FISCAL ANALYSIS

ASSUMPTION

§§190.053, 190.076, 190.109, 190.112 and 190.166 - Emergency medical services

Officials from the **Department of Health and Senior Services (DHSS)** state the proposed legislation modifies provisions relating to emergency medical services. Sections 190.109.6(12) and 190.109.6(13) require DHSS, Bureau of Emergency Medical Services (BEMS) to promulgate rules related to the requirements for a ground ambulance service license including “participation with regional emergency medical services advisory committees” and “ambulance service administrator qualifications.”

Section 190.166.3 of the proposed legislation requires the department to “provide notice of any determination by the department of insolvency or insufficiency of operations of a license holder to other license holders operating in the license holder's vicinity, members of the general assembly who represent the license holder's service area, the governing officials of any county or municipal entity in the license holder's service area, the appropriate regional emergency medical services advisory committee, and the state advisory council on emergency medical services.” The BEMS has the ability to mail or email a notice to all entities required by this section.

Section 190.166.4 of the proposed legislation requires the department to “immediately engage with other license holders in the area to determine the extent to which ground ambulance service may be provided to the affected service area during the time in which the license holder is unable to provide adequate services, including any long-term service arrangements.”

It is assumed that the Department can absorb the costs of this bill with current resources. However, if the workload significantly increased or other legislation was enacted, additional resources would be requested through the appropriation process.

Oversight does not have any information to the contrary. Therefore, Oversight assumes DHSS will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to DHSS for fiscal note purposes.

Officials from the **Department of Public Safety – Division of Fire Safety** and the **City of Kansas City** assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other cities, county officials, fire protection districts and ambulance districts were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

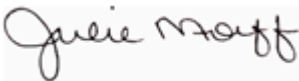

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
