on a mere unfounded allegation. Red flag laws that allow such takings are unconstitutional.

This bill is consistent with the principles of federalism. Police powers such those used to enforce red flag laws are powers reserved to the states and this bill helps to enforce those reservations. This bill's ban on enforcing federal red flag laws is, in fact, a legislator's way to put to action his or her's oath to support the Constitution.-----This bill is also consistent with the due process requirements of both the state and federal constitutions and codifies in statute those principles.----- The portion of this bill that prohibits local governmental entities from accepting federal funds for the purpose of enacting red flag laws supports the existing statute in which the state preempts all laws relating to firearms (with a couple of exceptions).

Any law that does not provide DUE PROCESS is unconstitutional, thus Null and VoidThe accused Must have the Right to Face their accuser, before legal Remedy should be administered.So-called Red Flag laws are aptly and simply "Thought Crimes"The Second Amendment lists no such Restraints on Arms Possessors and is therefore an Infringement.

HB 712, sponsored by Rep. Mazzie Boyd, and HB 701, sponsored by Rep. Bill Hardwick, both use the same anti-commandeering concept used in the Missouri Second Amendment Preservation Act (SAPA) to forbid Missouri agencies from participating in federal red flag gun seizure programs, INCLUDING forbidding Missouri agencies from taking federal money to set up a state level red flag law. Even after 8 months, the federal judge who ruled against SAPA couldn't conjure up an argument against the anti-commandeering approach.

I want to express my support of HB 712 sponsored by Representative Boyd. Amendment #2 of the US Constitution states "A well-regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed". Any attempt that seeks to infringe on the 2nd Amendment is a violation of this Amendment. Furthermore, any red flag law that directs the confiscation of any firearm from any law-abiding citizen within Missouri shall be deemed an infringement on their Second Amendment rights. It is for this reason that I want to express my absolute support for HB 712. Thank you for your time. Tom Whitehill

Since the Federal government is actively engaged in communism and tyranny, it is up to the States to stop the tyranny as best they can. I am definitely in favor of HB 712. The penalty/punishment clause in this bill is good, but should include heavier penalties than already described in this bill. We must stop the communistic takeover of the USA and unite against the tyranny that is already underway by the Fed.

My name is William Bland and I live in Liberty, Missouri. I am on the Board of the Western Missouri Shooters Alliance. No one is paying me to be here today. I am here on behalf of myself and the Alliance. Red Flag Laws make no sense. If a person is believed to be a danger to him or herself, taking away their firearms does not remove that danger. To truly remove the danger, the subject would have to be incarcerated or confined to a mental health facility. Without due process, this makes as much sense as a Red Flag Law. Every Red Flag Law I have seen or heard about does three things: 1) They deprive the subject of their Second, Fourth, Fifth, and Fourteenth Amendment rights under the U.S. Constitution. 2) They do not contain punitive provisions for frivolous claims. Someone could initiate such action to satisfy a grudge or get revenge on the subject. 3) It also is problematic when the subject is living with a spouse or other family member that also owns firearms. All of the firearms are taken, depriving admittedly innocent people of their constitutional rights.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

HB 712 and HB 701 are blatant attempts to expand SAPA, which has already been ruled unconstitutional. Legislating from a place of unfounded fear is absurd. Red Flag laws are ALREADY Supreme Court approved (from a Due Process point of view) fully functional laws in 19 states and DC. The VAST number of Missourians want Red Flag laws, Missouri police want Red Flag Laws. Trying to tie the hands of police officers when they are asking for legislative help to temporarily remove guns from people who are LEGALLY a clear & proven risk to themselves or is wildly inappropriate especially considering how many gun violence deaths we have in Missouri. REMINDER: 54% of Missouri's gun deaths are firearm suicides. VOTE NO!

I am in opposition to both HB 712 and HB 701 because they create a more dangerous state for all of us. While we are in the list of states topping the nation in gun violence, it seems foolish to further restrict the options available to local law enforcement to protect the citizens. The 2nd amendment guarantees a well regulated militia. In reality Missouri lacks critical regulations such as red flag laws. Please do not continue to cut away the few safety nets we have.

