

HB 2158 -- LICENSURE OF REGISTERED INTERIOR DESIGNERS

SPONSOR: Gallick

The bill defines various terms related to the practice of registered interior design, such as "interior alteration or construction project", "interior nonstructural element", "interior technical submission", and "responsible charge".

The bill states that no one can use the title of "registered interior designer" unless that person is registered by the Division of Professional Registration within the Department of Commerce and Insurance and meets the criteria of education, experience, and examination.

The bill specifies the conditions and responsibilities for a registered interior designer to seal interior technical submissions, and the exceptions and limitations for sealing documents prepared by others or not under the registered interior designer's responsible charge.
