## FISCAL ANALYSIS

### ASSUMPTION

#### §208.152 - MO HealthNet coverage of hearing aids and cochlear implants

Officials from the **Department of Social Services (DSS), MO HealthNet Division (MHD)** identified 224,154 adults who are currently enrolled in MHD Fee-for-Service could be eligible for hearing aid services. MHD estimates that 7.1% (15,915) of those adults may utilize these services. The average cost of hearing aid services is \$210.73.

This legislation would also result in an impact to the Managed Care capitation rates of up to \$10 million. The cost of the actuarial study to evaluate this program change would be no more than \$25,000 in the first year.

Due to the timing of obtaining a SPA and waiver for this legislation, MHD assumes additional costs for hearing aid services will begin in FY26. MHD estimates 80% of the participants identified will obtain hearing aid services in the first year due to pent-up demand, and 20% in subsequent years. A 6.3% medical inflation rate was used for FY27.

FY25 Total: \$25,000 (GR: \$12,500; Federal: \$12,500)

FY26 Total: Up to \$10,683,003 (GR: \$2,703,184; Federal: \$7,979,820)

FY27 Total: Up to \$2,839,008 (GR: \$718,371; Federal: \$2,120,637)

**Oversight** does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by the DSS.

Officials from the **Department of Mental Health** assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note.