I personally have lost 4 friends to suicide by gun - all from "good" upper middle class families - all due to depression. One friend was only in 4th grade, and the others were in their 20's. All of these guns were legally purchased in the name of personal protection. At least three of these deaths may have been prevented by better Red-Flag protections....the right secured by the Second Amendment is not unlimited... (there are) long standing prohibitions on the possession of firearms by felons, and the mentally ill..." Former Supreme Court Justice Scalia (Grandparents for Gun Safety)Federal Red Flag Laws trump state laws: this law is probably unconstitutional 2021 MO law blocking execution of Federal gun laws in MO deemed unconstitutional (PBS.org)Gun access in the home increases risk of death by suicide by 300% (Brady Campaign to Prevent Gun Violence)64% of respondents said gun laws in the U.S. should be strong (Suffolk University)Gun violence costs the U.S. economy at \$280 billion every year (Everytown for Gun Safety)

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

The Jewish Community Relations Council (JCRC), guided by Jewish values, advocates, educates, collaborates, and mobilizes action on issues important to the Jewish community, 60,000 strong in St. Louis. We are committed to pursuing religious tolerance, civic discourse and social justice in St. Louis and beyond. Jewish tradition emphasizes the sanctity and eternal value of human life. The Talmud teaches that: "One who takes a life, it is though they have destroyed the universe. And one who saves a life, it is as though they have saved the universe" (Mishnah Sanhedrin 4:5). The dehumanization of individuals and the carelessness with which human life is taken during incidents of gun violence stand in direct violation of these affirmations of our tradition. We are called upon to take action to prevent the loss of lives and end gun violence. One relatively easy way to prevent some incidents of gun violence is to enact Red Flag laws. These laws, considered a tool for law enforcements, permits a state court to order the temporary removal of firearms from a person who they believe may present a danger to others or themselves. A judge makes the determination to issue the order based on statements and actions made by the gun owner in question. After a set time, the guns are returned to the person from whom they were seized unless another court hearing extends the period of confiscation. A recent law passed by the U.S. Congress provides funds to states who implement Red Flag laws. So far, 19 states and the District of Columbia have them in place. Had Missouri passed a Red Flag law, it is highly likely that the shooter who killed two people at Central Visual ad Performing Arts High School, which is 3 miles from my home and where I know the guidance counselor, would not have had a gun. His parents told law enforcement he was troubled, but they had no tool to act. In Missouri, we cannot be content with the absence of a Red Flag Law, we have to go to the extreme, and attempt to pass an anti-Red Flag law. This piece of legislation is unnecessary, first because we don't have a Red Flag law in our State. Second, because it is directed at orders issued by federal courts and it exempts federal law enforcement from the provisions of the bill. Rather than waste taxpayer time and dollars on a non-issue, instead please direct attention to items that will help fight the epidemic of gun violence. Pass actually Red Flag Laws, increase the age for gun ownership and tighten background check requirements. Do as we are commanded by Jewish Law, help us save a life. Please oppose HB 701 and HB 712.

Red Flag laws save lives. Having one would have saved at least 3 in October at CVPA. Statistics are clear re: domestic violence and weapons. I know three women for whom red flag laws would have made a difference. One was murdered by her mentally unstable boyfriend. Another was shot by an ex who had been watched by the law enforcement agency he worked for because he had "psych issues" but they didn't take his gun. She spent a month in the hospital. I am fortunate because I was able to remove weapons from my home myself after my ex had a mental episode and tried to assault me. As I sat locked in my garage waiting for help, I saw the weapon, secured it in my trunk and took it elsewhere while he was hospitalized. I knew I had to because the law would not. He kept accusing me of stealing his shotgun. I just kept making him look for it. He never did find it, so me, my then unborn child, remained safe.

