

HB 1825 -- INSPECTIONS OF CERTAIN FACILITIES

SPONSOR: Smith (155)

This bill specifies that any residential care or assisted living facility that is accredited by a recognized accrediting entity may submit documentation of its status. If said facility submits that documentation asserting that the facility is accredited and in good standing with the accrediting entity, the Department of Health and Senior Services shall not conduct an annual on-site inspection of the facility for that year. However, nothing in this bill prevents the Department from conducting inspections for violations of standards or requirements.

This bill is the same as HB 1296 (2023).
