

HCS HB 1511 -- ELECTRIC VEHICLE CHARGING STATION REQUIREMENTS
(Murphy)

COMMITTEE OF ORIGIN: Standing Committee on Government Efficiency
and Downsizing

This bill provides that any political subdivision that adopts an ordinance, resolution, regulation, code, or policy that requires the installation of electric vehicle charging stations must pay all costs associated with the installation, maintenance, and operation of the electric vehicle charging stations.

The bill prohibits any political subdivision from requiring more than five electric vehicle charging stations per parking lot, or infrastructure for future installation of more than five vehicle charging stations, and the bill further states that such policies will only apply to parking lots with more than 30 parking spaces.

This bill is similar to HB 1584 (2022) and SCS HCS HB 184(2023).