Red Flag Laws are just common sense- if a person has demonstrated that they shouldn't have a deadly weapon, then they shouldn't be allowed to have that weapon. The words "well-regulated" mean just what they say. The horrific shooting at Central Visual and Performing Arts High School was a tragic reminder of the state's decades of policy failures. It was a wholly preventable tragedy that was enabled by Missouri's weak gun laws.

My dear friend received the text from her kids while she was teaching French in first period down the hall from my classroom. Each of her teens sent the same message: "I love you." A shooter was in their school several miles away. This was just last fall, here in St. Louis. Her children survived, traumatized. A teacher and student died, as did the shooter. The shooter, who was over 18, and whose firearm his parents had tried to have seized. There are occasions when firearm seizures can save innocent lives. Red-flag laws are about protecting innocent people. Please leave the protection of red-flag laws in place; I urge you to oppose HB 701 in the name of protecting kids and other innocent citizens.

Why would we have no protection from those that should not carry guns? **GUNS ARE THE LEADING CAUSE OF CHILDREN'S DEATHS!!!** You care more about guns lobbyists then the safety of our children our a human life! Missouri is not a safe State and you are trying to make it even scarier and no place anyone will want to raise a family. They will leave Missouri or definitely not move here. Our kids are not dying from drag shows, but are dying from guns!! Red flag laws could have saved students in St. Louis and many other school shootings.

Gun violence is the leading cause of pediatric deaths in the United States. This is shameful and these acts to further remove protections against gun violence are an insult to every parent and child in this country. As a pediatric nurse I have watched too many children die from diseases we could not treat. To allow them to repeatedly die from something WE CAN PREVENT causes a pain that is too immeasurable to describe. We are failing our children. We don't have to live like this. I very strongly oppose these bills as they threaten my own safety and that of my family. I wish, as my representatives, that you cared about the well being and lives of your constituents. I urge you to please start looking into reasonable, centric, gun safety laws rather than continue down this illogical path in the setting of record mass shootings. I will base all of my voting power on gun safety.

I am opposed to any legislation that makes it more difficult to keep dangerous weapons out of the hands of someone identified as at risk of committing an act of violence. We saw what happened at Central Visual & Performing Arts High School where the shooter was identified as a risk and still managed to purchase and carry a dangerous firearm.

Red flag laws save lives. The victims of the mass shooting at CVPA school in St Louis may have lived if we had red flag laws. I would think a party that claims to care about 'life' would try to do something to actually protect it.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

I'm writing to urge members of this committee to oppose proposals before the Missouri legislature that will further weaken our state's gun laws, including Missouri HB 712. The same testimony applies in HB 701. I also submitted testimony on the Senate version, SB10. This bill expands nullification in Missouri by declaring federal and state judicial orders requiring relinquishment of firearms from "law-abiding citizens" as a Second Amendment infringement. The bill also will bar Missouri from receiving federal funding for enforcing laws requiring relinquishment of firearms, ammunition, or accessories. Missouri has some of the weakest gun laws in the country and our legislature has spent the past decade gutting our common sense public safety laws, while simultaneously resisting attempts to make our communities safer. And Missourians have been paying the price for these actions with their lives. Missouri's rate of gun deaths has increased 70% from 2011 to 2020, compared to a 33% increase nationwide. This past October, the horrific shooting at Central Visual and Performing Arts High School in St. Louis was a tragic reminder of our state's decades of policy failures on gun safety. This tragedy was preventable. Instead, this tragic school shooting was enabled by Missouri's weak gun laws. We saw the deadly ramifications of SAPA--the reckless bill to nullify federal gun laws--when police said they felt powerless to remove the shooters' gun because under Missouri's new law, they would be penalized for enforcing a federal gun law. And now a student and a teacher are dead--and seven others were wounded and school communities around the state felt the impacts of these traumas too. Unfortunately, a clear line can be drawn between the St. Louis high school tragedy and our state's lack of gun safety laws, including the enactment of the state's nullification law, repealing background checks, and the legislature's refusal to enact an extreme risk law. Constant heartbreak cannot and should not be our reality. Instead of taking steps backward, our state needs to be taking steps forward, by passing laws that would keep guns out of the hands of dangerous individuals, and providing communities with the support they need to adopt local solutions to gun violence. While Missouri is facing one of the worst gun violence epidemics in the country, we should not be advancing bills that tie the hands of our police and sheriffs. Our lawmakers should commit themselves to advocating for policies that will truly address the gun violence crisis in our state. I urge the committee to vote no on this dangerous bill.

