

HB 1476 -- IGNITION INTERLOCK DEVICE

SPONSOR: Sharp (37)

Currently, a person who has had his or her driver's license suspended or revoked because of an assessment of points for an intoxication-related traffic offense conviction and who has a prior alcohol-related enforcement contact must show proof to the Director of Revenue that any motor vehicle driven by the person has a certified ignition interlock device installed, and the ignition interlock device must be installed for at least six months. Under this bill, the requirement applies only to a person who has an intoxication-related traffic offense conviction in which the person's blood alcohol content was at least .08 but less than .15 and who has a prior alcohol-related enforcement contact or to a person who has an assessment of points for an intoxication-related traffic offense conviction in which the person's blood alcohol content was found to be .15 or more.

The bill also prohibits restricted driving privileges to be issued to any person whose driving record shows an intoxication-related traffic offense in which the person's blood alcohol content was found to be .15 or more until the person files proof with the Department of Revenue that any motor vehicle operated by the person is equipped with a functioning, certified ignition interlock device.

This bill is similar to HB 110 (2023).
