

HB 2190 -- SELF-ADMINISTERED HORMONAL CONTRACEPTIVES COVERAGE

SPONSOR: Peters

The bill would require any health benefit plan in Missouri to reimburse a health care provider or dispensing entity for the dispensing of a supply of self-administered hormonal contraceptives intended to last up to one year, starting from January 1, 2025.

The bill would prohibit the coverage from being subject to any greater deductible or co-payment than other similar health care services provided by the health benefit plan.

This bill is similar to HB 1874 (2024) and HB 287 (2023).
