FISCAL ANALYSIS

ASSUMPTION

§569.089 – Trespass by an illegal alien

Officials from the **Department of Corrections (DOC)** state this proposal creates the offense of trespass by an illegal alien. Section 569.089 defines the offense of trespass by an illegal alien as a class E felony.

As these are new crimes, there is little direct data on which to base an estimate, and as such, the department estimates an impact comparable to the creation of a new class E felony.

For each new nonviolent class E felony, the department estimates one person could be sentenced to prison and two to probation. The average sentence for a nonviolent class E felony offense is 3.4 years, of which 2.1 years will be served in prison with 1.4 years to first release. The remaining 1.3 years will be on parole. Probation sentences will be 3 years.

The cumulative impact on the department is estimated to be 2 additional offenders in prison and 7 additional offenders on field supervision by FY 2027.

If this impact statement has changed from statements submitted in previous years, it could be due to an increase/decrease in the number of offenders, a change in the cost per day for institutional offenders, and/or an increase in staff salaries.

If the projected impact of legislation is less than 1,500 offenders added to or subtracted from the department's institutional caseload, the marginal cost of incarceration will be utilized. This cost of incarceration is \$26.545 per day or an annual cost of \$9,689 per offender and includes such costs as medical, food, and operational E&E. However, if the projected impact of legislation is 1,500 or more offenders added or removed to the department's institutional caseload, the full cost of incarceration will be used, which includes fixed costs. This cost is \$99.90 per day or an annual cost of \$36,464 per offender and includes personal services, all institutional E&E, medical and mental health, fringe, and miscellaneous expenses. None of these costs include construction to increase institutional capacity.

DOC's cost of probation or parole is determined by the number of P&P Officer II positions that are needed to cover its caseload. The DOC average district caseload across the state is 51 offender cases per officer. An increase/decrease of 51 cases would result in a cost/cost avoidance equal to the salary, fringe, and equipment and expenses of one P&P Officer II. Increases/decreases smaller than 51 offender cases are assumed to be absorbable.

In instances where the proposed legislation would only affect a specific caseload, such as sex offenders, the DOC will use the average caseload figure for that specific type of offender to calculate cost increases/decreases.

Oversight does not have any information contrary to that provided by DOC. Therefore, Oversight will reflect DOC's impact for fiscal note purposes.

Officials from the **Office of the State Public Defender (SPD)** state per the recently released National Public Defense Workload Study, the new charge contemplated by this change to Section 569.089 would take approximately thirty-five hours of SPD work for reasonably effective representation. Representation in one hundred cases under this section would result in a need for an additional one to two attorneys. Because the number of cases that will be filed under this statute is unknown, the exact additional number of attorneys necessary is unknown. Each case would also result in unknown increased costs in the need for core staff, travel and litigation expenses.

Oversight assumes this proposal will not create the number of new cases required to request additional FTE for the SPD and that the SPD can absorb the additional caseload required by this proposal with current staff and resources. Therefore, Oversight will reflect no fiscal impact to the SPD for fiscal note purposes. However, if multiple bills pass which require additional staffing and duties, the SPD may request funding through the appropriation process.

Officials from the **Office of Attorney General (AGO)** assume any potential litigation costs arising from this proposal can be absorbed with existing resources. However, the AGO may seek additional appropriations if the proposal results in a significant increase in litigation or investigation.

Oversight does not have any information to the contrary. Therefore, Oversight assumes the AGO will be able to perform any additional duties required by this proposal with current staff and resources and will reflect no fiscal impact to the AGO for fiscal note purposes.

Officials from the **Missouri Office of Prosecution Services (MOPS)** assume the proposal will have no measurable fiscal impact on MOPS. The enactment of a new crime creates additional responsibilities for county prosecutors and the circuit attorney which may, in turn, result in additional costs, which are difficult to determine.

Officials from the **Department of Natural Resources, the Department of Public Safety - Missouri Highway Patrol, the Missouri Department of Conservation, the Office of the State Courts Administrator, the City of Kansas City, the Phelps County Sheriff's Department, the Kansas City Police Department, and the St. Louis County Police Department** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other cities, counties, and local law enforcement were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.
