FISCAL ANALYSIS

ASSUMPTION

Officials from the **Missouri Department of Transportation (MoDOT)** assume the following regarding this proposal:

This amendment to the Missouri Constitution could have a substantial impact on MoDOT and the Missouri Highways and Transportation Commission (MHTC). The General Assembly would be able to pick and choose projects to be funded and completed regardless of need or priority. This would largely supplant the current planning process. The current process relies on extensive public involvement to include local elected officials, coupled with objective criteria from MoDOT, such as crash data and road and bridge condition. The goal is to prioritize road and bridge needs by region.

Oversight notes that MoDOT's response did not suggest any direct fiscal impact: therefore, Oversight assumes any fiscal impact from this proposal would be indirect to MoDOT and therefore we will not reflect a fiscal impact on the fiscal note.

Officials from the **Missouri Senate, Missouri House of Representatives and Joint Committee on Administrative Rules** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from **Office of the Secretary of State (SOS)** assume, each year, a number of joint resolutions that would refer to a vote of the people a constitutional amendment and bills that would refer to a vote of the people the statutory issue in the legislation may be considered by the General Assembly.

Unless a special election is called for the purpose, Joint Resolutions proposing a constitutional amendment are submitted to a vote of the people at the next general election. Article XII section 2(b) of the Missouri Constitution authorizes the governor to order a special election for constitutional amendments referred to the people. If a special election is called to submit a Joint Resolution to a vote of the people, section 115.063.2 RSMo requires the state to pay the costs. The cost of the special election has been estimated to be \$10 million based on the cost of the 2022 primary and general election reimbursements.

The Secretary of State's office is required to pay for publishing in local newspapers the full text of each statewide ballot measure as directed by Article XII, Section 2(b) of the Missouri Constitution and Section 116.230-116.290, RSMo. Funding for this item is adjusted each year depending upon the election cycle. A new decision item is requested in odd numbered fiscal years and the amount requested is dependent upon the estimated number of ballot measures that

will be approved by the General Assembly and the initiative petitions certified for the ballot. In FY 2014, the General Assembly changed the appropriation so that it was no longer an estimated appropriation.

For the FY24 petitions cycle, the SOS estimates publication costs at \$70,000 per page. This amount is subject to change based on number of petitions received, length of those petitions and rates charged by newspaper publishers.

The Secretary of State’s office will continue to assume, for the purposes of this fiscal note, that it should have the full appropriation authority it needs to meet the publishing requirements. Because these requirements are mandatory, the SOS reserves the right to request funding to meet the cost of the publishing requirements if the Governor and the General Assembly again change the amount or continue to not designate it as an estimated appropriation.

Oversight has reflected, in this fiscal note, the state potentially reimbursing local political subdivisions the cost of having this joint resolution voted on during a special election in fiscal year 2024. This reflects the decision made by the Joint Committee on Legislative Research that the cost of the elections should be shown in the fiscal note. The next scheduled statewide primary election is in August 2024 and the next scheduled general election is in November 2024 (both in FY 2025). It is assumed the subject within this proposal could be on one of these ballots; however, it could also be on a special election called for by the Governor (a different date). Therefore, Oversight will reflect a potential election cost reimbursement to local political subdivisions in FY 2024.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

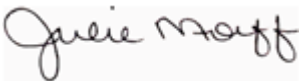

FISCAL DESCRIPTION

Upon voter approval, this proposed Constitutional amendment would give the General Assembly the power to veto any Department of Transportation spending plan, including the Department's Statewide Transportation Improvement Program.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