Extreme risk protection orders (red flag laws) temporarily keep firearms out of the hands of people who a judge has ruled are a danger to themselves or others. As a mother, if my child expresses that they are having thoughts of suicide and they own a gun (which is legal for a minor in Missouri), a red flag law would allow me to petition a judge to temporarily remove their guns. This would buy just a little bit of time, allowing us to get that child the help that they desperately need. If a student expresses thoughts of shooting up their school, red flag laws would allow loved ones to petition a judge to temporarily remove firearms from this student's possession. If a woman is in an abusive relationship and her partner has threatened to shoot her, a red flag law would allow her to petition a judge to temporarily remove firearms from the abusive partner's possession, making a deadly situation less dangerous. Banning extreme risk protection orders (red flag laws) protects domestic abusers, school shooters, domestic abusers, mass shooters, and gives anyone suffering from suicide ideation the means to take their own life. Again, I strongly urge you to vote against this bill.

You want to give known threats the freedom to kill? THEN stop them from having guns? Very backward thinking! Anyone with a restraining order against them or who are so unstable that family members and friends are scared should not have guns! I'm tired of hearing about known dangerous people being allowed to have guns to kill others. Your thoughts and prayers are NOT good enough for survivors and especially not for the dead. I am a lifelong Republican voter but it's been so difficult these days to find any to vote for thanks to blind extremism. I am disgusted with my party.

Extreme Risk Protection Orders, which are more commonly referred to as "Red Flag Laws" save lives. They allow family members or law enforcement to petition the courts to temporarily remove guns from those who are a danger to themselves or others. States that have ERPO laws have seen a reduction in firearm suicides. The Missouri Department of Mental Health's website (<https://dmh.mo.gov/media/pdf/missouri-suicide-prevention-facts-resources>) states that suicide rates in Missouri have risen 29% since 2010 and suicide is now the 3rd leading cause of death for children aged 10-17. The website also states that firearms were used in 63% of Missouri suicides. It seems to me that the legislature should be enacting an ERPO law to address the rising number of suicides in our state not outlawing their use.

