FISCAL ANALYSIS

ASSUMPTION

Sections 376.2100 - 376.2108 - Prior Authorization Exemption

Officials from the **Missouri Consolidated Health Care Plan (MCHCP)** assume this legislation creates a prior authorization exemption, which would allow providers to skip prior authorization requirements if they qualify by meeting a 90% approval threshold in the 6 months prior. Once this exemption is applied, payment can only be withheld for limited reasons that does not include the service being later found not medically necessary in whole or in part.

It is unknown how many providers serving MCHCP members would qualify for this exemption. For this calculation, it is assumed that 15% of providers would qualify. It is also unknown how many cases would be authorized under the exemption that would otherwise be deemed not medically necessary in whole or in part. It is assumed a 5% utilization increase once Prior Authorization controls are off. HB 1976 would have an estimated impact of \$1,300,000 to \$2,100,000 for MCHCP.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect the cost estimated provided by MCHCP, broken out as follows:

General Revenue Fund -	\$819,000 - \$1,323,000 (63%)
Federal Fund -	\$286,000 - \$ 462,000 (22%)
Other Fund -	\$195,000 - \$ 315,000 (15%)
Total -	\$1,300,000 - \$2,100,000 (100%)

Officials from the **Missouri Department of Transportation (MODOT)** state this bill may increase costs for plan administrators, which will likely pass on costs to the MoDOT-MSHP medical plan. This would have an unknown negative impact to the State Road Fund.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect the cost estimate as “Unknown” to the State Road Fund.

Officials from **Kansas City** assume this legislation will have a negative fiscal impact of an indeterminate amount

Officials from the **Missouri Department of Conservation** assume the proposal will have no fiscal impact on their organization.

Oversight assumes this legislation could affect other insurance plans such as the Missouri Department of Conservation and local political subdivisions. Oversight will reflect a \$0 to Unknown cost to the Conservation Commission Fund (0609) and local political subdivisions.

Officials from the **Department of Commerce and Insurance** assume the proposal will have no fiscal impact on their organization.

In response to a similar proposal from last year (HB 1045), officials from the **Department of Social Services** assume the proposal will have no fiscal impact on their organization.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Officials from the **Department of Public Safety - Missouri Highway Patrol** defer to the Missouri Department of Transportation for the potential fiscal impact of this proposal.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other cities were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill provides that a health carrier or utilization review entity cannot require health care providers to obtain prior authorization for health care services, except under certain circumstances. Prior authorization shall not be required unless an individual licensed to practice medicine in this state makes a determination that less than 90% of prior authorization requests submitted by the health care provider in the previous evaluation period, as defined in the bill, were or would have been approved.

The bill establishes separate 90% thresholds for requiring prior authorization for individual health care services or requiring prior authorization for all health care services. If the provider is a licensed physician, the determination must be made by a licensed physician with the same or similar specialty.

The bill specifies requirements for notifying the provider of determinations in the bill, requires carriers and utilization review entities to maintain an online portal giving providers access to certain information, and provides that prior authorizations may be required beginning 15 business days after notice to the provider until the end of the evaluation period. Failure to notify providers of a determination as required in the bill will constitute prior authorization of the applicable health care services.

Lastly, no health carrier or utilization review entity can deny or reduce payments to a health care provider who had a prior authorization, unless the provider made a knowing and material misrepresentation with the intent to deceive the carrier or utilization review entity, or unless the health care service was not substantially performed.

This bill will not apply to Medicaid, except with regard to a Medicaid managed care organization as defined by law. The bill also does not apply to providers who have not participated in a health benefit plan offered by the carrier for at least one full evaluation period.

This bill will not be construed to authorize providers to provide services outside the scope of their licenses, nor to require health carriers or utilization review entities to pay for care provided outside the scope of a provider's license

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
