## FISCAL ANALYSIS

### ASSUMPTION

#### Sections 115.635 – Tampering with an Election Official

Officials from the **Department of Corrections (DOC)** state this proposal modifies provisions relating to elections. Section 115.635 is modified to include descriptions of offenses related to tampering with an election official. The penalty associated with these offenses is deemed a misdemeanor, unless actions result in death or bodily injury to an election official or their family, in which case the penalty is a class B felony.

As misdemeanors fall outside the purview of the Department of Corrections, they will not be analyzing their projected impact. Thus, as it relates to DOC, the intent of the bill is to create one new class B felony offense. As these are new crimes, there is little direct data on which to base an estimate, and as such, the department estimates an impact comparable to the creation of a new class B felony.

Given the seriousness of class B felony offenses and that the introduction of a completely new class B felony offense is a rare event, the department assumes the admission of one person per year to prison following the passage of the legislative proposal.

Offenders committed to prison with a class B felony as their most serious sentence, have an average sentence length of 9.0 years and served, on average, 3.4 years in prison prior to first release. The department assumes one third of the remaining sentence length will be served in prison as a parole return, and the rest of the sentence will be served on supervision in the community.

The cumulative impact on the department is estimated to be 5 additional offenders in prison and 4 additional offenders on field supervision by FY 2033.

\* If this impact statement has changed from statements submitted in previous years, it could be due to an increase/decrease in the number of offenders, a change in the cost per day for institutional offenders, and/or an increase in staff salaries.

If the projected impact of legislation is less than 1,500 offenders added to or subtracted from the department's institutional caseload, the marginal cost of incarceration will be utilized. This cost of incarceration is \$26.545 per day or an annual cost of \$9,689 per offender and includes such costs as medical, food, and operational E&E. However, if the projected impact of legislation is 1,500 or more offenders added or removed to the department's institutional caseload, the full

cost of incarceration will be used, which includes fixed costs. This cost is \$99.90 per day or an annual cost of \$36,464 per offender and includes personal services, all institutional E&E, medical and mental health, fringe, and miscellaneous expenses. None of these costs include construction to increase institutional capacity.

DOC's cost of probation or parole is determined by the number of P&P Officer II positions that are needed to cover its caseload. The DOC average district caseload across the state is 51 offender cases per officer. An increase/decrease of 51 cases would result in a cost/cost avoidance equal to the salary, fringe, and equipment and expenses of one P&P Officer II. Increases/decreases smaller than 51 offender cases are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, the DOC will use the average caseload figure for that specific type of offender to calculate cost increases/decreases.

**Oversight** does not have any information contrary to that provided by DOC. Therefore, Oversight will reflect DOC's impact for fiscal note purposes.

**Oversight** assumes this proposal will not create the number of new cases required to request additional FTE for the SPD and that the SPD can absorb the additional caseload required by this proposal with current staff and resources. Therefore, Oversight will reflect no fiscal impact to the SPD for fiscal note purposes. However, if multiple bills pass which require additional staffing and duties, the SPD may request funding through the appropriation process.

#### Bill as a whole

Officials from the **Office of the Secretary of State** assume the proposal will not have a fiscal impact to their office, other than the potential promulgation of rules (below).

Officials from the **Missouri Highway Patrol**, the **Office of the State Public Defender** the **Missouri Office of Prosecution Services**, the **Jackson County Election Authority**, the **Platte County Election Authority**, the **St. Louis City Board of Elections**, and the **St. Louis County Election Authority** each assume the proposal will have no fiscal impact on their respective organizations for this proposal.

#### Rule Promulgation

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the

General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.