Chair, Vice-Chair, members of the committee; thank you for the opportunity to submit testimony today in opposition to HB 712 & 701 – bills that would leave firearms in the possession of domestic abusers in Missouri and make us all less safe. Pro-Choice Missouri works to protect and expand every Missourians’ right to bodily autonomy, to access essential reproductive healthcare, to access accurate information to make the best decisions for ourselves and our families, and to parent our children in safety and dignity. Moreover, we work to ensure reproductive justice for all Missourians, which involves advocating to reduce disparities based on race, income level, insurance coverage status, and other factors. Members of this body frequently and deceitfully evoke the “protection of women and children” in this state while enacting policies that actively harm their health and safety. Banning abortion, gutting school funding, attacking our social safety net programs, and proliferating firearms are all proven to devastate the health and safety of women, children, and entire families. Missouri scored a zero percent safety rating for women on the recently published The Best and Worst States to Be a Woman: Introducing the U.S. Women, Peace, and Security Index 2020 out of the Georgetown Institute for Women, Peace, and Security. Explicitly named as a core reasoning for this low security score is the lack of firearm relinquishment for abusers under protective orders for acts of domestic violence. In an abusive relationship, a positive pregnancy test can be fatal. We know that the two most dangerous times for a person in an abusive relationship are 1) when they are escaping and, 2) when they are pregnant. 41.8% of Missouri women experience intimate partner physical violence, intimate partner sexual violence and/or intimate partner stalking in their lifetimes. Our own state’s Pregnancy Associated Mortality Review Board (PAMR) found that in Missouri, “the most common means of fatal injury in [pregnancy associated] homicide cases was the use of a firearm (62.5%). In half of these cases, the records provided to the PAMR program indicated a history of DV. In each of these homicides, the perpetrator was a current or former partner.... Firearms were the means of fatal injury for 12.7% of all pregnancy-related deaths.” Additionally, there is countless documentation of the link between perpetrators of mass acts of violence and violence against women. Banning red flag gun seizures not only jeopardizes the safety of Missourians already experiencing violence but also entire communities. Between 2014 and 2019, in 68.2% of mass shootings, the perpetrator either shot or killed at least one partner or family member or had a history of DV. In Pro Choice Missouri’s own home office community, law enforcement’s inability to act on red flag warnings and seize firearms due to THIS BODY’S INTERFERENCE enabled the murder of a beloved local teacher and community member/student. Honor the lives of Alexandria Bell and Jean Kirk Kuczka and reject these measures. Missourians deserve MORE. These measures will continue to enable the murders of Missourians and Missouri kids, Pro-Choice Missouri, representing more than 60,000 members across the state, opposes the advancement of this bill and urges you to vote NO. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Red Flag Laws Red Flag Laws save lives. In Missouri, since the demise of 3 day waiting periods, background checks and mandatory safety training we have seen an increase in death by gun violence, especially for women or partners in abusive relationships, suicide (especially teens and in the rural areas), and accidental deaths in children because of lack of safety measures. Those of us who have worked with teens know that buying time saves lives. Same with domestic violence, a cooling off period is often successful in deterring gun violence. It is heartbreaking to me, that ideological adherence to the sacredness of gun ownership, without any qualification of responsible ownership is more important than saving lives. Those who drink and drive, drive recklessly, get their licenses taken away at the scene, THEN they go to court where they may plead innocent or guilty or take a deal. Those who were reckless must prove they are responsible before they get their license back, usually attending traffic school to learn proper safety, or at worst, in the case of injury, endangerment, or death, prison time. Red laws allow temporary measures when there is someone threatening self-harm, threatening to harm others, or who obviously is not practicing proper safety measures, like using gun locks. These compassionless laws, wrought from ideological rigidity, sentence parents, children, even whole communities to a lifetime of suffering and loss—many losses that could have been prevented, if only our lawmakers cared enough about the people they represent. Americans and people from Missouri, over 70%, want more gun safety measures in place. They believe Red Flag laws are worth the minor inconvenience they may cause to some gun owners. Common sense gun reform is a demonstration of how much Missourians value genuine safety for their families, their neighbors, and their communities. Missourians, including gun owners, support responsible gun ownership and common sense safety measures that are proven to save lives.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

The summary description assumes there is no court order to store the distressed gun owner's guns temporarily away from him or her. This is not true. Red Flag laws vary a bit among states but all of them require due process protections. These laws help keep us safe and have especially been safeguarding for the suicidal. Living in St. Louis County, it is especially prescient to me, that we have red flag laws. The CVPA shooter's parents knew their son was distressed. They asked law enforcement to remove and store his guns. The police were helpless to do this since there is no red flag law enabling this protective police action. Had there been one, it is possible that a student and a teacher would be alive. It is possible hundreds of school kids would not be suffering depression, PTSD, or the like. Missouri's gun laws are graded "F" from Gifford's Law and the Brady Campaign, and a "national failure" by Everytown for Gun Safety. Further loosening our already lax gun laws is folly. Death by gun is the #1 cause of death for children. Missouri has the 8th highest rate of gun deaths in the US. It is the duty of the state to protect, not to make our spaces more dangerous. Vote no on HB712.

