

HB 2553 -- ANNUAL PROPERTY TAX REPORTING REQUIREMENTS

SPONSOR: Oehlerking

Currently, the State Tax Commission (STC) is required to submit an annual report containing a complete account of the Commission's work, proceedings, and decisions.

This bill requires that the report also include information on all real property from each county that is totally or partially exempt from ad valorem taxes. The exempt properties shall be listed by county in the same format that is required for reassessment notices and shall be totaled for the entire state.
