

HB 2049 -- EMPLOYMENT SECURITY

SPONSOR: Weber

This bill changes the total amount of unemployment compensation benefits an insured worker may receive during a benefit year.

Currently, that amount is limited to the lesser of 20 times his or her weekly benefit, or 33 1/3% of his or her wage credits. The bill changes the benefit maximum from 20 to 26 times the weekly benefit amount.

This bill is similar to HB 215 (2023) and HB 1729 (2022).