Dear Committee Members, I am writing to oppose HB701 because it strips the ability of federal or state judicial entities to issue actionable orders of protection requiring confiscation of a firearm. I say actionable because HB701 will also prevent law enforcement professionals at every level from carrying out such a judicial order and confiscating a firearm. This law, and others like it, are meant to protect the second amendment, but what it does is turn the state of Missouri into a place where violence is the only means of solving problems when other methods become illegal. Judicial entities in this state and in this country are grievously overworked and understaffed. They will not take the time to issue an order to take away a citizen's firearms without very good reason. These orders should be upheld and carried out according to professional best practice and procedure to allow our police and federal agents to truly protect and serve. Supporting HB701 makes our judges ineffective and our police helpless. Please trust them to do their jobs, and vote no on HB701. Thank you.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

As a clergy person, these bills horrify me. Both practically and morally, these bills do a disservice to both worshipers and to the spirit of community in which they come to worship. Practically speaking, we have seen a wave of violence stem through this country as houses of worship have been attacked by people seeking to do evil by bringing weapons to bear on people at prayer. My community, in particular, still bears scars of synagogue attacks at the Tree of Life Synagogue in Pittsburg, PA (2018), the Chabad of Poway, CA (2019), and Congregation Beth Israel in Colleyville, TX (2022). Our community leaders get almost weekly security briefings from our community partners and partners in law enforcement about credible threats to houses of worship. We already need to hire extra security to keep our gatherings safe out of a fear of people doing exactly what these bills would allow them to do: bring weapons into our houses of worship. More than this, however, my community comes to pray together through the tradition we have inherited over the past four thousand years. It is a tradition that holds up as sacred the words of the Prophet Isaiah, who bade all people to "beat their swords into plowshares, and their spears into pruning hooks. Nation shall not take up sword against nation; they shall never again know war" (Isaiah 2:4). Our tradition goes further in Jewish law to forbid the carrying of a weapon while gathering in prayer or on the Sabbath, even for ornamentation, as was common for swords in the ancient world (Mishna Shabbat 6:4). For us to allow weapons into our house of worship would prevent us from living up to this creed, would sanction the tools of violence and war in our houses of peace, which cannot be considered anything but an infringement on our Constitutional rights to freely practice our religion. In addition, red flag laws have been shown to be a public good, stopping people who have proven through their words and actions that they pose a real threat to others. Just as someone can be detained for making threats of public harm, so to should someone who is a proven threat to themselves or others be prohibited from accessing the means to carry out that harm. Individual liberties are not limitless, and these proposed bills put the rights of individuals to own guns against the rights of all of their fellow citizens to pray and exercise religion freely, to live in safe communities, and to safeguard their life, liberty, and pursuit of happiness. I believe that these rights, too, must not be infringed upon. It is this first and most critical task of this government, any government, to protect its people. These bills would do real harm to the people in my community. They would be psychologically damaging, morally repugnant, and open the door to the ongoing attempts to harm our people that we have worked so hard to close day after day. PLEASE TAKE MY RIGHTS AND THE RIGHTS OF MY CONGREGANTS AND COMMUNITY MEMBERS JUST AS SERIOUSLY AS THE RIGHTS OF GUN OWNERS. Thank you for your consideration. Sincerely, Rabbi Scott Shafrin Associate Rabbi, Kol Rinah Clayton, MO

If trained police officers think someone should briefly have their guns removed because they may be a danger to themselves or others, then let them do it. I trust police to make those decisions. It seems ridiculous to create a law that prevents police from removing guns from dangerous people. The existence of this legislation implies that some legislators want dangerous people to be armed. I don't.

Statistics show red flag laws can save lives. It's time to start using some common sense when it comes to gun laws. I'm a gun owner who believes that individuals who are a known threat to themselves or others should be subject to removal of weapons in their possession by due process. Domestic violence is a huge problem in this state. Missouri has one of the highest rates of gun violence. It's time to start addressing the gun violence rather than trying to make guns more accessible.

After last week's verdict of a bill from 2021 regarding Mo gun laws vs Federal gun laws, it is clear that these 2 bills will most likely be deemed unconstitutional. As a taxpayer I am very unhappy to have my tax money paid out to lawyers to argue these bills in court. Having guns in a home increases the change of suicide by a family member by 300%. Over 60% of Americans feel we should have stronger gun bills. I would prefer the General Assembly spend time on making homes with guns (especially those with children) and our public spaces safer, granting non-gun owners equal rights to safety from those unfit to carry guns.

