# FISCAL ANALYSIS

#### **ASSUMPTION**

### <u>§568.075 – Protection of children</u>

Officials from the **Department of Corrections (DOC)** state §568.075 is enacted, creating the offense of use of a minor to commit a crime. These actions are considered a class E felony if it is a first offense, a class D felony for a second offense, and a class C felony for any subsequent offenses; therefore, the intent of the bill is to create new class E, D, and C felony offenses.

For each new nonviolent class E felony, the department estimates one person could be sentenced to prison and two to probation. The average sentence for a nonviolent class E felony offense is 3.4 years, of which 2.1 years will be served in prison with 1.4 years to first release. The remaining 1.3 years will be on parole. Probation sentences will be 3 years.

For each new nonviolent class D felony, the department estimates three people will be sentenced to prison and five to probation. The average sentence for a nonviolent class D felony offense is 5 years, of which 2.8 years will be served in prison with 1.7 years to first release. The remaining 2.2 years will be on parole. Probation sentences will be 3 years.

If this impact statement has changed from statements submitted in previous years, it could be due to an increase/decrease in the number of offenders, a change in the cost per day for institutional offenders, and/or an increase in staff salaries.

If the projected impact of legislation is less than 1,500 offenders added to or subtracted from the department's institutional caseload, the marginal cost of incarceration will be utilized. This cost of incarceration is \$26.545 per day or an annual cost of \$9,689 per offender and includes such costs as medical, food, and operational E&E. However, if the projected impact of legislation is 1,500 or more offenders added or removed to the department's institutional caseload, the full cost of incarceration will be used, which includes fixed costs. This cost is \$99.90 per day or an

L.R. No. 2861H.011 Bill No. HB 1693 Page **6** of **8** December 27, 2023

annual cost of \$36,464 per offender and includes personal services, all institutional E&E, medical and mental health, fringe, and miscellaneous expenses. None of these costs include construction to increase institutional capacity.

DOC's cost of probation or parole is determined by the number of P&P Officer II positions that are needed to cover its caseload. The DOC average district caseload across the state is 51 offender cases per officer. An increase/decrease of 51 cases would result in a cost/cost avoidance equal to the salary, fringe, and equipment and expenses of one P&P Officer II. Increases/decreases smaller than 51 offender cases are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, the DOC will use the average caseload figure for that specific type of offender to calculate cost increases/decreases.

**Oversight** does not have any information contrary to that provided by DOC. Therefore, Oversight will reflect DOC's impact for fiscal note purposes.

Officials from the **Office of Attorney General (AGO)** assume any additional litigation costs arising from this proposal can be absorbed with existing personnel and resources. However, the AGO may seek additional appropriations if there is a significant increase in litigation.

**Oversight** does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **Office of the State Public Defender (SPD)** state per the recently released National Public Defense Workload Study, the new charge contemplated by this change to Section 568.075 would take approximately thirty-five hours of SPD work for reasonably effective representation. Representation in one hundred cases under this section would result in a need for an additional one to two attorneys. Because the number of cases that will be filed under this statute is unknown, the exact additional number of attorneys necessary is unknown.

**Oversight** assumes this proposal will not create the number of new cases required to request additional FTE for the SPD and that the SPD can absorb the additional caseload required by this proposal with current staff and resources. Therefore, Oversight will reflect no fiscal impact to the SPD for fiscal note purposes. However, if multiple bills pass which require additional staffing and duties, the SPD may request funding through the appropriation process.

Officials from the **Missouri Office of Prosecution Services (MOPS)** assume the proposal will have no measurable fiscal impact on MOPS. The enactment of a new crime creates additional responsibilities for county prosecutors and the circuit attorney which may, in turn, result in additional costs which are difficult to determine.

L.R. No. 2861H.01I Bill No. HB 1693 Page **7** of **8** December 27, 2023

Officials from the **Department of Public Safety - Missouri Highway Patrol**, the **Department of Social Services** and the **Office of the State Courts Administrator** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.
