

HB 1524 -- ENDANGERMENT OF A HIGHWAY WORKER

SPONSOR: Buchheit-Courtway

This bill adds striking a vehicle, trailer, or other equipment owned or operated by the Missouri Department of Transportation, a contractor, or a subcontractor, including a truck or trailer-mounted crash attenuator, to what occurrences constitute "endangerment of a highway worker", and sets the fines for various versions of these crimes to exactly what was the highest discretionary fine in each.

This bill is similar to HB 745 (2023).
