FISCAL NOTE

L.R. No.: 3226H.011
Bill No.: HB 1758
Subject: State Treasurer; Education, Elementary and Secondary; Governor and Lt. Governor
Type: Original
Date: April 2, 2024

Bill Summary: This proposal establishes the Education Stabilization Fund.

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND						
FUND AFFECTED	ECTED FY 2025 FY 2026		FY 2027

***Oversight** is uncertain how much would be appropriated and transferred into the Education Stabilization Fund but notes the maximum allowed balance in the fund at the close of any fiscal year cannot exceed ten percent of the previous year's appropriation for the foundation formula (or approximately \$366 million based on the FY 2024 appropriation). Therefore, Oversight assumes the transfer from General Revenue could exceed the \$250,000 threshold.

FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration - Budget and Planning** state this proposal creates the Education Stabilization Fund. Subject to appropriation, monies may be transferred into this fund; in any fiscal year in which actual revenues are less than the revenue estimates upon which appropriations were based, monies may be transferred (subject to appropriation) from the fund to the foundation formula, to ensure the free public schools are funded as closely to the fully appropriated amount as possible.

This proposal would prohibit the closing balance of the Education Stabilization Fund from exceeding 10% of the previous fiscal year's appropriation to the foundation formula. Ten percent of the current FY 24 appropriation for the foundation formula is \$366,483,119. If the fund were to exceed the established limit, the excess balance would be transferred to the general revenue fund.

Oversight notes that the below table shows a brief overview of the different stages of the Consensus Revenue Estimate provided by Senate Appropriations for the past several years:

Consensus Revenue Estimate (CRE) Summary for General Revenue (GR) Amounts are

* FY 2020 - The COVID-19 pandemic hit the US in Spring of 2020, so the revised CRE for FY 2020 was revised with no agreement reached. The April 15th tax deadline was extended to July 15th thus pushing approximately \$722.9 million from FY 2020 to FY 2021.

**FY 2021 - The Legisature and Governor did <u>NOT</u> agree on a CRE for FY 2021. The COVID-19 pandemic hit the US in Spring of 2020, and the CRE for FY 2021 was not revised after that. The April 15th tax deadline was extended to July 15th thus pushing approximately \$783.8 million from FY 2020 to FY 2021.

**FY 2022 - Public Health Emergency order was still in place due to the COVID-19 pandemic.

Officials from the **Department of Elementary and Secondary Education**, **Office of the State Treasurer**, and **Office of the Governor** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight is uncertain how much would be appropriated and transferred into the Education Stabilization Fund, if any, but notes the maximum allowed balance in the fund at the close of any fiscal year cannot exceed ten percent of the previous year's appropriation for the foundation formula (or approximately \$366 million based on the FY 2024 appropriation). Therefore, Oversight assumes the transfer from General Revenue could exceed the \$250,000 threshold.

Oversight notes, if the fund exceeds ten percent of the previous year's foundation formula, the excess balance will be transferred to General Revenue. For simplicity, Oversight assumes the Education Stabilization Fund will not exceed the maximum allowed in the next three fiscal years.

FISCAL DESCRIPTION

This bill creates the "Education Stabilization Fund" to which the Governor may transfer appropriated money. In any fiscal year in which actual revenues are less than revenue estimates upon which appropriations are based, the Governor, subject to appropriations may transfer from the Education Stabilization Fund to the foundation formula administered by the Department of Elementary and Secondary Education an amount necessary to provide public schools full funding. The bill limits the Fund to 10% of the previous fiscal year appropriation to the foundation formula, and any excess over 10% shall be transferred by appropriation to the General Revenue Fund.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
