THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.		

My niece and unborn nephew were hit and killed nov 19, 2021. I drive a semi and I see DOT workers hit all the time across the country. People do not take the current law seriously and they don't pay attention. Enties like MODOT do not do enough to protect their workers. The day on the news they know drivers are distracted and causing more accidents but are taking no additional steps to protect our loved ones working out there. Harsher fines and Loss of license on the first offense might catch public attention. And hold Modot accountable for their failures to properly protect our family members by providing safety equipment and training. Don't let more families lose their loved ones.

I dont understand how MoDot has Noone too answer to when they do not do the right things it is a state funded program that is literally above the law and then when one of there own is hurt or killed they shrug it off like nothing ever happened when you have families that are devastated from the lack of responsibility MoDot admits it is very dangerous when something or someone has the power of not having any consequences for their actions

THE INFORMATION ON THIS FORM IS PUBLIC RECORD UNDER CHAPTER 610, RSMo.

My pregnant cousin, Kaitlin Anderson, with her unborn baby Jaxx Jarvis, was hit and killed in November of 2021. All because of a negligent driver and the lack of protection from MODOT. The pain knowing this tragedy could have been prevented is unbearable. MODOT NEEDS TO BE HELD ACCOUNTABLE. Changes need to be made. DOT workers' lives matter. KAITLYN DENISE ANDERSON'S LIFE MATTERS. JAXX ALAN JARVIS' LIFE MATTERS. How many more workers need to be struck and killed by pure negligence for there to be a change!?

I am the survivor of the Modot incident on November 18, 2021. There is zero reason for the man who injured me for life and ended 3 other lives to have died a free man. As state employees we should be protected and if someone injures or kills us, they should and need to be held criminally liable. And if prosecutors need stiffer laws so they can pursue justice, lawmakers needs to give them those tools. That way prosecutors have zero excuse for being cowards. Nearly a year and a half after the accident, Stanley McFadden died a free man with nothing on his record for injuring myself or the other 3 lives he ended. If Missouri won't adopt a common sense hands free law, then there need to be stiffer penalties for endangering highway workers.

I support the bill HB-745 if proper training was completed for the supervisor and the equipment was there Kait James and baby Jaxx would still be here today. We have to protect our Highway workers and their families. With great power comes great responsibility. Don't allow this to happened again and protect our workers. Allow them to come home to their families.

Please pass HB 745. Our High Way workers are counting on you. They need your help in making drivers that hit and kill workers accountable. All High Way Workers deserve to go home after a dangerous day of working and making the high ways safe for Your family and Mine. My pregnant granddaughter and her unborn baby boy were hit and killed by a distracted driver while working for MoDot and NO one was held accountable. I pray no other family has a family member killed while working on our high ways. Help protect them Please. Yes for HB 745 High Way Workers are counting on you.

November 18, 2021 a man ran through a "barrier" of three cones and killed my pregnant neice and another gentleman. There was no TMA due to gross negligence on MoDots part. Kaitlyn was only 25 with all her life ahead of her. She had 3 miscarriages and was FINALLY pregnant with a healthy baby boy, Jaxx. It was her dream to be a mom and just as it was about to come true she was killed with that sweet baby boy in her stomach!! She was such hard worker and she deserved to come home and to have her rainbow baby finally. Can you imagine if Kaitlyn were your daughter, neice, grand daughter? Can you imagine the pain her parents go through not only losing their daughter but their first grand child? Please think of this when making your decision! We need stricter laws in Missouri for our highway workers!

As a highway worker I really think this needs to be a bill. The job is dangerous enough the most drivers and other people can do it make it safer and if not they need to be responsible. On November 18th 2021 because this is not a thing and DOT wasn't trained right I lost my best friend. My one and only true friend. Someone who took this job seriously and did it very good. I once stood beside her in this line of work. They made sure we were protected. As a state you need to protect the ones the risk their lives for the things you need done to the state, then you need to protect them. And make sure everyone has the resources and requirement training. Because you didn't before there been so many lost. So many families destroyed. Friendship destroyed. So much lost. Do something about it. As a highway worker you need to protect us just like everyone else. And if they can't make them responsible!!!

My cousin, my friend Kaitlyn Anderson was hit and killed in November of 2021. Her and her unborn son had their lives cut short by a negligent driver and a negligent MODOT. It's not fair that my family has to live every day for the rest of our lives without them. We will never again hear her voice, hear her laugh, see her smile, hug her, celebrate with her, make memories with her. Per the MODOT website: "In 2022, MoDOT protective vehicles with truck/trailer-mounted attenuators (TMA) were struck 36 times while protecting crews. There were 61 MoDOT TMAs struck in 2021 while protecting crews." I couldn't find 2023 data but I do know at least 4 crews have been hit in the last couple months. Its clear to me that the public hasn't gotten the message that Missouri will not tolerate unsafe driving in work zones. We must do more. No family should suffer a lifetime of heartache and longing. No family should be ripped apart and devastated. No family should have to buy a casket and a headstone for their lived one who was just doing their job due to careless, reckless, and negligent drivers not at the hands of a grossly negligent, malicious, and unaccountable state agency like MODOT who failed to provide training, protection, and oversight leading the deaths of 3 on Nov 19, 2021. It's your job to pass laws that protect people and make sense. If making sure those who are killing our loved ones, the people who are serving the State of Missouri through their work, isn't of top priority then I respectfully suggest you think about how you would feel if Kaitlyn Anderson were your daughter, if James Brooks your spouse, if Jaxx Jarvis were your grandson and get your priorities straight. No more MODOT deaths. If you choose not to pass laws that provide protection for our highway workers and institute punishment and penalties that are meaningful for drivers and MODOT alike you are failing not only the workers but all of Missourians.