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

Royce Barondes, Testimony on HB 712 March 22, 2023 My name is Royce Barondes. By profession, I teach law. I am not engaged in the private practice of law, in Missouri or elsewhere. In testifying, I am speaking only for myself, and I do not purport to be speaking on behalf of my employer. I cannot support this bill. The basic objective of this style of bill—an objective that I would support—is to prevent the Federal government’s enlistment of State or local personnel in enforcing Federal firearms bans where not otherwise authorized by State law for State or local personnel. This bill has a carve-out, which allows precisely this type of activity. In particular, in lines 13 and 16, the bill allows State and local actors to assist in firearms confiscation implementing Federal law if a person is “otherwise disqualified under section 455.050.” That section of Missouri law allows for issuance of certain orders. Notably, nothing in that section appears to reference either “firearms” or “weapons”. So, it appears that the bill would result in the following: State orders where a person has not been ordered to be disarmed may be the basis for a Federal order of disarmament, and this bill would allow State and local actors to assist in the seizure of arms under Federal law. In sum, this bill appears to allow for the type of local enforcement of Federal law that the bill appears designed to prevent. For that reason, I testify against this bill. Lastly, please allow me to note that this bill appears to contemplate an amendment to a Missouri statute called SAPA. It adds a new section to Missouri statutes immediately following the end of SAPA. A Federal court recently held that SAPA was wholly invalid. Although SAPA has a severability clause, the court held that provisions it found to be unconstitutional were not severable. This body spends great effort in adopting legislation securing the civil right to bear arms that that a court may not construe in a fulsome fashion. I urge the legislature to adopt statutory principles of construction that reject the court’s interpretation of legislative intent for SAPA’s severability clause, and require courts provide a fulsome construction of statutes that preserve the civil right to bear arms. In my written submission, I will provide an illustration of the former. I would be pleased to speak with any member of this committee as to the latter. *** In interpreting severability provisions and separating an invalid portion, a court shall conclude any remaining portion that protects the civil right to keep and bear arms as being one the legislature would have enacted if had known that the rescinded portion was invalid, unless a contrary legislative intent is clearly expressed. The approach to severability expressed in United States v. Missouri, No. 22-CV-04022-BCW, 2023 WL 2390677 (W.D. Mo. Mar. 7, 2023), is rejected as not expressing the legislature’s intent concerning severability of provisions protecting the civil right to keep and bear arms.

Please oppose HB 712 because the victims of abuse and family members of people experiencing a mental health crisis need a way to protect themselves and others from an abuser or person in crisis who threatens violence with guns. People who threaten and intimidate others with a gun are NOT law abiding citizens nor are they responsible gun owners! Family members begging law enforcement officers to remove firearms from a troubled family member is a reality in Missouri, with the shooting at the CVPA High School in St. Louis. Must we wait until a suicide or homicide occurs to help these people in crisis? HB 712 will just protect domestic abusers and take away the opportunity for law enforcement to act to protect our kids, families, and neighbors. Missouri has some of the laxest gun laws in the U.S. Many Missourians WANT improved gun laws that contribute to the safety of their families and communities and that support our law enforcement officers to succeed in this endeavor. Obstructing the passage of a red flag law is to go backward in gun safety in Missouri, rather than forward. Please listen to, believe, and support domestic abuse victims and law enforcement agencies by voting to oppose HB 712.

Red flag gun laws violate way to many of my rights. There's been tons of changes to punish criminals and yet it dosen't happen. Let's face it red flag gun laws along with all the other anti gun laws that have been put on the floor has nothing to do with protecting anyone or punishing a criminal. It's about the government trying to do away with the second amendment. Stop passing anti gun bills!

Confiscation without probable cause. One could loose property because someone has a grudge against them. Not a good idea.
